## ABSTRACT

*Current Population Survey, 2015 Annual Social and Economic (ASEC) Supplement [machine-readable data file] / conducted by the Bureau of the Census for the Bureau of Labor Statistics. – Washington: U.S. Census Bureau [producer and distributor], 2015.*

### TYPE OF FILE

Microdata; unit of observation is individuals, families, and households.

### UNIVERSE DESCRIPTION

The universe is the civilian noninstitutional population of the United States living in housing units and members of the Armed Forces living in civilian housing units on a military base or in a household not on a military base. A probability sample is used in selecting housing units.

### SUBJECT-MATTER DESCRIPTION

This Annual Social and Economic (ASEC) Supplement provides the usual monthly labor force data, but in addition, provides supplemental data on work experience, income, noncash benefits, and migration. Comprehensive work experience information is given on the employment status, occupation, and industry of persons 15 years old and over. Additional data for persons 15 years old and older are available concerning weeks worked and hours per week worked, reason not working full time, total income and income components. Data on employment and income refer to the preceding year, although demographic data refer to the time of the survey.

This file also contains data covering nine noncash income sources: food stamps, school lunch program, employer-provided group health insurance plan, employer-provided pension plan, personal health insurance, Medicaid, Medicare, CHAMPUS or military health care, and energy assistance. Characteristics such as age, sex, race, household relationship, and Hispanic origin are shown for each person in the household enumerated.

### GEOGRAPHIC COVERAGE

States, regions and divisions are identified in their entirety. Within confidentiality restrictions; indicators are provided for 278 selected core-based statistical areas (CBSA), 30 selected combined statistical areas (CSA), 217 counties, and 76 central

cities in multi-central city core-based statistical areas or combined statistical areas. Also within confidentiality restrictions, indicators are provided for metropolitan/nonmetropolitan, central city/balance metropolitan, and CBSA size.

### TECHNICAL DESCRIPTION

File Structure: Hierarchical.

File Size:

Record Type	Record Number	Record Size
Household	99,461	1,092 Characters
Family	86,362	1,092 Characters
Person	199,024	1,092 Characters
Total	384,847	1,092 Characters

### REFERENCE MATERIAL

*Current Population Survey, 2015 ASEC Technical Documentation.* The documentation includes this abstract, pertinent information about the file, a glossary, code lists, and a data dictionary.

For information about the Current Population Survey and other Census Bureau data products, be sure to visit our online Question & Answer Center on the Census Bureau's home page at <http://www.census.gov/> where you can search our knowledge base and submit questions.

## RELATED PRINTED REPORTS

Data from the ASEC Current Population Survey's file are published most frequently in the Current Population Reports P-20 and P-60 series. These reports are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. They also are available on the INTERNET at <http://www.census.gov>. Forthcoming reports will be cited in *Census and You*, the *Monthly Product Announcement* (MPA), and the *Bureau of the Census Catalog and Guide*.

## HISTORICAL FILE INFORMATION

A public use edition of the Current Population Survey, ASEC file, formerly known as the March file is available for 1976, 1978, and 1979. For 1980, 1984, and 1988 two files are available for each year. The first 1980 file contains estimates based on 1970 population counts and should be used for historical comparisons ending in 1980. The reweighted 1980 file contains estimates based on results of the 1980 census and should be used for comparisons between 1981 and 1984.

In 1984, the Bureau of the Census introduced a step into the second stage weighting procedure to control individual weights to independent estimates of the Hispanic population. Since this introduction caused a major disruption in the Hispanic estimates, two data files were created. The first file, without the Hispanic controls should be used for comparing estimates for years prior to 1984 and the second file should be used for comparison with 1985 and later files.

From March 1989 forward, March data are processed using the rewrite system. The rewrite system includes revised procedures to match supplement records to basic CPS records; revised weighting procedures; revised demographic and family edits; revised imputation procedures; and more income detail on the file.

For March 1988 there are two files: the regular Annual Demographic File and the Annual Demographic Rewrite File. The rewrite file has been prepared to allow historical comparison of data from the rewrite processing system implemented between 1988 and 1989. It is recommended that the rewrite file be used when comparing data collected from the March Annual Demographic Supplement from 1988 forward. Use the regular file, released in 1988, when comparing data from 1988 and prior years.

This is not to say, however, that comparisons cannot be made between years before and after 1988. When such analyses are done, for example between 1986 through 1989, data users must consider that similarities or differences between the data may be caused or effected by the rewritten system. Thus, comparing estimates from the 1988 rewrite files and the 1988 regular file will reveal the extent of any differences caused by the processing system changes though not the specific change. The magnitude of the difference can then be applied to the estimates from 1986 and 1989 to reveal whether any real differences exist. There were several revisions made to the processing programs; therefore, it is difficult to determine which specific revision effected the differences or similarities in the data.

Some non-March data also are available from 1968 to present. For information about the Current Population Survey and other Census Bureau data products, be sure to visit our online Question & Answer Center on the Census Bureau's home page at <http://www.census.gov/> where you can search our knowledge base and submit questions.

## FILE AVAILABILITY

The file will be available on the internet through the FERRET System through the CPS main page at <http://www.census.gov/cps>. Click on DataWeb FTP Page for direct downloads, or perform partial downloads from the DataFerret tool.

# OVERVIEW

## Current Population Survey

### Introduction

The Current Population Survey (CPS) is the source of the official Government statistics on employment and unemployment. The CPS has been conducted monthly for over 50 years. Currently, we interview about 54,000 households monthly, scientifically selected on the basis of area of residence to represent the Nation as a whole, individual States, and other specified areas. Each household is interviewed once a month for four consecutive months one year, and again for the corresponding time period a year later. This technique enables us to obtain month-to-month and year-to-year comparisons at a reasonable cost while minimizing the inconvenience to any one household.

Although the main purpose of the survey is to collect information on the employment situation, a very important secondary purpose is to collect information on the demographic status of the population, information such as age, sex, race, marital status, educational attainment, and family structure. From time to time additional questions are included on such important subjects as health, education, income, and previous work experience. The statistics resulting from these questions serve to update similar information collected once every 10 years through the decennial census, and are used by Government policymakers and legislators as important indicators of our Nation's economic situation and for planning and evaluating many Government programs.

The CPS provides current estimates of the economic status and activities of the population of the United States. Because it is not possible to develop one or two overall figures (such as the number of unemployed) that would adequately describe the labor market, the CPS is designed to provide a large amount of detailed and supplementary data. Such data are made available to meet a wide variety of needs on the part of users of labor market information.

Thus, the CPS is the only source of monthly estimates of total employment (both farm and nonfarm);

nonfarm self-employed persons, domestics, and unpaid workers in nonfarm family enterprises; wage and salary employees; and, finally, estimates of total unemployment.

It provides the only available distribution of workers by the number of hours worked (as distinguished from aggregate or average hours for an industry), permitting separate analyses of part-time workers, workers on overtime, etc. The survey is also the only comprehensive current source of information on the occupation of workers and the industries in which they work. Information is available from the survey not only for persons currently in the labor force but also for those who are outside the labor force. The characteristics of such persons, whether married women with or without young children, disabled persons, students, older retired workers, etc., can be determined. Information on their current desire for work, their past work experience, and their intentions for job seeking are also available.

The Annual Social and Economic (ASEC) Supplement formerly known as the Annual Demographic File, contains the basic monthly demographic and labor force data described above, plus additional data on work experience, income, noncash benefits, and migration.

### CPS Sample

The CPS sample is based on the civilian noninstitutional population of the United States. The sample is located in 826 sample areas comprising 1,328 counties and independent cities with coverage in every State and in the District of Columbia.

In all, some 74,000 housing units or other living quarters are assigned for interview each month; about 54,000 of them containing approximately 106,000 persons 15 years old and over are interviewed. Also included are demographic data for approximately 25,000 children 0-14 years old and 450 Armed Forces members living with civilians either on or off base

within these households. The remainder of the assigned housing units are found to be vacant, converted to nonresidential use, contain persons with residence elsewhere, or are not interviewed because the residents are not found at home after repeated calls, are temporarily absent, or are unavailable for other reasons. Approximately 20,000 noninterview households are present each month. The resulting file size is approximately 150,000 records. Each year in the ASEC supplement, data are collected for Armed Forces members residing with their families in civilian housing units or on a military base. The Armed Forces members, however, are not asked the monthly labor force questions. In addition, the ASEC is supplemented with a sample of Hispanic households identified the previous November. This results in the addition of about 6,500 households (5,500 interviewed). The inclusion of the additional sample of Hispanic households began in 1976.

In 2002, the ASEC incorporated a significant sample expansion. The sample was expanded primarily to improve state estimates of children's health insurance coverage. This sample expansion, known as the CHIP sample, has three components: 1) Asking the ASEC Supplement questions of one-quarter of the February and April CPS samples, that is, of the households not also included in the March sample; 2) Interviewing selected sample households from the preceding November CPS sample during the February-April period using the ASEC Supplement; and 3) Increasing the monthly CPS sample in states with high sampling errors for uninsured children. This sample increase results in the addition of about 19,000 households to the ASEC. Adding together the regular sample (72,500), plus the Hispanic sample (6,500), plus the CHIP sample (19,000), we arrive at the total sample size for the ASEC of about 98,000 households.

The 2014 CPS ASEC included redesigned questions for income and health insurance coverage. All of the approximately 98,000 addresses were eligible to receive the improved set of health insurance coverage questions. The improved income questions were implemented to a subsample of these 98,000 addresses using a probability split panel design. Approximately 68,000 addresses were eligible to receive a set of income questions similar to those used in the 2013 CPS ASEC and the remaining 30,000 addresses were eligible to receive the redesigned income questions. The source of data for this (report/file/S&A) is the

portion of the CPS ASEC sample which received the income questions consistent with the 2013 CPS ASEC, approximately 68,000 addresses.

A more precise explanation regarding the CPS sample design is provided in Technical Paper 63RV, *The Current Population Survey: Design and Methodology*.

For a more detailed discussion about the basic labor force data gathered on a monthly basis in the CPS survey, see the Bureau of Labor Statistics Report No. 463 and the Current Population Report P-23, No. 62, issued jointly by the Bureau of Labor Statistics and the Bureau of the Census in October, 1976, and entitled *Concepts and Methods Used In Labor Statistics derived from the Current Population Survey*.

## Questionnaire

Questionnaire facsimiles of the 2015 ASEC Supplement are shown in Appendix D in this documentation.

## Revisions to the March CPS Processing System

Between 1988 and 1989 a new computer processing system was introduced for the March Current Population Survey. This processing system rewrite was long overdue; the system in use before this year was first introduced in March 1976 and was never fully updated to reflect the numerous questionnaire changes that had taken place since that time. In addition, the programs used to process the CPS file were written in a computer language that is being phased out of use at the Census Bureau. While the March 1989 file is the first to reflect this new processing system, the March 1988 file was reprocessed based on these new procedures in order to: 1) better evaluate the new processing procedures, and 2) allow year-to-year comparisons to be made between income years 1987 and 1988 using a consistent processing system.

While the following section deals mainly with modifications to the March imputation procedures and their subsequent effect on income and poverty rates, it should be pointed out that all of the processing programs were rewritten in 1989, so that not only are

the files from 1989 forward based on a somewhat different imputation system, but also reflect a rewritten weighting system, data acceptance program, family relationship edits, and new procedures to match income supplement records to the monthly CPS file. As a result, it is difficult to ascertain whether differences (especially those based on relatively small bases) are the result of imputation or other processing differences between the original and revised files.

Since the Census Bureau began imputing the missing income data on the CPS in 1962, there have been three major revisions to the processing system (in 1967, 1976, and 1988). Through all of these revisions, the basic strategy used in making imputations has remained the same. This approach, commonly referred to as "hot deck" imputation, assigns missing responses to sample persons with information from matched sample persons with similar demographic and economic information who answered these questions.

Under the new March processing system, there were three main modifications to the income imputation programs:

1. The edits and imputations were expanded to reflect the full detail of the March income questionnaire. The original processing system was still based on a less detailed CPS income questionnaire that had not been in use since 1980.
2. Under the revised processing procedures, entire sets of March income and noncash benefits data were imputed to supplement noninterviews from the same interviewed person. Under the original processing procedures, earnings, unearned income, and noncash benefits were imputed in separate stages during the processing system. Thus, the new processing system imputes noninterviews more efficiently and is better able to preserve the correlation between earnings, unearned income, and noncash benefits.
3. Both the old and new processing systems employ what are called "statistical matches" to link sample cases with reported data to those requiring imputation for missing responses. In the original processing

system, under certain circumstances, reported data were removed and replaced with imputed data during the statistical matching process. Under the new system, reported data are never removed. This was accomplished by expanding the number of statistical matches in the income imputation system.

## File Structure

There is a household record for each household or group quarters. The household record is followed by one of three possible structures:

- A. If the household contains related persons and is not a group quarters household:
  1. The family record appears next followed by person records for members of the family who are not also members of a related subfamily. The person records would be ordered: family householder, spouse of family householder, children in the family, and other relatives of the family householder.
  2. The above records may be followed by one or more related subfamily records, each related subfamily record being followed immediately by person records for members of that related subfamily. The person records would be ordered: reference person of the related subfamily, spouse of subfamily reference person, and children of subfamily reference person.
  3. The above records may be followed by one or more unrelated subfamily records, each unrelated subfamily record being followed immediately by person records for members of that unrelated subfamily. The person records would be ordered: unrelated subfamily reference person, spouse of subfamily reference person, and children of subfamily reference person.
  4. The above records may be followed by one or more persons living with nonrelatives family records, each to be

followed by the person record for the unrelated individual it represents. (See Figure 1, page 2-5.)

B. If the household contains a householder with no relatives and is not a group quarters household:

1. The family record for the nonfamily householder is followed immediately by the person record for that nonfamily householder.
2. These records may be followed by one or more unrelated subfamily records, each unrelated subfamily record being followed immediately by the person records for members of that unrelated subfamily.
3. These records may be followed by one or more family records for persons living with nonrelatives, each person living with nonrelatives family record being followed immediately by the person record for that person living with nonrelatives. (See Figure 2, page 2-6.)

C. If the household is Group Quarters:

1. The family record for persons living with nonrelatives is followed immediately by the person record for that person living with nonrelatives.
2. These records may be followed by one or more unrelated subfamily records, each unrelated subfamily record being followed immediately by the person records for members of that unrelated family.

## Relationship of Current Population Survey Files to Publications

Each month, a significant amount of information about the labor force is published by the Bureau of Labor Statistics in the Employment and Earnings and Monthly Labor Review Reports.

As mentioned previously, the CPS also serves as a vehicle for supplemental inquiries on subjects other than employment which are periodically added to the questionnaire. From the basic and supplemental data the Bureau of the Census issues four series of publications under the general title Current Population Reports:

P-20 Population Characteristics  
P-23 Special Studies  
P-27 Farm Population  
P-60 Consumer Income

Of particular interest to users of the ASEC microdata file would be those reports based on information collected in the ASEC. These reports include the following titles:

P-20 Population Profile of the United States: (Year)  
P-20 Household and Family Characteristics: March (Year)  
P-20 Households, Families, Marital Status, and Living Arrangements: March (Year)  
P-20 Geographical Mobility (Years)  
P-20 Educational Attainment in the United States (Years)  
P-20 Persons of Hispanic Origin in the United States (Year)  
P-60 Money Income and Poverty Status of Families and Persons in the United States: (Year)  
P-60 Characteristics of the Population Below the Poverty Level: (Year)  
P-60 Characteristics of Households Receiving Selected Noncash Benefits: (Year)

All Current Population Reports may be obtained by subscription from the U.S. Government Printing Office. Subscriptions are available as follows: Population Characteristics, Special Studies, Farm Population, and Consumer Income series (P-20, P-23, P-27, P-60) combined, \$71 per year (sold as a package only); Population Estimates and Projections (P-25), \$25 per year. Single issues may be ordered separately; ordering information and prices are in the *Bureau of the Census Catalog and Guide*, in *Census and You*, and the *Monthly Product Announcement* (MPA).

## Geographic Limitations

One set of estimates that can be produced from CPS microdata files should be treated with caution. These are estimates for individual metropolitan areas. Although estimates for the larger areas such as New York, Los Angeles, and so forth, should be fairly accurate and valid for a multitude of uses, estimates for the smaller metropolitan areas (those with populations under 500,000) should be used with caution because of the relatively large sampling variability associated with these estimates. For these areas, estimates comparing percent distributions and ratios will provide data with less sampling variability than estimates of levels will.

It should be kept in mind that the sample design and methods of weighting CPS data are geared towards producing estimates for the entire nation. Consequently, data for states are not as reliable as national data, and the file will lose some of its utility in certain applications. For further discussion of such considerations, the user should consult *The Current Population Survey: Design and Methodology* (Technical Paper 63RV, U.S. Bureau of the Census).

The nature of the work done by each individual investigator using the microdata file will determine to what extent his/her requirements for precision will allow using some of the smaller geographic areas identified on the file.

## Weights

For all CPS data files a single weight is prepared and used to compute the monthly labor force status estimates. An additional weight was prepared for the earnings universe which roughly corresponds to wage and salary workers in the two outgoing rotations. This is explained below in the section on earnings data. However, the difference in content of the CPS ASEC Supplement requires the presentation of additional weights: a household weight, a family weight, and a supplement weight. In this section we briefly describe the construction and use of these weights. Chapter 5 of Technical paper 40, *The Current Population Survey: Design and Methodology* provides documentation of the weighting procedures for the CPS both with and without supplement questions.

The final weight, which is the product of several adjustments, is used to produce population estimates for the various items covered in the regular monthly CPS. This weight is constructed from the basic weight for each person, which represents the probability of selection for the survey. The basic weight is adjusted for special sampling situations and failure to obtain interviews from eligible households (noninterview adjustment). A two-stage ratio estimation procedure adjusts the sample population to the known distribution of the entire population. This two-stage ratio estimation process produces factors which are applied to the basic weight (after the special weighting and noninterview adjustments are made) and results in the final weight associated with each record. In summary, the final weight is the product of: (1) the basic weight, (2) adjustments for special weighting, (3) noninterview adjustment, (4) first stage ratio adjustment factor, and (5) second stage ratio adjustment factor. This final weight should be used when producing estimates from the basic CPS data.

Differences in the questionnaire, sample and data uses for the CPS ASEC Supplement result in the need for additional adjustment procedures to produce the ASEC Supplement weight. The sample for the CPS ASEC Supplement is expanded to include male members of the Armed Forces who are living in civilian housing or with the family on a military base, as well as additional Hispanic households which are not included in the monthly labor force estimates.

The expanded sample and the need to have a husband and wife receive the same weight has resulted in a weighting system which produces the supplement weight. The supplement weight should be used for producing estimates from ASEC Supplement data.

Finally, household and family weights are the weights assigned from the householder or reference person after all adjustments have been made and should be used when tabulating estimates of families-households.

## Earnings Data

Beginning in 1982, usual hourly and weekly earnings data appear on the ASEC Supplement file (formerly known as the Annual Demographic File) for that portion of the population roughly corresponding to wage and salary workers (self-employed persons in incorporated businesses are excluded, although they are normally included with the wage and salary population). These data are now collected on a monthly basis in the two outgoing rotation groups as part of the basic CPS labor force interview.

Since the intent of the regular collection of earnings data was to initiate a family earnings data series, all persons in the two outgoing rotations receive an "earnings weight," even if they are not eligible for the

earnings item. The earnings weight is a simple ratio-estimation to the person's labor force status by age, race, and sex. When tabulating estimates of earnings based on basic CPS data, use the earnings weight.

Further information on this earnings series is contained in *Technical Description of the Quarterly Data on Weekly Earnings from the Current Population Survey*, BLS Report #601, July 1980. This report is available on request from the U.S. Department of Labor, Bureau of Labor Statistics, Washington, D.C. 20212. Attention: Office of Inquiries and Correspondence.

NOTE: For 1982 and 1983, usual weekly earnings are not present for individuals who were not paid on an hourly basis.

# MATCHING OF MARCH CPS FILES

There are two basic limitations in linking the March CPS files across years. First, only fifty percent of the sample is included in two consecutive years. Second, the residents within the eligible housing units may have changed or appeared as noninterview records in one or both years. The result is a matched sample of considerably less than the upper limit of fifty percent. The basic procedures and variables used to link two or more March CPS files are outlined below.

## Sample Selection

The first step in matching year  $t$  with year  $t+1$  is to select from year  $t$  those housing units with a "month in sample" value of 1 through 4, and from year  $t+1$

those units with a "month in sample" value of 5 through 8. This will identify the sample subset eligible for matching. Within this subset, housing units in year  $t$ , month 1 will match only with units in year  $t+1$ , month 5, etc.

## Matching Housing Units

Using one or more variables, it is possible to uniquely identify each housing unit in each sample rotation. However, because of changes in CPS procedures, the available information for matching housing units is not always identical. Below are the variables available for matching March CPS files.

Years:	1968-1971
Variables:	Random Cluster Code (F6-10) and Serial Number (F11-14)
Years:	1971-1972
	Changes in CPS clustering procedures and the accompanying change of household identification numbers prevent matching 1971 and 1972 March CPS files.
Years:	1972-1973
	The 1972 file uses 1960 random cluster codes while the 1973 file uses 1970 random cluster codes, thus precluding the matching of records.
Years:	1973-1975
Variables:	Random Cluster Code (F7-11). Segment Number (F12-16), and Serial Number (F217-218)
Years:	1975-1976
Variables:	1975: Random Cluster Code (F7-11) Segment Number (F12-16), and Serial Number (F217-218) 1976: Random Cluster Code (H35-39), Segment Number (H40-43), and Serial Number (H44-45)
Years:	1976-1977
	Matching is not possible because variables required for matching are in a different format each year.
Years:	1977-1985
Variable:	Household Identification Number (H18-29)

Years: 1985-1986  
Matching is not possible because the 1986 file is based entirely on the 1980 census design sample.

Years: 1986-1993  
Variable: Household Identification Number (H18-29)

Years: 1994-1995  
(See CPS, March 1995 User Note 1)

Years: 1995-1996  
Matching is not possible because the March 1996 file is based entirely on the 1990 Census design sample.

Years: 1996-2015\*  
Variable: Household Identification Number (H344-358)

## Matching Households, Families, and Persons

Although the information presented above allows matching of housing units across years, it is possible that the residents of the housing unit have changed. Consequently, it is necessary to perform additional matches to insure resident comparability. The specific variables used to match residents will vary according to the needs of the project but it is more efficient to arrange the matching in a hierarchical sequence. For example, matching on sex, race and line number should precede matching on age or household relationship. The user should carefully work through the possible changes in household structure that might result in an inappropriate rejection of a household. For example, a husband-wife family in year  $t$  that experienced a divorce and became a female headed household in year  $t+1$  would fail the test for matching sex of head. Clearly, the more criteria used in matching records will result in greater accuracy, but will also increase the expense and result in fewer matches.

### \*Matching to the 2014 March CPS File

The Census Bureau disseminated two public use data files based on the 2014 CPS ASEC. The 2014 CPS ASEC data collection utilized a probability split panel design to test a redesigned set of income questions. Of the approximately 98,000 addresses in the 2014 CPS ASEC production sample, a subsample of about 30,000 addresses was randomly assigned to be eligible to receive the redesigned income questions. The remaining sample (approximately 68,000 addresses) was eligible to receive the set of ASEC income questions used in previous years, referred to here as the traditional income questions.

Estimates based on the portion of the sample that received the redesigned income questions are the most appropriate for comparing estimates from ASEC 2014 with ASEC 2015 and beyond. For more information about the split panel approach for the 2014 ASEC, see <http://www.census.gov/hhes/www/poverty/data/incpovhlth/2013/Split-sample-note.doc>.

# HOW TO USE THE DATA DICTIONARY

The Data Dictionary describes the contents and record layout of the public-use computer tape file. The first line of each data item description gives the data name, size of the data field, relative begin position of the field, and the range of the values.

The next few lines contain descriptive text and any applicable notes. Categorical value codes and labels are given where needed. Comment notes marked by an (\*) are provided throughout. Comments should be removed from the machine-readable version of the data dictionary before using it to help access the data file.

**Data.** Alphabetic, numeric, and the special character (-). No other special characters are used. It may be a mnemonic such as "H-HHTYPE" or "HFIN-YN", or a sequential identifier such as "MIG-MTR1" or "SUR-SC1". Data item names are unique throughout the entire file (all 3 record types).

**Size.** Numeric. The size of a data item is given in characters. Indication of implied decimal places is provided in notes.

**Begin.** Numeric. Contains the location in the data record of the first character position of the data item field.

**Category Value.** Numeric. Contains the range of values for the given data item.

The first line of each data item description begins with the character "D" (left-justified, two characters). The "D" flag indicates lines in the data dictionary containing the name, size, and begin position of each data item. This information (in machine-readable form) can be used to help access the data file. The

line beginning with the character "U" describes the universe for that item. Lines containing categorical value codes and labels follow next and begin with the character "V". The special character (.) denotes the start of the value labels. Two examples of data item descriptions follow:

```
D H-HHTYPE      1      20  (1: 3)
U All           Type of household
V              1 . Interview
V              2 . Type A non-interview
V              3 . Type B/C non-interview
```

```
D MIG-MTR1      2      222 (01: 09)
V              01 . Nonmover
V              02 . Metro to metro
V              03 . Metro to non-metro
V              04 . Non-metro to metro
V              05 . Non-metro to non-metro
V              06 . Abroad to metro
V              07 . Abroad to non-metro
V              08 . Not in universe (Children
V              . under 1 year old)
V              09 . Not identifiable
```

## How to Distinguish Supplement Variables from Monthly Variables

Monthly variables have a prefix and trailer as follows:

1. H-, HG-, or H1 for household record variables.
2. A-, AX, PE, PR or PX for person record variables.
3. The family record contains no monthly variables.

Supplement variables are all one string or they have a suffix. For example HFIN-YN is a supplement variable on the household record.

## Machine-Readable Data Dictionary Layout

Data dictionary lines are 46 characters. The character on the first position determines the type of lines. Each variable may have the following lines:

1. COMMENTS ( " \* " ) lines
2. DATA DICTIONARY ( " D " ) ; line and DATA DESCRIPTION
3. UNIVERSE ( " U " ) lines
4. VALUE DESCRIPTION lines
5. One blank line at the end

### FORMAT

#### "\*" Line ) Comments

- a. " \* " in the first position indicates that this is a comment line. This line can appear any place in the dictionary. It will be used for short comments or to nullify any value codes.
- b. " \*\* " in the first two positions is also comments but it has additional meaning. It indicates this is a block of comments which will be applied to several variables.

#### "D" Line ) Data Dictionary

This line contains the following information:

ID	"D"	COL.	1- 1
NAME	Variable name	COL.	3-10
SIZE	Size of data field	COL.	14-15
BEGIN	Begin position of data field	COL.	19-22
CATEGORY VALUE	Range of values in parentheses	COL.	26-46

Text describing the variable will follow this "D" line. Use COL. 6-4 and repeat as many lines as necessary.

#### "U" Line ) Universe Definition

This line contains the universe definition. Use COL. 3-46 and repeat as many lines as necessary.

ID	" U "	COL.	1- 1
DESCRIPTION	Universe description	COL.	3-46

(For continuation use COL. 3-46 and repeat as many lines as necessary.)

#### "V" Line ) Value Definition

ID	" V "	COL.	1- 1
VALUE	Value code-right justified	COL.	3-12
.	" "	COL.	14
DESCRIPTION	Value description	COL.	15-46

(Repeat COL. 14-46 format for continued value description.)

# DIFFERENCES BETWEEN THE 2015 AND THE TRADITIONAL 2014 ANNUAL SOCIAL and ECONOMIC SUPPLEMENT FILES

1. In March 2015, we were in the middle of a sample redesign with about 55 percent of the sample based on the 2010 census and the balance on the 2000 census.
2. Every five years the CPS includes five-year migration questions along with the one-year migration questions. The person record contains the five-year items beginning in position 1074.
3. Item PEINUSYR (location 93 on the person record) has a revised description for the value of 23(2012-2015).
4. Item OI\_OFF (person record) has a new maximum value of 20, which is the code for alimony.
5. Item F\_MV\_FS (family record) has had an increase in length from 4 digits to 5, with a new maximum value of 24999.
6. To accommodate the new length of F\_MV\_FS, item F\_MV\_SL was shifted to new position 248.
7. Item FEDTAX\_BC (person record) had an increase in length from 6 digits to 7 digits, with new position 770.
8. Item FEDTAX\_AC (person record) had an increase in length from 6 digits to 7 digits, with new position 777.
9. To accommodate the new lengths of FEDTAX\_AC and FEDTAX\_BC, item TAX\_INC was shifted to new position 763.
10. See the Removed Variables table below for a list of variables that have been removed from the file.

### Removed Variables

Variable	Type	Position	Length
HALM_YN	household	224	1
HALM_VAL	household	225	7
GESTCEN	household	40	2
FFNGCAID	family	256	5
FFNGCARE	family	251	5
FFOODREQ	family	264	4
FHOUSREQ	family	268	4
FINC_ALM	family	181	1
FALMVAL	family	182	7
ALM_YN	person	560	1
ALM_VAL	person	561	5
I_ALMYN	person	997	1
I_ALMVAL	person	998	1
T_ALMVAL	person	1067	1
P_MVCARE	person	630	5
P_MVCAID	person	636	5
DIV_NON	person	532	1

## DESCRIPTION OF METHOD FOR TOPCODING INCOME AND RELATED VARIABLES

The 2015 ASEC public use data file uses a method that swaps values between sample cases having incomes above a determined topcode value. This method of topcoding preserves the distribution of values above the topcode while maintaining adequate disclosure avoidance.

The technique used for swapping values is termed “rank proximity swapping”. Once the topcode has been established, some persons with value above the topcode cutoff are sorted by those values from lowest to highest (values equal to the specified topcode are included in the universe of those requiring topcoding). Next, the values above the topcode are systematically swapped between sample persons. The swapping occurs within a bounded interval. This bounded interval assures that the values swapped are in “proximity” to each other, yet providing a sufficiently large group of persons from which the swap partners are selected. The Rank Proximity Swapping tables below show the topcode cutoff amount for the various sources.

The use of swapping techniques is accompanied by the procedure to round the swapped amounts. All topcoded amounts included on the public use must be rounded to two significant digits (i.e. \$987,654=\$990,000; \$12,345=\$12,000; \$9,870=\$9,900; rounded values will never exceed the maximum value on the file, i.e. \$999,999=\$999,999).

Included in the tables below are four variables, with their threshold cutoff amounts, added to the file in 2011 as part of the supplemental poverty measure.

## Rank Proximity Swapping

### Threshold Amounts for Earnings and Income Fields

Income Source	Swap Threshold <sup>1</sup>
ERN_VAL	\$280,000
WS_VAL	\$56,000
SE_VAL	\$100,000
FRM_VAL	\$40,000
SUR_VAL1	\$67,000
SUR_VAL2	\$80,000
DIS_VAL1	\$48,000
DIS_VAL2	n/a
RET_VAL1	\$66,000
RET_VAL2	\$66,000
INT_VAL	\$50,000
DIV_VAL	\$24,000
RNT_VAL	\$60,000
ED_VAL	\$36,000
CSP_VAL	\$17,000
ALM_VAL	n/a
FIN_VAL	\$40,000
OI_VAL	\$40,000
CHSP_VAL	\$20,000

### Threshold Amounts for SPM Fields

Income Source	Swap Threshold <sup>1</sup>
CARE_VAL	\$22,000
PHIP_VAL	\$13,000
PMED_VAL	\$10,000
POTC_VAL	\$2,000

---

<sup>1</sup> Values swapped are equal to, and above, this value.

### **Masking of income affects recode variables**

All combined income recodes on the data file are created *after swapping* (or masking) is performed. This means, for example, that one's total income amount may include a masked amount among the income sources in the calculation. Therefore, the total income amount may seem high when analyzing family poverty ratios. Be careful when analyzing poverty data where masked income amounts appear.

A_PAYABS	Receiving wages or salary for time off	167
A_PFREL	Primary family relationship	37
A_SEX	Sex	24
A_SPOUSE	Spouse's line number	22
A_UNCOV	Covered by a union or employee association contract	196
A_UNMEM	Member of labor union/employee association	195
A_UNTYPE	Unemployment, reason	201
A_USLFT	Worked 35 hours or more a week at job	165
A_USLHRS	Usual hrs worked per week	184
A_WANTJB	Does ... want a regular job now, either F/T or P/T	182
A_WERNTF	Current earnings - Weekly pay, value topcoded	1050

Mnemonic	Item	Location
A_WHENLJ	When did ... last work?	180
A_WHYABS	Absent from work last week, reason	166
A_WKSCH	Labor force by time worked or lost	204
A_WKSLK	Duration of unemployment	177
A_WKSTAT	Full/part-time status	202
ACTC_CRD	Child tax credit, additional	740
AGE1	Age recode, persons 15+ years	44
AGI	Adjusted gross income	758
AHIPER	Covered by any plan (where previously reported no coverage)	693
AHITYP1	Health insurance plan type (where previously no coverage reported)	694
AHITYP2	Health insurance plan type (where previously no coverage reported)	696
AHITYP3	Health insurance plan type (where previously no coverage reported)	698
AHITYP4	Health insurance plan type (where previously no coverage reported)	700
AHITYP5	Health insurance plan type (where previously no coverage reported)	702
AHITYP6	Health insurance plan type (where previously no coverage reported)	704
AXAGE	Age allocation flag	854
AXCLSWKR	Allocation flag for basic CPS	902
AXENRLW	Allocation flag for basic CPS	908
AXFTPT	Allocation flag for basic CPS	910
AXHGA	Allocation flag for basic CPS	858
AXHRLYWK	Allocation flag for basic CPS	905
AXHRS	Allocation flag for basic CPS	899
AXHSCOL	Allocation flag for basic CPS	909
AXLFSR	Allocation flag for basic CPS	911
AXMARITL	Allocation flag for basic CPS	855
AXNLFLJ	Allocation flag for basic CPS	903
AXPAYABS	Allocation flag for basic CPS	901
AXRRP	Relationship to reference person allocation flag for basic CPS	853
AXSEX	Sex allocation flag for basic CPS	857
AXSPOUSE	Spouse's line number allocation flag for basic CPS	856
AXUNCOV	Allocation flag for basic CPS	907
AXUNMEM	Allocation flag for basic CPS	906
AXUSLHRS	Allocation flag for basic CPS	904
AXWHYABS	Allocation flag for basic CPS	900
CAID	Covered by (medicaid/local name)	669
CARE	Covered by medicare	668
CH_HI	Child covered by health insurance	710
CH_MC	Child covered by medicare/medicaid	709
CHAMP	Covered by CHAMPUS, VA, or military health care	641
CHELSEW_YN	Child outside the household	832
CHSP_VAL	Child support paid amount	826
CHSP_YN	Child support required to be paid	831
CLWK	Longest job class of worker recode	281
COV_GH	Group health insurance, including dependents	707

Mnemonic	Item	Location
COV_HI	Private health insurance, including dependents	708
CSP_VAL	Child support payments value	555
CSP_YN	Child support payments received	554
CTC_CRD	Child tax credit	726
DEP_STAT	Dependency status pointer	734
DEPHI	Covered by employer or union a health plan (dependent)	652
DEPRIV	Covered by private plan not related to employment (dependent)	661
DIS_CS	Retire or leave a job for health reasons	484
DIS_HP	Health problem or a disability which prevents working	483
DIS_SC1	Source of income, disability income, source 1	486
DIS_SC2	Disability income, other, source 2	488
DIS_VAL1	Disability income amount, source 1	490

# Glossary

## Subject Concepts

### **Age**

Age classification is based on the age of the person at his/her last birthday. The adult universe (i.e., population of marriageable age) is comprised of persons 15 years old and over for the Annual Social and Economic (ASEC) Supplement data and for CPS labor force data.

### **Annuities**

(See Income.)

### **Armed Forces**

Armed Forces members enumerated in off-base housing or on base with their families are included on the CPS ASEC file. In addition to demographic and family data, supplemental data on income and work experience for Armed Forces members are included.

### **Base Weight**

The constant weight assigned to the sample (inverse of the sampling fraction) which is adjusted to produce the final weight.

### **Civilian Labor Force**

(See Labor Force.)

### **Class of Worker**

This refers to the broad classification of the person's employer. On the ASEC file, these broad classifications for current jobs are private, government, self-employed, without pay, and never worked. Private and government workers are considered "wage and salary workers;" this classification scheme includes self-employed, incorporated persons in with "private" workers. For the longest job held last year, this class of worker scheme includes private; government by level/Federal, State, and local; self-employed incorporated, self-employed unincorporated or farm; and without pay. The wage and salary category for longest job held includes private, government (all levels), and self-employed incorporated.

### **Dividends**

(See Income)

### **Duration of Unemployment**

Duration of unemployment represents the length of time (through the current survey week) during which persons classified as unemployed are continuously looking for work. For persons on layoff, duration of unemployment

represents the number of full weeks since the termination of their most recent employment. A period of two weeks or more during which a person is employed or ceased looking for work is considered to break the continuity of the present period of seeking work. Average duration is an arithmetic mean computed from a distribution by single weeks of unemployment.

### **Earners, Number of**

The file includes all persons 15 years old and over in the household with \$1 or more in wages and salaries, or \$1 or more of a loss in net income from farm or nonfarm self-employment during the preceding year.

### **Earnings Weight**

Each person record in month-in- sample 4 and 8 contains an earnings weight for current earnings.

### **Education**

(See Level of School Completed.)

### **Employed**

(See Labor Force.)

### **Energy Assistance Program**

The Low-Income Home Energy Assistance Program provides financial assistance to qualified households to help them pay heating costs. The program is funded by the Federal government and administered by the States under broad guidelines. In some States a household may automatically be eligible for this program if the household receives (1) Aid to Families with Dependent Children, (2) Food Stamps, (3) Supplemental Security Income (SSI), and (4) certain Veterans' benefits.

The energy assistance questions were asked for the first time in 1982. In 2011, the question was revised to include assistance for cooling as well as heating expenses, and the reference period was expanded from: (a) receipts since October 1 of the previous year; to (b) receipts for the entire previous calendar year.

### **Family**

A family is a group of two persons or more (one of whom is the householder) residing together and related by birth, marriage, or adoption. All such persons (including related subfamily members) are considered as members of one family. Beginning with the 1980 CPS,

unrelated subfamilies (referred to in the past as secondary families) are no longer included in the count of families, nor are the members of unrelated subfamilies included in the count of family members.

### **Family Household**

A family household is a household maintained by a family (as defined above), and may include among the household members any unrelated persons (unrelated subfamily members and/or unrelated individuals) who may be residing there. The number of family households is equal to the number of families. The count of family household members differs from the count of family members, however, in that the family household members include all persons living in the household, whereas family members include only the householder and his/her relatives (See definition of Family).

### **Family Weight**

The weight on the family record is the March supplement weight of the householder or reference person. This weight on the primary family record should be used to tabulate the number of families.

### **Farm Self-Employment Net Income**

The term is defined as net money income (gross receipts minus operating expenses) from the operation of a farm by a person on his own account, as an owner, as a renter, or as a sharecropper. Gross receipts include the value of all products sold, government crop loans, money received from the rental of farm equipment to others, and incidental receipts from the sale of wood, sand, gravel, etc.

Operation expenses include cost of feed, fertilizer, seed, and other farming supplies, cash wages paid to farm hands, depreciation charges, cash rent, interest on farm mortgages, farm building repairs, farm taxes (not State and Federal income taxes), etc. The value of fuel, food, or other farm products used for household living is not included as part of net income. Inventory changes are considered in determining net income only when they are accounted for in replies based on income tax returns or other official records which reflect inventory changes.

### **Final Weight**

Used in tabulating monthly labor force items. This weight should be used when producing estimates from the basic CPS data. It should not be used to tabulate ASEC supplement data.

### **Food Stamps**

The Food Stamp Act of 1977 was enacted for the purpose of increasing the food purchasing power of eligible households through the use of coupons to purchase food. The Food and Nutrition Service of the U.S. Department of Agriculture (USDA) administers the Food Stamp Program through State and local welfare offices. The Food Stamp Program is the major national income support program which provides benefits to all low-income and low-resource households regardless of household characteristics (e.g., sex, age, disability, etc.). The questions on participation in the Food Stamp Program in the ASEC supplement were designed to identify households in which one or more of the current members received food stamps during the previous calendar year. Once a food stamp household was identified, a question was asked to determine the number of current household members covered by food stamps during the previous calendar year. Questions were also asked about the number of months food stamps were received during the previous calendar year and the total face value of all food stamps received during that period.

### **Full-Time Worker**

Persons on full-time schedules include persons working 35 hours or more, persons who worked 1-34 hours for noneconomic reasons (e.g., illness) and usually work full-time, and persons "with a job but not at work" who usually work full-time.

### **Group Health Insurance Coverage**

Civilian persons 15 years old and over who worked in the previous calendar year and who participated in group health insurance plans provided by the employer or union were asked whether part or all of the health insurance premiums were paid for by the union or employer and the extent of persons covered.

Additional questions were asked to determine if sample persons were covered by any other type of health insurance plan. These items are intended to measure retirees covered by continuing employer provided coverage and persons who purchased coverage on their own.

### **Group Quarters**

Group quarters are noninstitutional living arrangements for groups not living in conventional housing units or groups living in housing units containing nine or more persons unrelated to the person in charge.

### **Head Versus Householder**

Beginning with the March 1980 CPS, the Census Bureau discontinued the use of the terms "head of household" and "head of family." Instead, the terms "householder"

and "family householder" are used.

### **Highest Grade of School Attended**

(See Level of School Completed.)

### **Hispanic Origin**

Persons of Hispanic origin in this file are determined on the basis of a question asking if the person is Spanish, Hispanic, or Latino. If the response is "yes," a follow-up question determines a specific ethnic origin, asking to select their (the person's) origin from a "flash card" listing. The flash-card selections are Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, Cuban American, or some other Spanish, Hispanic, or Latino group.

### **Hours of Work**

Hours of work statistics relate to the actual number of hours worked during the survey week. For example, a person who normally works 40 hours a week but who is off on the Veterans Day holiday is reported as working 32 hours even though he is paid for the holiday.

For persons working in more than one job, the figures relate to the number of hours worked in all jobs during the week. However, all the hours are credited to the major job.

### **Household**

A household consists of all the persons who occupy a house, an apartment, or other group of rooms, or a room, which constitutes a housing unit. A group of rooms or a single room is regarded as a housing unit when it is occupied as separate living quarters; that is, when the occupants do not live with any other person in the structure, and when there is direct access from the outside or through a common hall. The count of households excludes persons living in group quarters, such as military barracks and institutions. Inmates of institutions (mental hospitals, rest homes, correctional institutions, etc.) are not included in the survey.

### **Household Weight**

Household weight is the March Supplement weight of the householder. This weight should be used to tabulate estimates of households.

### **Householder**

The householder refers to the person (or one of the persons) in whose name the housing unit is owned or rented (maintained) or, if there is no such person, any adult member, excluding roomers, boarders, or paid employees. If the house is owned or rented jointly by a

married couple, the householder may be either the husband or the wife. The person designated as the householder on the file is the "reference person" on the CPS-260 control card to whom the relationship of all other household members, if any, is recorded.

### **Householder With No Other Relatives in Household**

A householder who has no relatives living in the household. This is the entry for a person living alone. Another example is the designated householder of an apartment shared by two or more unrelated individuals.

### **Householder With Other Relatives (Including Spouse) in Household**

The person designated as householder if he/she has one or more relatives (including spouse) living in the household.

### **Income**

For each person in the sample who is 15 years old and over, questions are asked on the amount of money income received in the preceding calendar year from each of the following sources: (1) money wages or salary; (2) net income from nonfarm self-employment; (3) net income from farm self-employment; (4) Social Security or railroad retirement; (5) Supplemental Security Income; (6) public assistance or welfare payments; (7) interest (on savings or bonds); (8) dividends, income from estates or trusts, or net rental income; (9) veterans' payment or unemployment and workmen's compensation; (10) private pensions or government employee pensions; (11) alimony or child support, regular contributions from persons not living in the household, and other periodic income.

Although income statistics refer to receipts during the preceding year, the characteristics of the person such as age, labor force status, etc., and the composition of households refer to the time of the survey. The income of the household does not include amounts received by persons who are members of the household during all or part of the income year if these persons no longer reside with the household at the time of enumeration. On the other hand, household income includes amounts reported by persons who did not reside with the household during the income year but who were members of the household at the time of enumeration.

Data on consumer income collected in the CPS by the Census Bureau cover money income received (exclusive of certain money receipts such as capital gains) before payments for personal income taxes, Social Security, union dues, Medicare deductions, etc. Also, money

income does not reflect the fact that some households receive part of their income in the form of non-money transfers such as food stamps, health benefits, subsidized housing, and energy assistance; that many farm households receive non-money income in the form of rent free housing and goods produced and consumed on the farm; or that non-money income is received by some nonfarm residents that often takes the form of the use of business transportation and facilities, or full or partial contributions for retirement programs, medical and educational expenses, etc. These elements should be considered when comparing income levels. Moreover, readers should be aware that for many different reasons there is a tendency in household surveys for respondents to under report their income. From an analysis of independently derived income estimates, it has been determined that wages and salaries tend to be much better reported than such income types as public assistance, Social Security, and net income from interest, dividends, rents, etc.

#### **Income Sources - Wages and Salary**

Money wages or salary is defined as total money earnings received for work performed as an employee during the income year. It includes wages, salary, Armed Forces pay, commissions, tips, piece-rate payments, and cash bonuses earned, before deductions are made for taxes, bonds, pensions, union dues, etc. Earnings for self-employed incorporated businesses are considered wage and salary.

#### **Income Sources - Nonfarm Self-Employment**

Net income from nonfarm self-employment is net money income (gross receipts minus expenses) from one's own business, professional enterprise, or partnership. Gross receipts include the value of all goods sold and services rendered. Expenses include costs of goods purchased, rent, heat, light, power, depreciation charges, wages and salaries paid, business taxes (not personal income taxes), etc. In general, inventory changes are considered in determining net income since replies based on income tax returns or other official records do reflect inventory changes. However, when values of inventory changes are not reported, net income figures exclusive of inventory changes are accepted. The value of saleable merchandise consumed by the proprietors of retail stores is not included as part of net income.

#### **Income Sources - Farm Self-Employment**

Net income from farm self-employment is net money income (gross receipts minus operating expenses) from the operation of a farm by a person on his own account, as an owner, as a renter, or as a sharecropper. Gross receipts include the value of all products sold, government crop loans, money received from the rental

of farm equipment to others, and incidental receipts from the sale of wood, sand, gravel, etc.

Operating expenses include cost of feed, fertilizer, seed, and other farming supplies, cash wages paid to farm hands, depreciation charges, cash rent, interest on farm mortgages, farm building repairs, farm taxes (not State and Federal income taxes), etc. The value of fuel, food, or other farm products used for family living is not included as part of net income. In general, inventory changes are considered in determining net income only when they are accounted for in replies based on income tax returns or other official records which reflect inventory changes; otherwise, inventory changes are not taken into account.

#### **Income Sources - Social Security**

Social Security includes Social Security pensions and survivors' benefits, and permanent disability insurance payments made by the Social Security Administration prior to deductions for medical insurance and railroad retirement insurance checks from the U.S. Government. "Medicare" reimbursements are not included.

#### **Income Sources - Supplemental Security Income**

Supplemental Security Income includes payments made by Federal, State, and local welfare agencies to low income persons who are (1) aged (65 years old and over), (2) blind, or (3) disabled.

#### **Income Sources - Public Assistance**

Public assistance or welfare payments include public assistance payments such as Aid to Families with Dependent Children and general assistance.

#### **Income Sources - Interest and Dividends**

Interest, dividends, income from estates or trusts, net rental income or royalties include dividends from stockholdings or membership in associations, interest on savings or bonds, periodic receipts from estates or trust funds, net income from rental of a house, store, or other property to others, receipts from boarders or lodgers, and net royalties.

#### **Income Sources - Unemployment Compensation**

Worker's Compensation, and Veterans' Payments. Unemployment compensation, veterans' payments, or worker's compensation includes: (1) unemployment compensation received from government unemployment insurance agencies or private companies during periods of unemployment and any strike benefits received from union funds; (2) money paid periodically by the Veterans Administration to disabled members of the Armed Forces or to survivors of deceased veterans,

subsistence allowances paid to veterans for education and on-the-job training, as well as so-called "refunds" paid to ex-servicemen as GI insurance premiums; and (3) worker's compensation received periodically from public or private insurance companies for injuries incurred at work. The cost of this insurance must have been paid by the employer and not by the person.

### **Income Sources - Private and Government Pensions and Annuities**

Many employers and unions have established pension program their employees so that upon retirement the employee will receive regular income to replace his/her earnings. Many of these programs also provide income to the employees if he/she becomes severely disabled, or to his/her survivors if the employee dies. Other types of retirement income include annuities and paid up life insurance policies. Some people purchase annuities which yield a set amount over a certain number of years. Other people may convert their paid up life insurance policy into an annuity after they retire.

### **Income Sources - Alimony and Child Support**

Alimony is money received periodically from a former spouse following a divorce or separation.

Child support is money received from a parent for the support of their children following a divorce or legal separation. Money received from relatives, other than the parent, or friends is not considered as child support.

### **Receipts Not Counted As Income**

Receipts from the following sources are not included as income: (1) money received from the sale of property, such as stocks, bonds, a house, or a car (unless the person is engaged in the business of selling such property, in which case the net proceeds is counted as income from self-employment); (2) withdrawals of bank deposits; (3) money borrowed; (4) tax refunds; (5) gifts; and (6) lump-sum inheritances of insurance payments.

### **Industry, Occupation, and Class of Worker (I&O) - Current Job (basic data)**

For the employed, current job is the job held in the reference week (the week before the survey). Persons with two or more jobs are classified in the job at which they worked the most hours during the reference week. The unemployed are classified according to their latest full-time job lasting two or more weeks or by the job (either full-time or part-time) from which they were on layoff. The I&O questions are also asked of persons not in the labor force who are in the fourth and eighth months in sample and who have worked in the last five years. The occupation/industry classification system for the 2000 Census was used to code CPS data beginning with the January 2003 file. See Table 1 below; the occupation classifications underwent revisions in 2011, to make them consistent with Census 2010.

**Table 1**

Subject		Current or Most Recent Full-Time Job	Longest Job Last Year (Work Exp)
		Character Position	
Industry	4 digit detailed	P 168-171	P 292-295
	2-digit detailed	P 209-210	P 287-288
	(Recode)		
	Major Group Recode	P 207-208	P 289-290
Occupation	4-digit detailed	P 172-175	P 296-299
	2-digit detailed	P 213-214	P 283-284
	(Recode)		
	Major Group Recode	P 211-212	P 285-286
Class of Worker		P 176	P 291

## **Industry, Occupation, and Class of Worker- Longest Job (supplement data)**

Longest job applies to the job held longest during the preceding year for persons who worked that year, without regard to their current employment status.

### **Job Seekers**

All unemployed persons who made specific efforts to find a job sometime during the 4-week period preceding the survey week.

### **Keeping House**

Persons are classified as keeping house if they engage in own housework. This is one of the "not in labor force" classifications employment status recode (ESR) = 4.

### **LFSR (Labor Force Status Recode)**

This classification is available for each civilian 15 years old and over according to his/her responses to the monthly (basic) labor force items.

### **Labor Force**

Persons are classified as in the labor force if they are employed, unemployed, or in the Armed Forces during the survey week. The "civilian labor force" includes all civilians classified as employed or unemployed. The file includes labor force data for civilians age 15 and over. However, the official definition of the civilian labor force is age 16 and over.

## **1. Labor Force – Employed**

Employed persons comprise (1) all civilians who, during the survey week did any work at all as paid employees or in their own business or profession, or on their own farm, or who work 15 hours or more as unpaid workers on a farm or a business operated by a member of the family; and (2) all those who have jobs but who are not working because of illness, bad weather, vacation, or labor- management dispute, or because they are taking time off for personal reasons, whether or not they are seeking other jobs. These persons would have an Labor Force Status Recode (LFSR) of 1 or 2 respectively in character 145 of the person record which designates "at work" and "with a job, but not at work." Each employed person is counted only once. Those persons who held more than one job are counted in the job at which they worked the greatest number of hours during the survey week. If they worked an equal number of hours at more than one job, they are counted at the job they held the longest.

## **2. Labor Force – Unemployed**

Unemployed persons are those civilians who, during the survey week, have no employment but are available for work, and (1) have engaged in any specific job seeking activity within the past 4 weeks such as registering at a

public or private employment office, meeting with prospective employers, checking with friends or relatives, placing or answering advertisements, writing letters of application, or being on a union or professional register; (2) are waiting to be called back to a job from which they had been laid off; or (3) are waiting to report to a new wage or salary job within 30 days. These persons would have an LFSR code of 3 or 4 in the person record. The unemployed includes job leavers, job losers, new job entrants, and job reentrants.

### **2a. Unemployed - Job Leavers**

Persons who quit or otherwise terminate their employment voluntarily and immediately begin looking for work.

### **2b. Unemployed - Job Losers**

Persons whose employment ends involuntarily, who immediately begin looking for work, and those persons who are already /on layoff.

### **2c. Unemployed - New Job Entrants**

Persons who never worked at a full-time job lasting two weeks or longer.

### **2d. Unemployed - Job Reentrants**

Persons who previously worked at a full-time job lasting two weeks or longer but are out of the labor force prior to beginning to look for work.

## **3. Labor Force - Not in Labor Force**

Included in this group are all persons in the civilian noninstitutional population who are neither employed nor unemployed. Information is collected on their desire for and availability to take a job at the time of the CPS interview, job search activity in the prior year, and reason for not looking in the 4-week period prior to the survey week. This group includes discouraged workers, defined as persons not in the labor force who want and are available for a job and who have looked for work sometime in the past 12 months (or since the end of their last job if they held one within the past 12 months), but who are not currently looking because they believe there are no jobs available or there are none for which they would qualify. Such persons have an LFSR code of 7 in the person record.

Finally, it should be noted that the unemployment rate represents the number of persons unemployed as a percent of the civilian labor force 16 years old and over. This measure can also be computed for groups within the labor force classified by sex, age, marital status, race, etc. The job loser, job leaver, reentrant, and new entrant rates are each calculated as a percent of the civilian labor

force 16 years old and over; the sum of the rates for the four groups thus equals the total unemployment rate.

### **Layoff**

A person who is unemployed but expects to be called back to a specific job. If he/she expects to be called back within 30 days, it is considered a temporary layoff; otherwise, it is an indefinite layoff.

### **Level of School Completed/Degree Received**

These data changed on the March 1992 file. A new question, "What is the highest level of school ... has completed or the highest degree ... has received? Replace the old "highest grade attended" and "year completed" questions. The new question provides more accurate data on the degree status of college students. Educational attainment applies only to progress in "regular" school. Such schools include graded public, private, and parochial elementary and high schools (both junior and senior high), colleges, universities, and professional schools, whether day schools or night schools. Thus, regular schooling is that which may advance a person toward an elementary school certificate or high school diploma, or a college, university, or professional school degree. Schooling in other than regular schools is counted only if the credits obtained are regarded as transferable to a school in the regular school system.

### **Looking for Work**

A person who is trying to get work or trying to establish a business or profession.

### **March Supplement Weight**

The March supplement weight is on all person records and is used to produce "supplement" estimates; that is, income, work experience, migration, and family characteristic estimates.

### **Marital Status**

The marital status classification identifies four major categories: single (never married), married, widowed, and divorced. These terms refer to the marital status at the time of enumeration.

The category "married" is further divided into "married, civilian spouse present," "married, Armed Force spouse present," "married, spouse absent," "married, Armed Force spouse absent," and "separated." A person is classified as "married, spouse present" if the husband or wife is reported as a member of the household even though he or she may be temporarily absent on business or on vacation, visiting, in a hospital, etc., at the time of the enumeration. Persons reported as "separated"

included those with legal separations, those living apart with intentions of obtaining a divorce, and other persons permanently or temporarily estranged from their spouses because of marital discord.

For the purpose of this file, the group "other marital status" includes "widowed and divorced," "separated," and "other married, spouse absent."

### **Medicare**

The Medicare Program is designed to provide medical care for the aged and disabled. The Basic Hospital Insurance Plan (Part A) is designed to provide basic protection against hospital costs and related post-hospital services. This plan also covers many persons under 65 years old who receive Social Security or railroad retirement benefits based on long-term disability. Part A is financed jointly by employers and employees through Social Security payroll deductions. Qualified persons 65 years old and over who are not otherwise eligible for Part A benefits may pay premiums directly to obtain this coverage. The Medical Insurance Plan (Part B) is a voluntary plan which builds upon the hospital insurance protection provided by the basic plan. It provides insurance protection covering physicians' and surgeons' services and a variety of medical and other health services received either in hospitals or on an ambulatory basis. It is financed through monthly premium payments by each enrollee, and subsidized by Federal general revenue funds.

The Medicare question on the ASEC supplement attempted to identify all persons 15 years old and over who were "covered" by Medicare at any time during the previous calendar year. The term "covered" means enrolled in the Medicare Program. In order to be counted, the person did not necessarily have to receive medical care paid for by Medicare.

### **Medicaid**

The Medicaid Program is designed to provide medical assistance to needy families with dependent children, and to aged, blind, or permanently and totally disabled individuals whose incomes and resources are insufficient to meet the costs of necessary medical services. The program is administered by State agencies through grants from the Health Care Financing Administration of the Department of Health and Human Services. Funding for medical assistance payments consists of a combination of Federal, State, and in some cases, local funds.

Medicaid is a categorical program with complex eligibility rules which vary from State to State. There are two basic groups of eligible individuals: the categorically eligible and the medically needy. The major categorically eligible groups are all Aid to Families with Dependent Children (AFDC) recipients and most Supplemental Security Income (SSI) recipients. Other categorically eligible groups are (1) those who meet basic State cash assistance eligibility rules/aged, blind, disabled, needy single parents with children, and, in some States, needy unemployed parents with children, but who are not currently receiving money payments; and (2) needy persons who meet categorical eligibility standards but are institutionalized for medical reasons (e.g., low-income elderly persons in nursing homes). However, such institutionalized persons are not included in the CPS universe and, therefore, are not reflected in these statistics.

In roughly one-half of the States, coverage is extended to the medically needy/persons meeting categorical age, sex, or disability criteria, whose money incomes and assets exceed eligibility levels for cash assistance but are not sufficient to meet the cost of medical care. In such States, qualifying income and asset levels are usually above those set for cash assistance. Families with large medical expenses relative to their incomes and assets may also meet medically needy eligibility standards in these States.

The Medicaid question on the ASEC supplement attempted to identify all persons who were "covered" by Medicaid at any time during the previous calendar year. The term "covered" means enrolled in the Medicaid program, i.e., had a Medicaid medical assistance card, or incurred medical bills which were paid for by Medicaid. In order to be counted, the person did not have to receive medical care paid for by Medicaid.

After data collection and creation of an initial microdata file, further refinements were made to assign Medicaid coverage to children. In this procedure all children under 21 years old in families were assumed to be covered by Medicaid if either the householder or spouse reported being covered by Medicaid (this procedure was required mainly because the Medicaid coverage question was asked only for persons 15 years old and over). All adult AFDC recipients and their children, and SSI recipients living in States which legally require Medicaid coverage of all SSI recipients, were also assigned coverage.

### **Mobility Status**

The population of the United States, 15 years old and over, is classified according to mobility status on the basis of a comparison between the place of residence of each individual at the time of the ASEC supplement and the place of residence in March of the previous year.

The information on mobility status is obtained from the responses to a series of inquiries. The first of three inquiries is: "Was \_\_\_ living in this house one year ago?" If the answer was "No," the enumerator asked, "Where did \_\_\_ live on March 1, (last year)?" In classification, three main categories distinguish nonmovers, movers, and movers from abroad.

Nonmovers are all persons who are living in the same house at the end of the period as at the beginning of the period. Movers are all persons who are living in a different house at the end of the period than at the beginning of the period. Movers from abroad include all persons, either citizens or aliens, whose place of residence is outside the United States at the beginning of the period, that is, in an outlying area under the jurisdiction of the United States or in a foreign country. The mobility status for children is fully allocated from the mother if she is in the household; otherwise it is allocated from the householder.

### **Month-In-Sample**

The term is defined as the number of times a unit is interviewed. Each unit is interviewed eight times during the life of the sample.

### **Never Worked**

A person who has never held a full-time civilian job lasting two consecutive weeks or more.

### **Nonfamily Householder**

A nonfamily householder (formerly called a primary individual) is a person maintaining a household while living alone or with nonrelatives only.

### **Nonfarm Self-employment Net Income**

The term is defined as net money income (gross receipts minus expenses) from an individual's own business, professional enterprise, or partnership. Gross receipts include the value of all goods sold and services rendered. Expenses include costs of goods purchased, rent, heat, light, power, depreciation charges, wages and salaries paid, business taxes (not personal income taxes), etc. In general, inventory changes are considered in determining net income; replies based on income tax returns or other official records do reflect inventory changes; however, when values of inventory changes are not reported, net income figures exclusive of inventory changes are

accepted. The value of saleable merchandise consumed by the proprietors of retail stores is not included as part of net income.

**Nonworker**

A person who did not do any work in the calendar year preceding the survey.

**Nonrelative of Householder With No Own Relatives in Household**

A nonrelative of the householder who has no relative(s) of his own in the household. This category includes such nonrelatives as a ward, a lodger, a servant, or a hired hand, who has no relatives of his own living with him in the household.

**Nonrelative of Householder With Own Relatives (Including Spouse) in Household**

Any household member who is not related to the householder but has relatives of his own in the household; for example, a lodger, his spouse, and their son.

**Other Relative of Householder**

Any relative of the householder other than his spouse, child (including natural, adopted, or step child), sibling, or parent; for example, grandson, daughter-in-law, etc.

**Own Child**

A child related by birth, marriage, or adoption to the family householder.

**Part-Time, Economic Reasons**

The item includes slack work, material shortages, repairs to plant or equipment, start or termination of job during the week, and inability to find full-time work. (See also Full-Time Worker.)

**Part-Time Other Reasons**

The item includes labor dispute, bad weather, own illness, vacation, demands of home housework, school, no desire for full-time work, and full-time worker only during peak season.

**Part-Time Work**

Persons who work between 1 and 34 hours are designated as working "part-time" in the current job held during the reference week. For the March supplement, a person is classified as having worked part-time during the preceding calendar year if he worked less than 35 hours per week in a majority of the weeks in which he worked during the year. Conversely, he is classified as having worked full-time if he worked 35 hours or more

per week during a majority of the weeks in which he worked.

**Part-Year Work**

Part-year work is classified as less than 50 weeks' work.

**Pension Plan**

The pension plan question on the ASEC supplement attempted to identify if pension plan coverage was available through an employer or union and if the employee was included. This information was collected for civilian persons 15 years old and over who worked during the previous calendar year.

**Population Coverage**

Population coverage includes the civilian population of the United States plus approximately one million members of the Armed Forces in the United States living off post or with their families on post but excludes all other members of the Armed Forces. This file excludes inmates of institutions. The labor force and work experience data are not collected for Armed Forces members.

**Poverty**

In this file, families and unrelated individuals are classified as being above or below the poverty level using a poverty index adopted by a Federal Interagency Committee in 1969 and slightly modified in 1981.

The modified index provides a range of income cutoffs or "poverty thresholds" adjusted to take into account family size, number of children, and age of the family householder or unrelated individual; prior to 1981, adjustments were also made on the basis of farm-nonfarm residence and sex of the householder.

The impact of these revisions on the poverty estimates is minimal at the national level. The poverty cutoffs are updated every year to reflect changes in the Consumer Price Index. The average poverty threshold for a family of four was \$12,091 in 1985. For a detailed explanation of the poverty definition, see Current Population Reports, Series P-60, No. 238, Income, Poverty, and Health Insurance Coverage in the United States: 2009.

**Public Assistance**

(See Income.)

**Public or Other Subsidized Housing**

Participation in public housing is determined by two factors: program eligibility and the availability of housing. Income standards for initial and continuing

occupancy vary by local housing authority, although the limits are constrained by Federal guidelines. Rental charges, which, in turn, define net benefits, are set by a Federal statute not to exceed 30 percent of net monthly money income. A recipient unit can either be a family of two or more related persons or an individual who is handicapped, elderly, or displaced by urban renewal or natural disaster.

There are some programs through which housing assistance is provided to low-income families and individuals living in public or privately owned dwellings. Two of the more common types of programs in which Federal, State, and local funds are used to subsidize private sector housing are rent supplement and interest reduction plans. Under a rent supplement plan the difference between the "fair market" rent and the rent charged to the tenant is paid to the owner by a government agency. Under an interest reduction program the amount of interest paid on the mortgage by the owner is reduced so that subsequent savings can be passed along to low income tenants in the form of lower rent charges.

There were two questions dealing with public and low cost housing on the ASEC supplement questionnaire. The first question identifies residence in a housing unit owned by a public agency. The second question identifies beneficiaries who were not living in public housing projects, but who were paying lower rent due to a government subsidy. These questions differ from other questions covering noncash benefits in that they establish current reciprocity status in March of the current year rather than reciprocity status during the previous year.

### **Race**

Beginning in January 2003, revisions to race categories took effect. Respondents were allowed to report more than one race, making selections from a "flash-card". The six race groups are: White, Black or African American, American Indian or Alaskan Native, Asian, Native Hawaiian or Other Pacific Islander, and Other race. The last category includes any other race except the five mentioned. Because of these changes, data on race are not directly comparable to previous files. Use caution when interpreting changes in the racial composition of the U.S. over time.

### **Reentrants**

Persons who previously worked at a full-time job lasting two weeks or longer but who are out of the labor force prior to beginning to look for work.

### **Related Children**

Related children in a family include own children and all other children in the household who are related to the householder by birth, marriage, or adoption. For each type of family unit identified in the CPS, the count of own children under 18 years old is limited to single (never married) children; however, "own children under 25" and "own children of any age," include all children regardless of marital status. The totals include never-married children living away from home in college dormitories.

### **Related Subfamily**

A related subfamily is a married couple with or without children, or one parent with one or more own single (never married) children under 18 years old, living in a household and related to, but not including, the householder or spouse. The most common example of a related subfamily is a young married couple sharing the home of the husband's or wife's parents. The number of related subfamilies is not included in the number of families.

### **School, Major Activity**

A person who spent most of his time during the survey week attending any kind of public or private school, including trade or vocational schools in which students receive no compensation in money or kind.

### **School Lunches**

The National School Lunch Program is designed to assist States in providing a school lunch for all children at moderate cost. The National School Lunch Act of 1946 was further amended in 1970 to provide free and reduced-price school lunches for children of needy families. The program is administered by the Food and Nutrition Service of the U.S. Department of Agriculture (USDA) through State educational agencies or through regional USDA nutrition services for nonprofit private schools. The program is funded by a combination of Federal funds and matching State funds.

All students eating lunches prepared at participating schools pay less than the total cost of the lunches. Some students pay the "full established" price for lunch (which itself is subsidized) while others pay a "reduced" price for lunch, and still others receive a "free" lunch. Program regulations require students receiving free lunches to live in households with incomes below 125 percent of the official poverty level. Those students receiving a reduced-price school lunch (10 to 20 cents per meal) live in households with incomes between 125 percent and

195 percent of the official poverty level. The data in this file, however, do not distinguish between reciprocity of free and reduced-price school lunches.

The questions on the ASEC supplement provide a very limited amount of data for the school lunch program. Questions concerning the school lunch program were designed to identify the number of members 5 to 18 years old in households who "usually" ate a hot lunch. This defined the universe of household members usually receiving this noncash benefit. This was followed by a question to identify the number of members receiving free or reduced price lunches.

### **Self-Employed**

Self-employed persons are those who work for profit or fees in their own business, profession or trade, or operate a farm.

### **Secondary Individuals**

A roomer, boarder, or resident employee with no relatives in the household, or a group quarters member who has no relatives living with him/her.

### **Stretches of Unemployment**

A continuous stretch is one that is not interrupted by the person getting a job or leaving the labor market to go to school, to keep house, etc. A period of two weeks or more during which a person is employed or ceased looking for work is considered to break the continuity of the period of seeking work.

### **Topcode**

For confidentiality purposes, usual hourly earnings from the current job and earnings from the longest job are topcoded, i.e., cut off at a particular amount.

Refer to Appendix F for an explanation and topcode values of hourly earnings from the current job. Earnings from the longest job are collected during enumeration up to any amount; however, the amount is topcoded on the public use file. (See page 5-1 for more information.) From the supplement, total person's income is the sum of the amounts from the individual income types; total family income is the sum of the total persons income for each family member; total household income is the sum of the total income for each person in the household.

### **Total Money Income**

The term is defined as the arithmetic sum of money wages and salaries, net income from self-employment, and income other than earnings. The total income of a

household is the arithmetic sum of the amounts received by all income recipients in the household.

### **Unable to Work**

A person is classified as unable to work because of long-term physical or mental illness, lasting six months or longer.

### **Unemployed**

(See Labor Force.)

### **Unemployment Compensation**

(See Income.)

### **Unpaid Family Workers**

Unpaid family workers are persons working without pay for 15 hours a week or more on a farm or in a business operated by a member of the household to whom they are related by birth or marriage.

### **Unrelated Individuals**

Unrelated individuals are persons of any age (other than inmates of institutions) who are not living with any relatives. An unrelated individual may be (1) a nonfamily householder living alone or with nonrelatives only, (2) a roomer, boarder, or resident employee with no relatives in the household, or (3) a group quarters member who has no relatives living with him/her. Thus, a widow who occupies her house alone or with one or more other persons not related to her, a roomer not related to anyone else in the housing unit, a maid living as a member of her employer's household but with no relatives in the household, and a resident staff member in a hospital living apart from any relatives are all examples of unrelated individuals.

### **Unrelated Subfamily**

An unrelated subfamily is a family that does not include among its members the householder and relatives of the householder. Members of unrelated subfamilies may include persons such as guests, roomers, boarders, or resident employees and their relatives living in a household. The number of unrelated subfamily members is included in the number of household members but is not included in the count of family members.

Persons living with relatives in group quarters were formerly considered as members of families. However, the number of such unrelated subfamilies is so small that persons in these unrelated subfamilies are included in the count of secondary individuals.

**Veteran Status**

If a person served at any time during the four most recent wartime periods, the codes for all periods of service are entered. A person can report up to 4 periods of service. The following codes are used:

- 0 Children under 15
- 1 September 2001 or later
- 2 August 1990 to August 2001
- 3 May 1975 to July 1990
- 4 Vietnam era (Aug 1964 to Apr 1975)
- 5 February 1955 to July 1964
- 6 Korean War (July 1950 to January 1955)
- 7 January 1947 to June 1950
- 8 World War II (Dec. 1941 to Dec. 1946)
- 9 November 1941 or earlier

**Wage and Salary Workers**

Wage and salary workers receive wages, salary, commission, tips, or pay in kind from a private employer or from a governmental unit. Also included are persons who are self-employed in an incorporated business. (See income.)

**Weeks Worked in the Previous Year**

Persons are classified according to the number of different weeks, during the preceding calendar year, in which they did any civilian work for pay or profit (including paid vacations and sick leave) or worked without pay on a family-operated farm or business.

**Workers**

(See Labor Force--Employed.)

**Work Experience**

Includes those persons who during the preceding calendar year did any work for pay or profit or worked without pay on a family-operated farm or business at any time during the year, on a part-time or full-time basis.

**Year-Round Full-Time Worker**

A year-round full-time worker is one who usually worked 35 hours or more per week for 50 weeks or more during the preceding calendar year.

## Geographic Concepts

### Geographic Division

An area composed of contiguous States, with Alaska and Hawaii also included in one of the divisions. (A State is one of the 51 major political units in the United States.) The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 census.

### Regions

There are four regions: Northeast, Midwest (formerly North Central)<sup>1</sup>, West, and South. States and divisions within regions are presented in the tables below.

NORTHEAST REGION	
<i>New England Division</i>	<i>Middle Atlantic Division</i>
Connecticut	New Jersey
Maine	New York
Massachusetts	Pennsylvania
New Hampshire	
Rhode Island	
Vermont	

MIDWEST REGION	
<i>East North Central Division</i>	<i>West North Central Division</i>
Illinois	Iowa
Indiana	Kansas
Michigan	Minnesota
Ohio	Missouri
Wisconsin	Nebraska
	North Dakota
	South Dakota

MIDWEST REGION	
<i>Mountain Division</i>	<i>Pacific Division</i>
Arizona	Alaska
Colorado	California
Idaho	Hawaii
Montana	Oregon
Nevada	Washington
Utah	
Wyoming	
New Mexico	

---

<sup>1</sup> The Midwest Region was designated as the North Central Region until June 1964

## SOUTH REGION

<i>East South Central Division</i>	<i>West South Central Division</i>	<i>South Atlantic Division</i>
Alabama	Arkansas	Delaware
Kentucky	Louisiana	District of Columbia
Mississippi	Oklahoma	Florida
Tennessee	Texas	Georgia
		Maryland
		North Carolina
		South Carolina
		Virginia
		West Virginia

## APPENDIX A

### INDUSTRY CLASSIFICATION

Industry Classification Codes for Detailed Industry (4 digit)  
(Starting January 2014)

These categories are aggregated into 52 detailed groups and 14 major groups (see pages 10-12 of this attachment). The codes in the right hand column are the NAICS equivalent.

These codes correspond to Items PEIO1ICD and PEIO2ICD, in positions 856-859 and 864-867 of the Basic CPS record layout in all months, **except March**. In the **March**, these codes correspond to PEIOIND and INDUSTRY, in positions 168-171 and 292-295 of the Person record.

CENSUS CODE	DESCRIPTION	NAICS CODE
<b>Agriculture, Forestry, Fishing, and Hunting</b>		
0170	Crop production	111
0180	Animal production	112
0190	Forestry except logging	1131, 1132
0270	Logging	1133
0280	Fishing, hunting, and trapping	114
0290	Support activities for agriculture and forestry	115
<b>Mining</b>		
0370	Oil and gas extraction	211
0380	Coal mining	2121
0390	Metal ore mining	2122
0470	Nonmetallic mineral mining and quarrying and not specified type of mining	Part of 21
0490	Support activities for mining	213
<b>Utilities</b>		
0570	Electric power generation, transmission and distribution	Pt. 2211
0580	Natural gas distribution	Pt. 2212
0590	Electric and gas, and other combinations	Pts. 2211, 2212
0670	Water, steam, air-conditioning, and irrigation systems	22131, 22133
0680	Sewage treatment facilities	22132
0690	Not specified utilities	Part of 22

CODE	DESCRIPTION	INDUSTRY CODE
<b>Construction</b>		
0770	** Construction (Includes the cleaning of buildings and dwellings is incidental during construction and immediately after construction)	23
<b>Manufacturing</b>		
<b>Nondurable Goods manufacturing</b>		
1070	Animal food, grain and oilseed milling	3111, 3112
1080	Sugar and confectionery products	3113
1090	Fruit and vegetable preserving and specialty food manufacturing	3114
1170	Dairy product manufacturing	3115
1180	Animal slaughtering and processing	3116
1190	Retail bakeries	311811
1270	Bakeries, except retail	3118 exc. 311811
1280	Seafood and other miscellaneous foods, n.e.c.	3117, 3119
1290	Not specified food industries	Part of 311
1370	Beverage manufacturing	3121
1390	Tobacco manufacturing	3122
1470	Fiber, yarn, and thread mills	3131
1480	Fabric mills, except knitting	3132 exc. 31324
1490	Textile and fabric finishing and coating mills	3133
1570	Carpet and rug mills	31411
1590	Textile product mills, except carpets and rugs	314 exc. 31411
1670	Knitting mills	31324, 3151
1680	Cut and sew apparel manufacturing	3152
1690	Apparel accessories and other apparel manufacturing	3159
1770	Footwear manufacturing	3162
1790	Leather tanning and products, except footwear manufacturing	3161, 3169
1870	Pulp, paper, and paperboard mills	3221
1880	Paperboard containers and boxes	32221
1890	Miscellaneous paper and pulp products	32222, 32223, 32229
1990	Printing and related support activities	3231
2070	Petroleum refining	32411
2090	Miscellaneous petroleum and coal products	32419
2170	Resin, synthetic rubber and fibers, and filaments manufacturing	3252
2180	Agricultural chemical manufacturing	3253
2190	Pharmaceutical and medicine manufacturing	3254
2270	Paint, coating, and adhesive manufacturing B46	3255
2280	Soap, cleaning compound, and cosmetics manufacturing	3256
2290	Industrial and miscellaneous chemicals	3251, 3259
2370	Plastics product manufacturing	3261
2380	Tire manufacturing	32621
2390	Rubber products, except tires, manufacturing	32622, 32629

CODE	DESCRIPTION	INDUSTRY CODE
<b>Durable Goods Manufacturing</b>		
2470	Pottery, ceramics, and related products manufacturing	32711
2480	Structural clay product manufacturing	32712
2490	Glass and glass product manufacturing	3272
2570	Cement, concrete, lime, and gypsum product manufacturing	3273, 3274
2590	Miscellaneous nonmetallic mineral product manufacturing	3279
2670	Iron and steel mills and steel product manufacturing	3311, 3312
2680	Aluminum production and processing	3313
2690	Nonferrous metal, except aluminum, production and processing	3314
2770	Foundries	3315
2780	Metal forgings and stampings	3321
2790	Cutlery and hand tool manufacturing	3322
2870	Structural metals, and tank and shipping container manufacturing	3323, 3324
2880	Machine shops; turned product; screw, nut and bolt manufacturing	3327
2890	Coating, engraving, heat treating and allied activities	3328
2970	Ordinance	332992 to 332995
2980	Miscellaneous fabricated metal products manufacturing	3325, 3326, 3329 exc. 332992, 332993, 332994, 332995
2990	Not specified metal industries	Part of 331 and 332
3070	Agricultural implement manufacturing	33311
3080	Construction, mining and oil field machinery manufacturing	33312, 33313
3095	Commercial and service industry machinery manufacturing	3333
3170	Metalworking machinery manufacturing	3335
3180	Engines, turbines, and power transmission equipment manufacturing	3336
3190	Machinery manufacturing, n.e.c.	Part of 333
3365	Computer and peripheral equipment manufacturing	3341
3370	Communications, audio, and video equipment manufacturing	3342, 3343
3380	Navigational, measuring, electromedical, and control instruments manufacturing	3345
3390	Electronic component and product manufacturing, n.e.c.	3344, 3346
3470	Household appliance manufacturing	3352
3490	Electrical lighting, equipment, and supplies manufacturing, n.e.c.	3351, 3353, 3359
3570	Motor vehicles and motor vehicle equipment manufacturing	3361, 3362, 3363
3580	Aircraft and parts manufacturing	336411 to 336413
3590	Aerospace products and parts manufacturing	336414, 336415, 336419
3670	Railroad rolling stock manufacturing	3365
3680	Ship and boat building	3366
3690	Other transportation equipment manufacturing	3369

<b>CODE</b>	<b>DESCRIPTION</b>	<b>INDUSTRY CODE</b>
3770	Sawmills and wood preservation	3211
3780	Veneer, plywood, and engineered wood products	3212
3790	Prefabricated wood buildings and mobile homes	321991, 321992
3875	Miscellaneous wood products	3219 exc. 321991, 321992
3895	Furniture and related product manufacturing	337
3960	Medical equipment and supplies manufacturing	3391
3970	Toys, amusement, and sporting goods manufacturing	33992, 33993
3980	Miscellaneous manufacturing, n.e.c.	3399 exc. 33992, 33993
3990	Not specified manufacturing industries	Part of 31, 32, 33

### **Wholesale Trade**

#### **Durable Goods Wholesale**

4070	Motor vehicles, parts and supplies, merchant wholesalers	4231
4080	Furniture and home furnishing, merchant wholesalers	4232
4090	Lumber and other construction materials, merchant wholesalers	4233
4170	Professional and commercial equipment and supplies, merchant wholesalers	4234
4180	Metals and minerals, except petroleum, merchant wholesalers	4235
4195	Electrical goods, merchant wholesalers	4236
4265	Hardware, plumbing and heating equipment, and supplies, merchant wholesalers	4237
4270	Machinery, equipment, and supplies, merchant wholesalers	4238
4280	Recyclable material, merchant wholesalers	42393
4290	Miscellaneous durable goods, merchant wholesalers	4239 exc. 42393

#### **Nondurable Goods Wholesale**

4370	Paper and paper products, merchant wholesalers	4241
4380	Drugs, sundries, and chemical and allied products, merchant wholesalers	4242, 4246
4390	Apparel, fabrics, and notions, merchant wholesalers	4243
4470	Groceries and related products, merchant wholesalers	4244
4480	Farm product raw materials, merchant wholesalers	4245
4490	Petroleum and petroleum products, merchant wholesalers	4247
4560	Alcoholic beverages, merchant wholesalers	4248
4570	Farm supplies, merchant wholesalers	42491
4580	Miscellaneous nondurable goods, merchant wholesalers	4249 exc. 42491
4585	Wholesale electronic markets, agents and brokers	4251
4590	Not specified wholesale trade	Part of 42

CODE	DESCRIPTION	INDUSTRY CODE
<b>Retail Trade</b>		
4670	Automobile dealers	4411
4680	Other motor vehicle dealers	4412

# APPENDIX B

## OCCUPATION CLASSIFICATION

(Starting May 2012)

These categories are aggregated into 23 detailed groups and 11 major groups (see pages B-13 and B-14). The codes in the right hand column are the 2010 SOC equivalent.

These codes correspond to items PEIO1OCD and PEIO2OCD in positions 860-863 and 868-871 of the Basic CPS record layout in all months. In **ASEC**, these codes correspond to items PEIOOCC and OCCUP located in positions 172-175 and 296-299 of the Persons Record. These codes are also applicable for any other CPS supplements that collect occupation data.

2010 CENSUS CODE	DESCRIPTION	2010 SOC CODE
<b>Management Occupations</b>		
0010	Chief executives	11-1011
0020	General and operations managers	11-1021

CODE**

6920	Roustabouts, oil and gas	47-5071
6940	Other extraction workers, including roof bolters and helpers	47-50XX

**Installation, Maintenance, and Repair Workers**

7000	First-line supervisors/managers of mechanics, installers, and repairers	49-1011
7010	Computer, automated teller, and office machine repairers	49-2011
7020	Radio and telecommunications equipment installers and repairers	49-2020
7030	Avionics technicians	49-2091
7040	Electric motor, power tool, and related repairers	49-2092
7100	Electrical and electronics repairers, transportation equipment, industrial and utility	49-209X
7110	Electronic equipment installers and repairers, motor vehicles	49-2096
7120	Electronic home entertainment equipment installers and repairers	49-2097
7130	Security and fire alarm systems installers	49-2098
7140	Aircraft mechanics and service technicians	49-3011
7150	Automotive body and related repairers	49-3021
7160	Automotive glass installers and repairers	49-3022
7200	Automotive service technicians and mechanics	49-3023
7210	Bus and truck mechanics and diesel engine specialists	49-3031
7220	Heavy vehicle and mobile equipment service technicians and mechanics	49-3040
7240	Small engine mechanics	49-3050
7260	Miscellaneous vehicle and mobile equipment mechanics, installers, and repairers	49-3090
7300	Control and valve installers and repairers	49-9010
7315	Heating, air conditioning, and refrigeration mechanics and installers	49-9021
7320	Home appliance repairers	49-9031
7330	Industrial and refractory machinery mechanics	49-904X
7340	Maintenance and repair workers, general	49-9071
7350	Maintenance workers, machinery	49-9043
7360	Millwrights	49-9044
7410	Electrical power-line installers and repairers	49-9051
7420	Telecommunications line installers and repairers	49-9052
7430	Precision instrument and equipment repairers	49-9060
7510	Coin, vending, and amusement machine servicers and repairers	49-9091
7540	Locksmiths and safe repairers	49-9094
7550	Manufactured building and mobile home installers	49-9095
7560	Riggers	49-9096
7610	Helpers--installation, maintenance, and repair workers	49-9098
7630	Other installation, maintenance, and repair workers, including wind turbine service technicians, commercial divers, and signal and train switch repairers	49-909X

**Production Occupations**

7700	First-line supervisors/managers of production and operating workers	51-1011
7710	Aircraft structure, surfaces, rigging, and systems assemblers	51-2011
7720	Electrical, electronics, and electromechanical assemblers	51-2020
7730	Engine and other machine assemblers	51-2031
7740	Structural metal fabricators and fitters	51-2041
7750	Miscellaneous assemblers and fabricators	51-2090
7800	Bakers	51-3011
7810	Butchers and other meat, poultry, and fish processing workers	51-3020

<b>2010 CENSUS CODE</b>	<b>DESCRIPTION</b>	<b>2010 SOC CODE</b>
7830	Food and tobacco roasting, baking, and drying machine operators and tenders	51-3091
7840	Food batchmakers	51-3092
7850	Food cooking machine operators and tenders	51-3093
7855	Food processing workers, all other	51-3099
7900	Computer control programmers and operators	51-4010
7920	Extruding and drawing machine setters, operators, and tenders, metal and plastic	51-4021
7940	Rolling machine setters, operators, and tenders and forging machine setters, operators, and tenders, metal and plastic	51-402X
7950	Cutting, punching, and press machine setters, operators, and tenders, metal and plastic	51-4031
8000	Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic	51-4033
8010	Lathe and turning machine tool setters, operators, and tenders, metal and plastic	51-4034
8030	Machinists	51-4041
8040	Metal furnace and kiln operators and tenders	51-4050
8100	Molders and molding machine setters, operators, and tenders, metal and plastic	51-4070
8130	Tool and die makers	51-4111
8140	Welding, soldering, and brazing workers	51-4120
8200	Plating and coating machine setters, operators, and tenders, metal and plastic	51-4193
8210	Tool grinders, filers, and sharpeners	51-4194
8220	Metalworkers and plastic workers, all other	51-4XXX
8250	Prepress technicians and workers	51-5111
8255	Printing press operators	51-5112
8256	Print binding and finishing workers	51-5113
8300	Laundry and dry-cleaning workers	51-6011
8310	Pressers, textile, garment, and related materials	51-6021
8320	Sewing machine operators	51-6031
8330	Shoe and leather workers and repairers	51-6041
8350	Tailors, dressmakers, and sewers	51-6050
8400	Textile cutting machine setters, operators, and tenders	51-6062
8410	Textile knitting and weaving machine setters, operators, and tenders	51-6063
8420	Textile winding, twisting, and drawing out machine setters, operators and tenders	51-6064
8450	Upholsterers	51-6093
8460	Miscellaneous textile, apparel, and furnishings workers, except upholsterers	51-60XX
8500	Cabinetmakers and bench carpenters	51-7011
8510	Furniture finishers	51-7021
8530	Sawing machine setters, operators, and tenders, wood	51-7041
8540	Woodworking machine setters, operators, and tenders, except sawing	51-7042
8550	Miscellaneous woodworkers, including model makers and pattern makers	51-70XX
8600	Power plant operators, distributors, and dispatchers	51-8010
8610	Stationary engineers and boiler operators	51-8021
8620	Water and liquid waste treatment plant and system operators	51-8031
8630	Miscellaneous plant and system operators	51-8090
8640	Chemical processing machine setters, operators, and tenders	51-9010
8650	Crushing, grinding, polishing, mixing, and blending workers	51-9020
8710	Cutting workers	51-9030
8720	Extruding, forming, pressing, and compacting machine setters, operators, and tenders	51-9041
8730	Furnace, kiln, oven, drier, and kettle operators and tenders	51-9051
8740	Inspectors, testers, sorters, samplers, and weighers	51-9061
8750	Jewelers and precious stone and metal workers	51-9071

<b>2010 CENSUS CODE</b>	<b>DESCRIPTION</b>	<b>2010 SOC CODE</b>
8760	Medical, dental, and ophthalmic laboratory technicians	51-9080
8800	Packaging and filling machine operators and tenders	51-9111
8810	Painting workers	51-9120
8830	Photographic process workers and processing machine operators	51-9130
8850	Cementing and gluing machine operators and tenders	51-9191
8860	Cleaning, washing, and metal pickling equipment operators and tenders	51-9192
8910	Etchers and engravers	51-9194
8920	Molders, shapers, and casters, except metal and plastic	51-9195
8930	Paper goods machine setters, operators, and tenders	51-9196
8940	Tire builders	51-9197
8950	Helpers--production workers	51-9198
8965	Production workers, including semiconductor processors and cooling and freezing equipment operators	51-91XX

### **Transportation and Material Moving Occupations**

9000	Supervisors, transportation and material moving workers	53-1000
9030	Aircraft pilots and flight engineers	53-2010
9040	Air traffic controllers and airfield operations specialists	53-2020
9110	Ambulance drivers and attendants, except emergency medical technicians	53-3011
9120	Bus drivers	53-3020
9130	Driver/sales workers and truck drivers	53-3030
9140	Taxi drivers and chauffeurs	53-3041
9150	Motor vehicle operators, all other	53-3099
9200	Locomotive engineers and operators	53-4010
9240	Railroad brake, signal, switch operators, conductors and yardmasters	53-40XX
9260	Subway, streetcar, and other rail transportation workers	53-30XX
9300	Sailors and marine oilers, and ship engineers	53-50XX
9310	Ship and boat captains and operators	53-5020
9350	Parking lot attendants	53-6021
9360	Service station attendants	53-6031
9410	Transportation inspectors	53-6051
9415	Transportation attendants, except flight attendants	53-6061
9420	Other transportation workers, including bridge and lock tenders	53-60XX
9510	Crane and tower operators	53-7021
9520	Dredge, excavating, and loading machine operators	53-7030
9560	Hoist and winch operators, and conveyor operators and tenders	53-70XX
9600	Industrial truck and tractor operators	53-7051
9610	Cleaners of vehicles and equipment	53-7061
9620	Laborers and freight, stock, and material movers, hand	53-7062
9630	Machine feeders and offbearers	53-7063
9640	Packers and packagers, hand	53-7064
9650	Pumping station operators	53-7070
9720	Refuse and recyclable material collectors	53-7081
9750	Material moving workers, including mine shuttle operators and tank car, truck, and ship loaders	53-71XX

## Detailed Occupation Recodes (01-23)

These codes correspond to Items PRDTOCC1 and PRDTOCC2 in positions 476-479 of the Basic CPS record layout in all months **except** March. In **March**, these codes correspond to Item A-DTOCC and are located in positions 161-162.

CODE	CODE DESCRIPTION	OCCUPATION CODE
1	Management occupations	0010-0430
2	Business and financial operations occupations	0500-0950
3	Computer and mathematical science occupations	1000-1240
4	Architecture and engineering occupations	1300-1560
5	Life, physical, and social science occupations	1600-1965
6	Community and social service occupation	2000-2060
7	Legal occupations	2100-2160
8	Education, training, and library occupations	2200-2550
9	Arts, design, entertainment, sports, and media occupations	2600-2960
10	Healthcare practitioner and technical occupations	3000-3540
11	Healthcare support occupations	3600-3655
12	Protective service occupations	3700-3955
13	Food preparation and serving related occupations	4000-4160
14	Building and grounds cleaning and maintenance occupations	4200-4250
15	Personal care and service occupations	4300-4650
16	Sales and related occupations	4700-4965
17	Office and administrative support occupations	5000-5940
18	Farming, fishing, and forestry occupations	6000-6130
19	Construction and extraction occupations	6200-6940
20	Installation, maintenance, and repair occupations	7000-7630
21	Production occupations	7700-8965
22	Transportation and material moving occupations	9000-9750
23	Armed Forces	9840

Major Occupation Group Recodes  
(01-11)

These codes correspond to Items PRMJJOCC1 and PRMJJOCC2 located in positions 482-485 of the Basic CPS record layout in all months **except** March. In **March**, these codes correspond to Item A-MJOCC and are located in positions 159-160.

CODE	CODE DESCRIPTION	OCCUPATION CODE

# **APPENDIX D**

Facsimile of 2015 Annual Social and Economic (ASEC) Supplement  
Questionnaire

---

**2015 Annual Social and Economic Supplement  
Items Booklet - Feb/March/April 2015**

**2015 ANNUAL SOCIAL AND ECONOMIC SUPPLEMENT  
CPS FIELD REPRESENTATIVE / CATI INTERVIEWER**

**ITEMS BOOKLET**

U.S. DEPARTMENT OF COMMERCE  
U.S. Census Bureau

**This document does not contain any Title 13 data or other Personally Identifiable Information. All data are fictitious and any resemblance to actual data is coincidental. Consistent with Field Division Policy, any names referenced in practice interviews or other exercises are not meant to refer to any actual businesses, schools, group quarters, or persons, especially any current or former Census Bureau employees.**

## **MOVER ITEMS**

### **HH32b**

**Did (you/name of reference person) live at this address during the week of November 19, 2014?**

- 1      Yes
- 2      No

### **HH32d**

**Did any of the following household members live here during the week of November 19, 2014?**

- 1      Yes
- 2      No

## **FAMILY INCOME**

### **S FAMINC**

**Which category represents the total combined income of all members of this FAMILY during the past 12 months?**

**This includes money from jobs, net income from business, farm or rent, pensions, dividends, interest, social security payments and any other money income received by members of this family who are 15 years of age or older?**

- |   |                   |    |                    |
|---|-------------------|----|--------------------|
| 1 | Less than \$5,000 | 9  | 30,000 to 34,999   |
| 2 | 5,000 to 7,499    | 10 | 35,000 to 39,999   |
| 3 | 7,500 to 9,999    | 11 | 40,000 to 49,999   |
| 4 | 10,000 to 12,499  | 12 | 50,000 to 59,999   |
| 5 | 12,500 to 14,999  | 13 | 60,000 to 74,999   |
| 6 | 15,000 to 19,999  | 14 | 75,000 to 99,999   |
| 7 | 20,000 to 24,999  | 15 | 100,000 to 149,000 |
| 8 | 25,000 to 29,999  | 16 | 150,000 to more    |

### **INCDKR**

**Is the combined income of all members of this FAMILY during the past 12 months above or below \$75,000?**

- 1      Above
- 2      Below

## **INTRODUCTION**

### **Pr incom**

?[F1] Importance of responding

\* Wording of introduction is optional.

The questions you just answered were about your job and economic status last week.  
The next set of questions ask about your job and economic status last year.

1 Enter 1 to Continue

## **WORK EXPERIENCE**

### **Q29a**

**Did (name/you) work at a job or business at any time during 2014?**

- 1 Yes
- 2 No

### **Q29b**

**Did (you/he/she) do any temporary, part-time, or seasonal work even for a few days during 2014?**

- 1 Yes
- 2 No

### **Q30**

**Even though (name/you) did not work in 2014, did (you/he/she) spend any time trying to find a job or on layoff?**

- 1 Yes
- 2 No

### **Q31**

**How many different weeks (was/were) (name/you) looking for work or on layoff from a job?**

\* (01-52) Number of weeks

**Q32**

**What was the main reason (you/he/she) did not work in 2014?**

\* Read categories if necessary

- 1 Ill, or disabled and unable to work
- 2 Retired
- 3 Taking care of home or family
- 4 Going to school
- 5 Could not find work
- 6 Doing something else

**Q33**

**During 2014 in how many weeks did (name/you) work even for a few hours?  
Include paid vacation and sick leave as work.**

\* (01-52) Number of weeks

\* Enter 97 if respondent can only answer in months

---

**Q33mon**

\* Enter number of months worked  
(1-12)

---

**Q33ver**

**Then (name/you) worked about (number) weeks. Is that correct?**

- 1 Yes
- 2 No – back to Q33 and obtain estimate

**Q35**

**Did (name/you) lose any full weeks of work in 2014 because (you/he/she)  
(were/was) on layoff from a job or lost a job?**

\* Number of weeks worked in 2014: (number)

- 1 Yes
- 2 No
- 7 Mistake made in number of weeks worked last year - Specify in Q35SP

**Q35SP**

\* Specify mistake made in number of weeks worked last year

---

**Q36**

**You said (name/you) worked about (number) (week/weeks).  
How many OF THE REMAINING (number) WEEKS (was/were)  
(you/he/she) looking for work or on layoff from a job?**

\* Enter 0 for none

---

**Q37**

**Were the (number) weeks (name/you) (was/were) looking for work or on layoff all in one stretch?**

- 1 Yes – one stretch
- 2 No – two stretches
- 3 No – 3 or more stretches

**Q38**

**What was the main reason (name/you) (was/were) not working or looking for work in the remaining weeks of 2014?**

\* Read list only if respondent is having difficulty answering the question

- |   |                                     |   |                         |
|---|-------------------------------------|---|-------------------------|
| 1 | Ill, or disabled and unable to work | 4 | Retired                 |
| 2 | Taking care of home or family       | 5 | No work available       |
| 3 | Going to school                     | 6 | Other (Specify - Q38sp) |

**Q38sp**

\* Enter verbatim response

---

**Q39**

**For how many employers did (name/you) work in 2014?  
If more than one at the same time, only count it as one employer.**

- 1 One
- 2 Two
- 3 Three or more

**Q41**

**In the (one week/weeks) that (name/you) worked, how many hours did (you/he/she) (work that week?/usually work per week?)**

\* Enter number of hours

---

**Q43**

**During 2014, were there one or more weeks in which (name/you) worked less than 35 hours?**

**Exclude time off with pay because of holidays, vacation, days off, or sickness.**

- 1      Yes
- 2      No

**Q44**

**In the weeks that (name/you) worked, how many weeks did (name/you) work less than 35 hours in 2014?**

\* Number of weeks worked in 2014: (number)  
(Number of weeks was reported in item Q33)

(1-52)

---

**Q45**

**What was the main reason (name/you) worked less than 35 hours per week?**

\* Read list only if respondent is having difficulty answering the question

- 1      Could not find a full time job
- 2      Wanted to work part time or only able to work part time
- 3      Slack work or material shortage
- 4      Other reason

**Q46**

**What was (name's/your) longest job during 2014?**

**Was it:**

(IO1NAM:) (name of employer)  
(IO1IND:) (kind of business or industry)

(IO1OCC:) (occupation)

(IO1DT:) (duties)

\* CLASS OF WORKER: (PRIVATE/ FEDERAL GOVERNMENT/ STATE GOVERNMENT/ LOCAL GOVERNMENT/WORKING WITHOUT PAY IN FAMILY BUS./ SELF EMPLOYED--INCORPORATED/ SELF EMPLOYED--UNINCORPORATED)

1 Same as listed

2 Different job

#### **Q47a**

**For whom did (name/you) work (?/at) (blank/(your/his/her) (blank/longest job during 2014?))**

\* Name of Company, business, organization or other employer

(blank/ \* IO1NAM:) (entry)

The current employer is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ \* If longest job last year is military job, enter Armed Forces)

(blank/ \* Enter N for no work done at all during 2014)

---

#### **Q47b**

**What kind of business or industry is this?**

For example: TV and radio manufacturing, retail shoe store, farm

(blank/ \* IO1IND:) (entry)

The current business or industry type is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ \* If longest job last year is military job, enter NA)

---

#### **Q47b1**

**Is this business or organization mainly manufacturing, retail trade, wholesale trade, or something else?**

(blank/ \* IO1MFG:) (entry)

The current business or organization type is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ \* If longest job last year is military job, enter 4)

- 1 Manufacturing
- 2 Retail trade
- 3 Wholesale trade
- 4 Something else

**Q47c**

**What kind of work (was/were) (you/he/she) doing?**

For example: Electrical Engineer, Stock Clerk, Typist

(blank/ \* IO1OCC:) (entry)

The current occupation is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ \* If longest job last year is military job, enter Armed Forces)

---

**Q47d1**

**What were (your/his/her) most important activities or duties?**

For example: Types, keeps account books, files, sells cars, operates printing press, finishes concrete.

(blank/ \* IO1DT:) (entry)

The current job description is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ \* If longest job last year is military job, enter NA)

---

**Q47d2**

**What were (your/his/her) most important activities or duties?**

For example: Types, keeps account books, files, sells cars, operates printing press, finishes concrete.

(blank/ \* IO1DT:) (entry)

The current job description is pre-filled in the Form Pane below. Press ENTER if Same)

(blank/ \* If longest job last year is military job, enter NA)

---

**Q47E1**

\* Ask Only If Necessary

(Were/Was) (you/he/she) employed by government, by a PRIVATE company, a

**nonprofit organization, or (was/were) (you/he/she) self-employed or working in a family business?**

- 1 Government
- 2 Private for profit company
- 3 Non profit organization including tax exempt and charitable organizations
- 4 Self employed
- 5 Working in family business

**Q47E1a**

**Would that be the federal, state, or local government?**

- 1 Federal
- 2 State
- 3 Local (county, city, township)

**Q47E1b**

**Was this business incorporated?**

- 1 Yes
- 2 No

**Q47E1c**

**(Were/Was) (you/name) the owner of the business?**

- 1 Yes
- 2 No

**Q4788**

**Counting all locations where (this employer/(name/you)) (operates/operate), what is the total number of persons who work for ((name's/your) employer)/name/you)?**

**\*Read categories if necessary**

- 1 under 10
- 2 10-49
- 3 50-99
- 4 100-499
- 5 500-999
- 6 1,000+

## **EARNED INCOME**

Beginning with the 2015 CPS ASEC, the Earnings and Income question series include range follow-up questions presented anytime a respondent doesn't know or refuses to provide an exact dollar amount for a source they (or someone in the household) indicates as having received. Follow-up questions allow respondents that do not feel comfortable giving exact dollar values to report an income range. There are three sets of categories used for the income range follow-up questions: high-range, mid-range, and low-range. The income range used in the follow-up range questions depends on the source of the income. See Attachment A to this items booklet for the three levels of income range follow up questions. See Attachment B for a table that displays the income source and the range level used for the follow-up questions.

### **Q48aa**

**How much did (name/you) earn from this employer before taxes and other deductions during 2014?**

- \* Enter dollar amount
  - \* Enter 0 for none
- 

### **Q48aarn1** Ask only if the respondent "Doesn't know" or 'Refused' Q48aa

**Could you tell me if (name/you) earned**

**less than \$45,000  
between \$45,000 and \$60,000  
or over \$60,000**

**for the TOTAL yearly amount from this employer before taxes and other deductions during 2014?**

- 1 Less than \$45,000
- 2 Between \$45,000 and \$60,000
- 3 Over \$60,000

### **Q48aarn2**

**Did (name/you) earn**

**less than \$15,000  
between \$15,000 and \$30,000  
or over \$30,000**

**from this employer during 2014?**

- 1 Less than \$15,000
- 2 Between \$15,000 and \$30,000
- 3 Over \$30,000

**Q48aap**

\* Read if necessary

**Is this a weekly, every other week, twice a month, monthly, or yearly amount?**

- 1 Weekly
- 2 Every other week
- 3 Twice a month
- 4 Monthly
- 7 Yearly

**Q48a1**

**For how many (weekly/every other week/twice a month/monthly) pay periods did (name/you) earn (fill from Q48aa) from this employer in 2014?**

\* (1-12/1-24/1-26/1-52)

\_\_\_\_\_

**Q48aC2**

- \* Do not read to the respondent.
- \* The annual rate appears out of range. The total annual earnings entered is (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

**Q48aV**

**According to my calculations (name/you) earned (total) altogether from this employer in 2014 before deductions. Does that sound about right?**

- 1 Yes
- 2 No

**Q48a2**

**What is your best estimate of (name's/your) correct total amount of earnings from this employer during 2014 before deductions?**

\* PREVIOUS ENTRIES:    Q48aa: (amount)  
                                       Q48aap: (periodicity)

Q48a1: (number of pay periods)

\* Enter dollar amount

---

**Q48a3**

**Does this amount include all tips, bonuses, overtime pay, or commissions (name/you) may have received from this employer in 2014?**

- 1 Yes
- 2 No

**Q48aad**

**How much did (name/you) earn in tips, bonuses, overtime pay, or commissions from this employer in 2014?**

\* Enter dollar amount

---

**Q48aadrn1** Ask only if the respondent “Doesn’t know” or “Refused” Q48aad

**Could you tell me if (name/you) earned**

**less than \$1,000  
between \$1,000 and \$3,000  
or over \$3,000**

**in tips, bonuses, overtime pay, or commissions from this employer during 2014?**

- 1 Less than \$1,000
- 2 Between \$1,000 and \$3,000
- 3 Over \$3,000

**Q48aadrn2**

**Did (name/you) earn**

**less than \$100  
between \$100 and \$500  
or over \$500**

**in tips, bonuses, overtime pay, or commissions from this employer during 2014?**

- 1 Less than \$100
- 2 Between \$100 and \$500
- 3 Over \$500

**Q48b**

**What were (name's/your) net earnings from this business/farm after expenses during 2014?**

- \* If response is "Broke Even" then enter 1
  - \* Enter "0" for None
  - \* If response is "Lost Money" press enter
  - \* Enter dollar amount
- 

**Q48b char**

- \* Enter "L" for Lost Money
- 

**Q48BL**

- \* Enter amount of money lost in 2014
  - \* Enter annual amount only
- 

**Q48brn1 Ask only if the respondent "Doesn't know" or "Refused" Q48b.**

**Could you tell me if (name/you) earned**

**less than \$45,000**

**between \$45,000 and \$60,000**

**or over \$60,000**

**for the TOTAL yearly amount from this business/farm after expenses during 2014?**

- 1 Less than \$45,000
- 2 Between \$45,000 and \$60,000
- 3 Over \$60,000

**Q48brn2**

**Did (name/you) earn**

**less than \$15,000**

**between \$15,000 and \$30,000  
or over \$30,000**

**from this business/farm after expenses during 2014?**

- 1 Less than \$15,000
- 2 Between \$15,000 and \$30,000
- 3 Over \$30,000

**Q48bp**

**Is this a weekly, every other week, twice a month, monthly, quarterly, or yearly amount?**

- 1 Weekly
- 2 Every other week
- 3 Twice a month
- 4 Monthly
- 5 Quarterly
- 7 Yearly

**Q48B1A**

- \* Do not read to the respondent.
- \* The annual rate appears out of range. The total annual business loss entered is (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

**Q48B1B**

- \* Do not read to the respondent.
- \* The annual rate appears out of range. The total annual business income entered is (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

**Q48b2**

**What is your best estimate of (name's/your) ANNUAL net earnings from this business/farm after expenses in 2014?**

- \* PREVIOUS ENTRIES: Q48b : (amount)  
Q48bp: (periodicity)

- \* Enter dollar amount
-

**Q48b2L**

**What is your best estimate of (name's/your) ANNUAL net LOSS from this business/farm after expenses in 2014?**

- \* PREVIOUS ENTRIES: Q48bL: (amount)  
Q48bp: (periodicity)

- \* Enter dollar amount

---

**Q48b3**

**What were (name's/your) net earnings from this business/farm during the FIRST quarter of 2014?**

- \* If response is "Broke Even" then enter 1
- \* Enter "0" for None
- \* If response is "Lost Money" press enter
- \* Enter dollar amount

---

**Q48b3 char**

- \* Enter "L" for Lost Money

---

**Q48B3L**

- \* Enter amount of money lost in the first quarter of 2014.

---

**Q48b4**

**What were (name's/your) net earnings from this business/farm during the SECOND quarter of 2014?**

- \* If response is "Broke Even" then enter 1
- \* Enter "0" for None
- \* If response is "Lost Money" press enter
- \* Enter dollar amount

---

**Q48b4 char**

- \* Enter "L" for Lost Money

---

**Q48B4L**

- \* Enter amount of money lost in the second quarter of 2014.

---

**Q48b5**

**What were (name's/your) net earnings from this business/farm during the THIRD quarter of 2014?**

- \* If response is "Broke Even" then enter 1
- \* Enter "0" for None
- \* If response is "Lost Money" press enter
- \* Enter dollar amount

---

**Q48b5 char**

- \* Enter "L" for Lost Money

---

**Q48B5L**

- \* Enter amount of money lost in the third quarter of 2014.

---

**Q48b6**

**What were (name's/your) net earnings from this business/farm during the FOURTH quarter of 2014?**

- \* If response is "Broke Even" then enter 1
- \* Enter "0" for None
- \* If response is "Lost Money" press enter
- \* Enter dollar amount

---

**Q48b6 char**

\* Enter "L" for Lost Money

---

**Q48B6L**

\* Enter amount of money lost in the fourth quarter of 2014.

---

**Q48b7**

**Does this amount include all tips, bonuses, overtime pay, or commissions (name/you) may have received from this business in 2014?**

- 1 Yes
- 2 No

**Q48bad**

**How much did (name/you) earn in tips, bonuses, overtime pay, or commissions in 2014?**

\* Enter dollar amount

---

**Q48badrn1 Ask only if the respondent "Doesn't know" or "Refused" Q48bad.**

**Could you tell me if (name/you) earned**

**less than \$1,000  
between \$1,000 and \$3,000  
or over \$3,000**

**in tips, bonuses, overtime pay, or commissions from this business during 2014?**

- 1 Less than \$1,000

**What was the source of (name's/your) retirement income?**

**\* Enter all that apply, separate using the space bar or a comma.**

**\* Probe: Anyone Else?**

**\* Probe: Any Other retirement income?**

Enter other source of retirement income

---

**Q98Ar**

**Did (you/NAME) withdraw any money or receive a distribution from (your/his/her) [ACCOUNT TYPE\_ FILL IN FROM Q97CR or Q97DR] account in 2014?**

**(IF AGE 70+ ADD: including distributions you may have been required to take?)**

- 1 Yes
- 2 No

## **INCOME-EARNING ACCOUNTS OUTSIDE OF RETIREMENT (Source)**

### **Q99ArA**

**IF ANY RETIREMENT ACCOUNTS IN HH, READ TRANSITION:**

**(Now I will ask about assets that may have paid interest or dividends in 2014 outside of the retirement account(s).)**

**At anytime during 2014, did (you/anyone in this household):**

**Have money in an interest-earning checking account?**

- 1 Yes ( \*Probe as needed: Who received this source?)
- 2 No

### **Q99ArB**

**At anytime during 2014, did (you/anyone in this household):**

**Have a savings account?**

- 1 Yes ( \*Probe as needed: Who received this source?)
- 2 No

### **Q99ArC**

**At anytime during 2014, did (you/anyone in this household):**

**Have a money-market fund?**

- 1 Yes ( \*Probe as needed: Who received this source?)
- 2 No

### **Q99ArD**

**At anytime during 2014, did (you/anyone in this household):**

**Have CDs (certificates of deposit)?**

- 1 Yes ( \*Probe as needed: Who received this source?)
- 2 No

**Q99ArE**

**At anytime during 2014, did (you/anyone in this household):**

**Have Savings bonds?**

- 1 Yes ( \*Probe as needed: Who received this source?)
- 2 No

**Q99ArF**

**At anytime during 2014, did (you/anyone in this household):**

**Have shares of stock in corporations or mutual funds?**

- 1 Yes ( \*Probe as needed: Who received this source?)
- 2 No

**Q99ArG**

**Any other savings or investments that pay interest or dividends?**

- 1 Yes
- 2 No

**CAPGDIS**

**Did (you/NAME) receive any capital gains from (your/his/her) shares of stocks or mutual funds in 2014?**

- 1 Yes
- 2 No

**Q99Br**

**What was the other source of (name's/your) the savings or investments that pay interest or dividends?**

- \*Enter all that apply
- \*Probe as needed: Who received this source?

Enter other source of retirement income

---

## **PROPERTY INCOME (Source)**

### **Q65A1**

**During 2014 did (you/ anyone in this household):  
Own any land, business property, apartments, or houses which were rented to  
others?**

- 1      Yes
- 2      No

### **Q65A2**

**At anytime during 2014 did (you/ anyone in this household):  
Receive income from royalties or from roomers or boarders? (exclude amounts paid  
by relatives)**

- 1      Yes
- 2      No

### **Q65A3**

**At anytime during 2014 did (you/ anyone in this household):  
Receive income from estates or trusts? (exclude estates or trusts already reported)**

- 1      Yes
- 2      No

### **Q65b**

\* Ask only if necessary

**Who received this (income/rent) ?**

- \* Include each in cases of joint ownership. For self-employed persons, determine if income was already included
- \* Enter all that apply, separate using the space bar or a comma.
- \* Probe: Anyone Else?

Enter persons line number (1-16)

## **EDUCATION ASSISTANCE (Source)**

### **Q66a**

**During 2014 did (you/ anyone in this household) attend school beyond the high school level including a college, university, or other schools?**  
(include vocational, business, or trade schools)

- 1      Yes
- 2      No

### **Q66b**

**Did (you/ anyone in this household) receive any educational assistance for tuition, fees, books, or living expenses during 2014?**

\* Exclude loans, assistance from household members, and VA educational benefits

- 1      Yes
- 2      No

### **Q72a**

**Any regular financial assistance from friends  
or relatives not living in this household?**

\* Do not include loans

- 1      Yes
- 2      No

### **Q72b**

\* Read only if necessary

**Who received this assistance?**

- \* Enter all that apply, separate using the space bar or a comma.
- \* Probe: Anyone Else?

Enter persons line number (1-16)

## **OTHER MONEY INCOME (Source)**

### **Q73A1R**

**During 2014 did (you/ anyone in this household) receive cash income not already covered such as:**

**income from foster child care, alimony, jury duty, armed forces reserves, severance pay, hobbies, or any other source?**

- 1      Yes
- 2      No

### **Q73A1b**

\* Ask only if necessary

**Who received this income?**

- \* Enter all that apply, separate using the space bar or a comma.
- \* Probe: Anyone Else?

Enter persons line number (1-16)

### **Q73A1Rc**

**What was the source of this income?**

- \* Asking about: (fill from Q73A1b)

Enter other source of income

---

## **INCOME AMOUNTS**

### **AMTINTRO**

**Now I will ask you about the amount of income you and others in this household received from various sources in 2014.**

## **UNEMPLOYMENT AND WORKER'S COMPENSATION (Amounts)**

### **Q51A1p**

**What is the easiest way for you to tell us (name's/your) State or Federal unemployment compensation; weekly, every other week, twice a month, monthly, or yearly?**

- 1 Weekly
- 2 Every other week (bi-weekly)
- 3 Twice a month
- 4 Monthly
- 7 Yearly

### **Q51A11**

**How much did (name/you) receive (weekly/every other week/ twice a month/monthly/ ) in State or Federal unemployment compensation during 2014?**

[Enter dollar amount](#)

---

### **Q51A11r1**

**Could you please tell me if (name/you) received**

**less than \$10,000  
between \$10,000 and \$20,000  
or over \$20,000**

**in State or Federal unemployment compensation during 2014?**

- 1 Less than \$10,000
- 2 Between \$10,000 and \$20,000
- 3 Over \$20,000

**Q51A11r2**

**Did (name/you) receive**

**less than \$1,000  
between \$1,000 and \$5,000  
or over \$5,000**

**in State or Federal unemployment compensation during 2014?**

- 1 Less than \$1,000
- 2 Between \$1,000 and \$5,000
- 3 Over \$5,000

**Q51A1C**

Do not read to the respondent.

The annual rate appears out of range. The total State or Federal unemployment compensation received in 2014 was (amount). Is this a correct entry? If Yes, enter "S" to Suppress. If No, press enter and correct entry.

**Q51A12**

**How many (weekly/every other week/ twice a month/monthly) payments did (name/you) receive from State or Federal unemployment compensation during 2014?**

(1-12/1-24/1-26/1-52)

\_\_\_\_\_

**Q51A13**

**According to my calculations (name/you) received (total) altogether from State or Federal unemployment compensation during 2014. Does that sound about right?**

- 1 Yes
- 2 No

**(Do/Does) (name/you) NOW have any type of health plan or health coverage?**

1 Yes  
2 No

## **MEDI**

?[F1]

**(Are/Is/Was/Were) (name/you) covered by Medicaid, Medical Assistance, or (CHIP/or Medicare)?**

- 1 Yes
- 2 No

## **OTHGOVT**

**(Are/Is) (name/you) NOW covered by a state or government assistance program that helps pay for healthcare, such as: State Medicaid, CHIP, Exchange/Portal, or other State Health program?**

\* Stop reading list if respondent says "YES"

- 1 Yes
- 2 No

## **VET**

**(Are/Is) (name/you) NOW covered by Veteran's Administration (VA) care?**

- 1 Yes
- 2 No

## **VERIFY**

**I recorded that (name/you) (are/is) not currently covered by a health plan. Is that correct?**

- 1 Yes, is NOT covered
- 2 No, is covered

## **TYPE OF COVERAGE**

### **SRCEGEN**

?[F1]

\* ASK OR VERIFY

**For the coverage (name/you) (have/has/had) NOW, (do/does/did) (you/he/she) get it through a job, the government or state, or some other way?**

**\* 1. JOB**

Former job/Retiree  
Union  
Spouse/parent's job  
Job with the government  
COBRA  
TRICARE/TRICARE For Life

**2. GOVERNMENT OR  
STATE**

Medical Assistance  
Medicaid  
Medicare (Parts A+B; Part C)  
Medicare Advantage  
State-provided health coverage  
VA Care/CHAMPVA/other  
military

**3. OTHER WAY**

Privately purchased  
Parent or spouse  
Medicare Supplements  
Exchange plan/Marketplace  
Group or association  
School

\* IF RESPONDENT CHOOSES MORE THAN ONE: Let's talk about one plan at a time. Which would you like to tell me about first?

[♦ If respondent is not covered, go back to VERIFY and select "Yes"]

- 1 Job (current or former)
- 2 Government or State
- 3 Some other way

**SRCEDEPDIR**

**\* ASK OR VERIFY**

(Do/Does/Did) (name/you) get that coverage through a parent or spouse,  
(do/does/did) ( you/he/she) buy it (yourself/himself/herself), or (do/does/did)  
(you/he/she) get it some other way?

**\* 1. PARENT OR SPOUSE**

Parent  
Spouse

**2. BUY IT DIRECTLY**

Buy it  
Parent or spouse buys it  
Medicare Supplement

**3. SOME OTHER WAY**

Former employer  
Group or association  
Indian Health Service  
School

- 1 Parent or spouse
- 2 Buy it
- 3 Some other way

## **SRCEOTH**

### **\* ASK OR VERIFY**

**(Do/Does/Did) (name/you) get it through a former employer, a union, a group or association, the Indian Health Service, a school, or some other way?**

- 1 Former employer
- 2 Union
- 3 Group or association
- 4 Indian Health Service
- 5 School
- 6 Some other way

## **JOBCOV**

**(Is/Was) that coverage related to a JOB with the government or state?**

### **\* READ IF NECESSARY: Include coverage through FORMER employers and unions, and COBRA plans.**

- 1 Yes
- 2 No

## **MILPLAN**

### **\* ASK OR VERIFY**

**(Is/Was) that plan related to military service in any way?**

### **\* Examples of military plans include:**

- VA Care
- TRICARE
- TRICARE for Life
- CHAMPVA
- Other military care

- 1 Yes
- 2 No

## **GOVTYPE**

?[F1]

### **\* ASK OR VERIFY**

**(Is/Was) that coverage Medicaid, CHIP, Medicare, a plan through the military, or some other program?**

- \* Code Medicare Parts A, B, and C and Medicare Advantage as "Medicare"
  - \* IF RESPONDENT CHOOSES MORE THAN ONE: Let's talk about one plan at a time. Which would you like to tell me about first?
- 1 Medicaid or Medical Assistance
  - 2 CHIP
  - 3 Medicare
  - 4 Military
  - 5 Other

**MILTYPE**

- \* ASK OR VERIFY

**(Is/Was) that plan through TRICARE, TRICARE for Life, CHAMPVA, VA Care, military health care, or something else?**

- 1 TRICARE
- 2 TRICARE for Life
- 3 CHAMPVA
- 4 Veterans Administration (VA) care
- 5 Military health care
- 6 Other

**POLHOLDER**

- \* ASK OR VERIFY

**Whose name (is/was) the policy in? (Who (is/was) the policyholder?)**

- 1-16 Name on roster
- 17 Someone living outside the household

Enter persons line number (1-16), or 17 for person not in the household

## **SRCEPTSP**

### **\* ASK OR VERIFY**

**(Do/Did) they get that coverage through their job, (do/did) they buy it themselves, or (do/did) they get it some other way?**

- 1 Job (current or former)
- 2 Buy it
- 3 Some other way

## **GOVPLAN**

### **\* ASK OR VERIFY**

**What do you call the program?**

- \* IF RESPONDENT ANSWERS WITH INSURANCE COMPANY NAME: OK, so that would be the plan name. What do you call the program? Some examples of programs in (state) are [read full list below].**

- 1 Medicaid
- 2 Medical Assistance
- 3 Indian Health Service (IHS)
- 4-12 State Medicaid Programs Names
- 13-15 State Exchange Programs Names
- 16 Plan through State Exchange Portal
- 17 Other government plan
- 18 Other (please specify)

## **MISCSPEC**

Please Specify

Write in plan name

---

## **PORTAL**

### **\* ASK OR VERIFY**

**(Is/Was) that coverage through (State Exchange Portal Name), which may also be known as (State Exchange Program Name 1, Name 2, Name 3)?**

- 1 Yes
- 2 No

## **EXCHTYPE**

\* ASK OR VERIFY

**What do you call it – State Exchange Program (Portal, Name 1, Name 2, Name 3)?**

1-4     State Exchange Programs Names

## **HIP Aid**

**(Does/Did) (your/policyholder name's/the policyholder's) employer or union pay for all, part, or none of the health insurance premium?**

\* Report here employer's contribution to employee's health insurance premiums, not the employee's medical bills.

- 1    All
- 2    Part
- 3    None

## **SHOP**

**Small businesses can offer health coverage to their employees through (State Exchange SHOP Portal Name). (Is/Was) the coverage at all related to (State Exchange SHOP Portal Name), (such as State SHOP Name 1, Name 2, Name 3)?**

- 1    Yes
- 2    No

## **POLHOLDER2**

\* ASK OR VERIFY

**Whose name (is/was) the policy in? (Who [is/was] the policyholder?)**

- 1-16    Name on roster
- 17     Someone living outside the household

Enter persons line number (1-16), or 17 for person not in the household

## **PREMYN**

**Is there a monthly premium for this plan?**

- \* A monthly premium is a fixed amount of money people pay each month to have health coverage. It does not include copays or other expenses such as prescription costs.

- 1 Yes
- 2 No

## **PREMSUBS**

**Is the cost of the premium subsidized based on (your/family) income?**

- \* A monthly premium is a fixed amount of money people pay each month to have health coverage. It does not include copays or other expenses such as prescription costs.
- \* Subsidized health coverage is insurance with a reduced premium. Low and middle income families are eligible to receive tax credits that allow them to pay lower premiums for insurance bought through healthcare exchanges or marketplaces.

- 1 Yes
- 2 No

## **MONTHS OF COVERAGE**

### **BEFORAFT**

**Did (name's/your) coverage from (plan type) start before January 1, 2014?**

- \* READ IF NECESSARY: Your best estimate is fine.
- \* (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)
- ◆ (READ IF NECESSARY: If (policyholder) switched plans that (you/he/she) (buy/buys), consider it the same plan.)

- 1 Yes
- 2 No

## **MNTHBEG1/2**

**In which month did (that/this) coverage start?**

- \* READ IF NECESSARY: Your best estimate is fine.
- \* (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)
- ◆ (READ IF NECESSARY: If (policyholder) switched plans that (you/he/she) (buy/buys), consider it the same plan.)
- \* This question refers to (plan type).

- 1 January
- 2 February
- 3 March
- 4 April
- 5 May
- 6 June
- 7 July
- 8 August
- 9 September
- 10 October
- 11 November
- 12 December

- \* ASK OR VERIFY

**Which year was that?**

- \* (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)
- ◆ (READ IF NECESSARY: If (policyholder) switched plans that (you/he/she) (buy/buys), consider it the same plan.)
- \* This question refers to (plan type).

- 1 2014
- 2 2015

### **CNTCOV**

**Has it been continuous since (beginning month)?**

- \* (READ IF NECESSARY: If (policyholder) switched employers or plans through (your/their) employer, consider it the same plan.)
- ◆ (READ IF NECESSARY: If (policyholder) switched plans that (you/he/she) (buy/buys), consider it the same plan.)
- \* READ IF NECESSARY: If the gap in coverage was less than 3 weeks, consider the coverage "continuous."
- \* This question refers to (plan type).

- 1 Yes
- 2 No

### **SPELLADD**

**I have recorded that (name/you) (was/were) covered by (plan type) in (months of coverage). Were there any OTHER months between January 2014 and now that (name/you) (was/were) also covered by (plan type)?**

- 1 Yes
- 2 No

### **ANYTHIS**

**Which months (was/were) (name/you) covered by (plan type) THIS year -- in 2015?**

- 1 January 2015
- 2 February 2015
- 3 March 2015
- 4 April 2015
- 20 All months of 2015
- 21 No months of 2015

### **ANYLAST**

**Which months (was/were) (name/you) covered by (plan type) LAST year -- in 2014?**

- 1 January
- 2 February
- 3 March
- 4 April
- 5 May

- 6 June
- 7 July
- 8 August
- 9 September
- 10 October
- 11 November
- 12 December
- 20 All months from January 2014 until December 2014
- 21 No months from January 2014 until December 2014

### **WMNTHS**

**Which months between January 2014 and now (was/were) (name/you) covered by (plan type)?**

- 1 January 2014
- 2 February 2014
- 3 March 2014
- 4 April 2014
- 5 May 2014
- 6 June 2014
- 7 July 2014
- 8 August 2014
- 9 September 2014
- 10 October 2014
- 11 November 2014
- 12 December 2014
- 13 January 2015
- 14 February 2015
- 15 March 2015
- 16 April 2015
- 20 All months from January 2014 until now
- 21 No months from January 2014 until now

### **OTHER HOUSEHOLD MEMBERS**

#### **OTHMEMB**

**Between January 1, 2014 and now, was anyone in the household other than (name/you) ALSO covered by (plan type)?**

- 1 Yes
- 2 No

## **COVWHO**

**Who else was covered? Who else was covered by (plan type)?**

✦ **PROBE:** Anyone else?

- 0 No one listed
- 1-16 Person 1 through 16's name
- 96 All persons listed

## **SAMEMNTHS**

**(Were/Was) (name/names) also covered from January 2014 until now?**

✦ **This question refers to (plan type)**

- 1 All also covered from January 2014 until now
- 2 None covered from January 2014 until now

## **MNTHS P(1-16)M**

**Which months between January 2014 and now was (NAME) covered? [How about (NAME)?]**

✦ **This question refers to (plan type)**

- 1 January 2014
- 2 February 2014
- 3 March 2014
- 4 April 2014
- 5 May 2014
- 6 June 2014
- 7 July 2014
- 8 August 2014
- 9 September 2014
- 10 October 2014
- 11 November 2014
- 12 December 2014
- 13 January 2015
- 14 February 2015
- 15 March 2015
- 16 April 2015
- 20 All months from January 2014 until now
- 21 No months from January 2014 until now

### **OTHOUT**

**Does that plan cover anyone living outside this household?**

- 1      Yes
- 2      No

### **OTHWHO**

**How old are they -- under 19, 19-25 or older than 25?**

\* Mark all that apply

- 1      Under 19
- 2      19-25 years old
- 3      Older than 25

### **ADDITIONAL PLANS**

#### **ADDGAP**

**So far, I have recorded that (name/you) (was/were) NOT covered in (months of no coverage). (Were/Was) (name/you) covered by any type of health plan or health coverage in (those months/that month)?**

\* READ IF NECESSARY: Do not include plans that cover only one type of care, such as dental or vision plans.

- 1      Yes
- 2      No

#### **ADDOTH**

**Other than (plan type[s]), (were/was) (name/you) covered by any other type of health plan or health coverage AT ANY TIME between January 1, 2014 and now?**

\* READ IF NECESSARY: Do not include plans that cover only one type of care, such as dental or vision plans.

- 1      Yes
- 2      No

## **EMPLOYER-SPONSORED INSURANCE OFFERS AND TAKEUP**

### **ESIINTRO**

**Earlier I recorded that (name/you) (are/is) employed but (do/does) not have health coverage through (your/his/her) job.**

1      Enter 1 to continue

### **OFFER**

**Does (employer name) offer a health insurance plan to any of its employees?**

1      Yes  
2      No

### **COULD**

**Could (name/you) be in this plan if (you/he/she) wanted to?**

1      Yes  
2      No

### **WNTAKE**

**Why (aren't/isn't) (you/he/she) in this plan?**

\* Choose all that apply

1      Covered by another plan  
2      Traded health insurance for higher pay

**Next I would like to ask about out-of-pocket medical expenses during 2014.**

\* Press 1 to Continue

1      Enter 1 to continue

### **HIPREM**

**[Earlier I recorded that (your/name's) employer or union did not pay for (your/his/her) entire health insurance premium.] Last year, how much did (you/name) pay out-of-pocket for ALL health insurance premiums [covering (yourself/himself/herself) or others in the household]? Include both comprehensive and supplemental plans (such as vision and dental insurance).**

**[What about (you/name)?]**

**(Include prescription drug insurance such as Medicare Part D premiums and Medicare Advantage premiums. DO NOT include Medicare Part B premiums.)**

\* Enter dollar amount

---

### **MEDAMT**

?[F1]

**Last year, how much was paid out-of-pocket for (your/name's) OWN medical care, such as copays for doctor and dentist visits, diagnostic tests, prescription medicine, glasses and contacts, and medical supplies?**

**[What about (you/name)? Last year, how much was paid out-of-pocket for (your/name's) OWN medical care, such as copays for doctor and dentist visits, diagnostic tests, prescription medicine, glasses and contacts, and medical supplies?]**

**Include any amount paid out-of-pocket on (your/his/her) behalf by anyone in this household.**

\* Enter dollar amount

---

## **OTCMEDAMT**

**Last year, how much was paid out-of-pocket for (your/name's) non-prescription healthcare products such as vitamins, allergy and cold medicine, pain relievers, quit smoking aids, AND anything else not yet reported?**

**[What about (you/name)? Last year, how much was paid out-of-pocket for (your/name's) non-prescription healthcare products such as vitamins, allergy and cold medicine, pain relievers, quit smoking aids, AND anything else not yet reported?]**

**Include any amount paid out-of-pocket on (your/his/her) behalf by anyone in this household.**

\* Enter dollar amount

\* If unsure of the amount, a best guess is acceptable.

---

## **EMPLOYER'S PENSION PLAN**

### **Q74a**

**Other than Social Security did (ANY) employer or union that (name/you) worked for in 2014 have a pension or other type of retirement plan for any of its employees?**

- 1 Yes
- 2 No

### **Q74b**

**(Were/Was) (name/you) included in that plan?**

- 1 Yes
- 2 No

## **LOW INCOME ITEMS**

### **SCHOOL LUNCHES**

#### **Q80**

**During 2014 which of the children ages 5 to 18 in this household usually ate a complete lunch offered at school?**

- \* Probe: Anyone else?
- \* Enter all that apply, separate using the space bar or a comma.
- \* Enter 96 for All
- \* Enter 0 for None

Enter persons line number (1-16)

#### **Q83**

**During 2014 which of the children in this household received free or reduced priced lunches because they qualified for the Federal School Lunch Program?**

- \* Probe: Anyone else?
- \* Enter all that apply, separate using the space bar or a comma.
- \* Enter 96 for All
- \* Enter 0 for None

Enter persons line number (1-16)

## **PUBLIC HOUSING**

#### **Q85**

**Is this public housing, that is, is it owned by a local housing authority or other public agency?**

- 1 Yes
- 2 No

#### **Q86**

**Are you paying lower rent because the Federal, State, or local government is paying part of the cost?**

- 1 Yes
- 2 No

**SPHS8**

**Is this through Section 8 or through some other government program?**

- 1      Section 8
- 2      Some other government program
- 3      Not sure

**WOMEN, INFANTS, AND CHILDREN NUTRITION PROGRAM (WIC)**

**SWRWIC**

**At any time during 2014, (was/were) (you/ anyone in this household) on WIC, the Women, Infants, and Children Nutrition Program?**

- 1      Yes
- 2      No

**SWRW**

**Who received WIC for themselves or on behalf of a child?**

- \* Enter all that apply, separate using the space bar or a comma.
- \* Probe: Anyone else?

Enter persons line number (1-16)

**ENERGY ASSISTANCE**

**Q93**

**The government has an energy assistance program which helps pay heating and cooling costs. This assistance can be received directly by the household or it can be paid directly to the electric company, gas company, or fuel dealer.**

**In 2014, (have you/has this household) received assistance of this type from the federal, state, or local government?**

- 1      Yes
- 2      No

**Q93pr1**

**Do you remember receiving an additional or unexpected check that was sent during the year to help pay heating or cooling costs?**

- 1      Yes
- 2      No

**Q93pr2**

**Was it used to pay heating or cooling costs?**

- 1 Yes
- 2 No

**Q94**

**Altogether, how much energy assistance has been received in 2014?**

\* Enter annual amount only

---

**Q94rn1**

**Could you tell me if (name/you) received:**

**less than \$1,000  
between \$1,000 and \$3,000  
or over \$3,000**

**in energy assistance during 2014?**

- 1 Less than \$1,000
- 2 Between \$1,000 and \$3,000
- 3 Over \$3000

**Q94rn2**

**Did (name/you) receive:**

**less than \$100  
between \$100 and \$500  
or over \$500**

**in energy assistance during 2014?**

- 1 Less than \$100
- 2 Between \$100 and \$500
- 3 Over \$500

## **MIGRATION**

### **5-Year Migration**

#### **M5GSAM**

**(Were/Was) (reference person's name/you) living in this house (or apartment) five years ago?**

- 1      Yes, this house (apt)
- 2      No, different house in U.S.
- 3      No, outside the U.S.

#### **M5GPLC**

**Where did (reference person's name/you) live five years ago?**

- \* Name of city/town/post office
- \* Current: (city)
- \* Enter correct city/town/post office or press ENTER for SAME

---

#### **M5GSTA**

?[F1]

**Where did (reference person's name/you) live five years ago?**

- \* Name of State
- \* Current: (state)
- \* Enter W for person living on a ship at sea
- \* Enter correct State or press ENTER for SAME

---

#### **M5GZIP**

**Where did (reference person's name/you) live five years ago?**

- \* Zip Code
- \* Current: (zip)
- \* Enter correct Zip Code or press ENTER for SAME

---

**M5GCLM**

**Did (reference person's name/you) live inside the city limits of (place name)?**

- 1 Yes, inside city limits
- 2 No, outside city limits or post office name only

**M5GCOU**

**What (county/parish) is (place name) in?**

\* Enter "IND CITY" if an independent city, not a county

---

**S M5GCN1**

**What country did (reference person's name/you) live in one year ago?**

**M5GM**

**Which of the other members of this household did NOT live with (reference person's name/you) five years ago?**

- \* PROBE: Anyone else?
- \* Enter all that apply, separate using the space bar or a comma.

Enter persons line number (1-16)

**N5TSAM**

**Did (name/you) live in this house (apartment) five years ago?**

- 1 Yes , this house
- 2 No, different house in U.S.
- 3 No, outside the U.S.

**N5TPLC**

**Where did (name/you) live five years ago?**

- \* Name of city/town/post office
  - \* Current: (city) Enter correct city/town/post office or
  - \* Press ENTER for SAME
-

**N5TSTA**

?[F1]

**Where did (name/you) live five years ago?**

- \* Name of State
  - \* Current: (state)
  - \* Enter correct State or press ENTER for SAME
- 

**N5TZIP**

**Where did (name/you) live five years ago?**

- \* Zip Code Current: (zip)
  - \* Enter correct zip code or
  - \* Press ENTER for SAME
- 

**N5TCLM**

**Did (name/you) live inside the city limits of (place name)?**

- 1 Yes, inside city limits
- 2 No, outside city limits or post office name only

**N5TCOU**

**What (county/parish) is (place name) in?**

- \* Enter "IND CITY" if an independent city, not a county
- 

**S N5TCN1**

**What country did (name/you) live in five years ago?**

## **1- Year Migration**

### **MIGSAM**

**(Were/Was) (reference person's name/you) living in this house (or apartment) one year ago?**

- 4 Yes, this house (apt)
- 5 No, different house in U.S.
- 6 No, outside the U.S.

### **MIGPLC**

**Where did (reference person's name/you) live one year ago?**

- \* Name of city/town/post office
  - \* Current: (city)
  - \* Enter correct city/town/post office or press ENTER for SAME
- 

### **MIGSTA**

?[F1]

**Where did (reference person's name/you) live one year ago?**

- \* Name of State
  - \* Current: (state)
  - \* Enter W for person living on a ship at sea
  - \* Enter correct State or press ENTER for SAME
- 

### **MIGZIP**

**Where did (reference person's name/you) live one year ago?**

- \* Zip Code
  - \* Current: (zip)
  - \* Enter correct Zip Code or press ENTER for SAME
- 

### **MIGCLM**

**Did (reference person's name/you) live inside the city limits of (place name)?**

- 3 Yes, inside city limits
- 4 No, outside city limits or post office name only

**MIGCOU**

**What (county/parish) is (place name) in?**

\* Enter "IND CITY" if an independent city, not a county

---

**S MIGCN1**

**What country did (reference person's name/you) live in one year ago?**

**MI1RES**

**What was [your/name's] main reason for moving to this house (apartment)?**

\* The answer categories are separated into the following groups:

FAMILY-RELATED REASONS 1-3

EMPLOYMENT-RELATED REASONS 4-8

HOUSING-RELATED REASONS 9-13

OTHER REASONS 14-18

- |    |   |
|----|---|
| 1  | change in marital status                    |
| 2  | to establish own household                  |
| 3  | other family reason                         |
| 4  | new job or job transfer                     |
| 5  | to look for work or lost job                |
| 6  | to be closer to work/easier commute         |
| 7  | retired                                     |
| 8  | other job-related reason                    |
| 9  | wanted to own home, not rent                |
| 10 | wanted new or better house/ apartment       |
| 11 | wanted better neighborhood/less crime       |
| 12 | wanted cheaper housing                      |
| 13 | foreclosure/eviction                        |
| 14 | other housing reason                        |
| 15 | to attend or leave college                  |

| 17 | health reasons                              |
| 18 | natural disaster (hurricane, tornado, etc.) |
| 19 | other reason (specify)                      |

**MI1s**

**What was the reason for moving?**

---

### **MIGALL**

**(There are (number) other persons in this household ages 1 year or over/ )  
Did (all of these persons/this person) live with (reference person's name/you) (in this house/in City, State/outside the U.S.) one year ago?**

- 1      Yes, all lived with (reference person's name/you)
- 2      No, some or all did not live with (reference person's name/you)

### **MIGM**

**Which of the other members of this household did NOT live with (reference person's name/you) one year ago?**

- \* PROBE: Anyone else?
- \* Enter all that apply, separate using the space bar or a comma.

Enter persons line number (1-16)

### **NXTSAM**

**Did (name/you) live in this house (apartment) one year ago?**

- 4      Yes , this house
- 5      No, different house in U.S.
- 6      No, outside the U.S.

### **NXTPLC**

**Where did (name/you) live one year ago?**

- \* Name of city/town/post office
  - \* Current: (city) Enter correct city/town/post office or
  - \* Press ENTER for SAME
- 

### **NXTSTA**

?[F1]

**Where did (name/you) live one year ago?**

- \* Name of State
  - \* Current: (state)
  - \* Enter correct State or press ENTER for SAME
-

### **NXTZIP**

**Where did (name/you) live one year ago?**

- \* Zip Code Current: (zip)
  - \* Enter correct zip code or
  - \* Press ENTER for SAME
- 

### **NXTCLM**

**Did (name/you) live inside the city limits of (place name)?**

- 3 Yes, inside city limits
- 4 No, outside city limits or post office name only

### **NXTCOU**

**What (county/parish) is (place name) in?**

- \* Enter "IND CITY" if an independent city, not a county
- 

### **S NXTCN1**

**What country did (name/you) live in one year ago?**

### **NX1RES**

**What was (name's/your) main reason for moving to this house (apartment)?**

- \* The answer categories are separated into the following groups:  
FAMILY-RELATED REASONS 1-3  
EMPLOYMENT-RELATED REASONS 4-8  
HOUSING-RELATED REASONS 9-13  
OTHER REASONS 14-18

- 1 change in marital status
- 2 to establish own household
- 3 other family reason
- 4 new job or job transfer
- 5 to look for work or lost job
- 6 to be closer to work/easier commute
- 7 retired
- 8 other job-related reason
- 9 wanted to own home, not rent
- 10 wanted new or better house/ apartment

- 11      wanted better neighborhood/less crime
- 12      wanted cheaper housing
- 13      foreclosure/eviction
- 14      other housing reason
- 15      to attend or leave college
- 16      change of climate
- 17      health reasons
- 18      natural disaster (hurricane, tornado, etc.)
- 19      other reason (specify)

### **NX10TH**

**What was the reason for moving?**

---

### **SUNITS**

\* Ask if necessary

**How many housing units are in your building?**

- 1      Only one
- 2      Two
- 3      Three or four
- 4      Five to nine
- 5      Ten or more

### **SUPPLEMENTAL POVERTY MEASURE**

### **PROPERTY VALUE/PRESENCE OF MORTGAGE**

### **VALPROP**

**About how much do you think this (house and lot/apartment/mobile home) would sell for if it were for sale?**

♦ Enter dollar amount

---

### **VALPROPR**

**Could you tell me if (name/you) think this (house and lot/apartment/mobile home) would sell for:**

**less than \$100,000  
between \$100,000 and \$250,000  
between \$250,000 and \$500,000  
or \$500,000 or more?**

- 1 Less than \$100,000
- 2 Between \$100,000 and \$250,000
- 3 Between \$250,000 and \$500,000
- 4 \$500,000 or more

### **MORTYN**

**Not counting home equity loans, do you or any other member of this household have a mortgage, deed of trust, contract to purchase, or similar debt on THIS property?**

- 1 Yes
- 2 No

### **SMORTYN**

**Do you or any member of this household have a second mortgage or a home equity loan on THIS property?**

- 1 Yes, home equity loan.
- 2 Yes, second mortgage.
- 3 Yes, second mortgage and home equity loan.
- 4 No

## **CHILD CARE**

### **Q95**

**Now we want to ask about some of your expenses for children.**

**Did (you/ anyone in this household) PAY for the care of (your/their) (child/children) while (you/they) worked in 2014?**

\* Include: All child care expenses including preschool and nursery school expenses, before and after school care, and summer care.

\* Do not include: cost of kindergarten or grade/elementary school.

1      Yes

2      No

### **Q95A**

**Which children needed care while their parents worked?**

\* Enter all that apply, separate using the space bar or a comma.

\* Probe: Anyone else?

\* Enter 96 for All persons

Enter persons line number (1-16)

## **CCFREQ**

**What is the easiest way for you to tell us how much (you/you and others in this household) paid for child care while (you/they) worked in 2014: weekly, every other week, twice a month, monthly, or yearly?**

1      Weekly

2      Every other week

3      Twice a month

4      Monthly

7      Yearly

**CCAMT**

**How much did (you/they) pay for child care?**

- \* Include child care payments made for all children in the household.
  - \* For example, if there are two adults in the household with childcare expenses use the total paid by both adults. Do not try to separate the payments. Record one total for the entire household.
- \_\_\_\_\_

**CCNUMPAY**

**How many (weekly/every other week/twice a month/monthly) payments did (you/they) make during 2014?**

\_\_\_\_\_

**CCTOT**

**Then (you/they) paid (total dollar amount) altogether in child care while (you/they) worked during 2014. Does that sound about right?**

- 1      Yes
- 2      No

**CCEST**

**What is your best estimate of the correct amount (you/they) paid for child care while (you/they) worked in 2014?**

\_\_\_\_\_

**CHILD SUPPORT PAID**

**CSPCHILD**

**Does anyone in this household have any children who lived elsewhere with their other parent or guardian at anytime during 2014?**

- 1      Yes
- 2      No

**CSPWHO**

**Who had children who lived elsewhere? Anyone else?**

- \* Enter line number
  - \* Enter all that apply, separate using the space bar or a comma.
- 

**CSPREQ**

**In 2014, (were/was) (name/you) required to pay child support?**

- 1      Yes
- 2      No

**CSPAMT**

**How much child support did (name/you) pay in 2014?**

- ◆ Enter dollar amount
- ◆ COUNT ALL FORMS OF CHILD SUPPORTS PAYMENTS, INCLUDING:  
PAYMENTS MADE DIRECTLY TO THE OTHER PARENT/GUARDIAN;  
PAYMENTS MADE THROUGH A COURT OR AGENCY; AND  
PAYMENTS WITHHELD FROM THIS PERSON'S PAYCHECK

## Income Range Follow-up Questions

The three levels of income range follow-up questions are:

1) High-range income follow-up brackets:

- Less than \$45,000
- Between \$45,000 and \$60,000
- \$60,000 or more

If the respondent selects the lowest bracket (Less than \$45,000), then the following ranges will be presented to the respondent:

- Less than \$15,000
- Between \$15,000 and \$30,000
- \$30,000 or more

2) Mid-range income follow-up questions:

- Less than \$10,000
- Between \$10,000 and \$20,000
- \$20,000 or more

If the respondent selects the lowest bracket (Less than \$10,000), then the following ranges will be presented to the respondent:

- Less than \$1,000
- Between \$1,000 and \$5,000
- \$5,000 or more

3) Low-range income follow-up questions:

- Less than \$1,000
- Between \$1,000 and \$3,000
- \$3,000 or more

If the respondent selects the lowest bracket (Less than \$1,000), then the following ranges will be presented to the respondent:

- Less than \$100
- Between \$100 and \$500
- \$500 or more

## Income Source and Follow-Up Question Range Level

The following table displays the income source and range level used in the follow-up range questions.

Source Screen Name	Income Source	Range Screen Name	Range Level
Q48AA	Earnings from Longest Job	PUQ48AARN1	High
Q48AAD	Longest Job: tips, bonuses, etc.	PUQ48AADRN1	Low
Q48B	Earnings from Business/ Farm	PUQ48BRN1	High
Q48BAD	Business/ Farm: tips, bonuses, etc.	PUQ48BADRN1	Low
Q49B1D	Earnings from All Other Employers	PUQ49B1DRN1	Mid
Q49B1A	All Other Employers: tips, bonuses, etc.	PUQ49B1ARN1	Low
Q49B2	Earnings from Any Other Business	PUQ49B2RN1	Mid

	Other Education Assistance	PUQ66HRN1	
Q70A	Child Support	PUQ70C1RN1	Mid
Q72A	Regular Financial Assistance	PUQ72CRN1	Low
Q73A1	Other Money Income	PUQ73RN1	Low
Q93	Energy Assistance	HUQ94RN1	Low

# APPENDIX E

## Specific Metropolitan Identifiers

(Beginning May 2014)

List 1. FIPS Metropolitan Area (CBSA) Codes

List 2. FIPS Consolidated Statistical Area (CSA) Codes

List 3. Individual Principal Cities

List 4: FIPS County Codes

Unless otherwise noted, all definitions for geographic areas on these lists reflect the February 28, 2013 OMB definitions.

Care should be taken when tallying smaller areas, such as smaller cities, counties and metropolitan areas during the time frame of May 2014-July 2015. This is because we will be phasing in a new set of geographic areas to coincide with the phase-in of a new sample based on the results of the 2010 Census. Some smaller areas will be phasing-out or phasing-in during this time frame and estimates for such areas will fluctuate wildly during this time period and not be as accurate as they will be prior to May 2014 or after July 2015.

# LIST 1: FIPS Metropolitan Area (CBSA) Codes

Unless otherwise noted, Metropolitan Areas are defined using February 28, 2013 OMB definitions. Those with an \* are defined using the June 30, 2003 definitions.

<u>FIPS Code</u>	<u>Metropolitan (CBSA) TITLE</u>
10180	Abilene, TX
10420	Akron, OH
10500	Albany, GA
10580	Albany-Schenectady-Troy, NY

## LIST 2: FIPS Consolidated Statistical Area (CSA) Codes

**The following CSA's (Combined Statistical Areas) contain 2 or more Metropolitan Statistical Areas that are in the CPS sample and are individually identified on the public use files. Micropolitan Statistical Areas are not specifically identified in the CPS and are not used to identify CSA's nor are parts of such areas coded as belonging to CSA's. The component CBSA's identified on the CPS Public Use Files are listed for each CSA.**

CSA Code	CBSA Code	CSA Title Component Parts (CBSA's)

## List 3: Individual Principal Cities

**Please Note: You must use the CBSA code in combination with the city code to uniquely identify principal cities. If a county name is provided, you must incorporate the county code into any algorithm used to tabulate a specific city's characteristics. The same applies to state codes for multi-state CBSA's.**

## List 4: FIPS County Codes

**Please note that these county codes must be used in conjunction with state codes to create unique county identifiers as county codes start with 001 in each state.**

FIPS County Code	County Name	State
<b>Alabama</b>		
003	Baldwin*	
015	Calhoun	
073	Jefferson	
081	Lee	
097	Mobile	
117	Shelby	
<b>Arizona</b>		
003	Cochise*	
013	Maricopa	
015	Mohave*	
019	Pima	
021	Pinal	
025	Yavapai	
027	Yuma	
<b>Arkansas</b>		
119	Pulaski	
<b>California</b>		
001	Alameda	
007	Butte	
017	El Dorado	
019	Fresno	
025	Imperial	
029	Kern	
031	Kings	
037	Los Angeles	
039	Madera	
047	Merced	

053	Monterey
055	Napa
059	Orange
061	Placer
065	Riverside
067	Sacramento
073	San Diego
075	San Francisco
077	San Joaquin
079	San Luis Obispo
081	San Mateo
083	Santa Barbara
087	Santa Cruz
089	Shasta
095	Solano
097	Sonoma

# APPENDIX F

## Topcoding of Usual Hourly Earnings

This variable will be topcoded based on an individual's usual hours worked variable, if the individual's edited usual weekly earnings variable is \$999. The topcode is computed such

that the product of usual hours times usual hourly wage does not exceed an annualized wage of \$150,000 (\$2,885.00 per week). Below is a list of the appropriate topcodes.

Hours	Topcode	Hours	Topcode
1	None	34	\$84.85
2	None	35	\$82.43
3	None	36	\$80.14
4	None	37	\$77.97
5	None	38	\$75.92
6	None	39	\$73.97
7	None	40	\$72.13
8	None	41	\$70.37
9	None	42	\$68.69
10	None	43	\$67.09
11	None	44	\$65.57
12	None	45	\$64.11
13	None	46	\$62.72
14	None	47	\$61.38
15	None	48	\$60.10
16	None	49	\$58.88
17	None	50	\$57.70
18	None	51	\$56.57
19	None	52	\$55.48

## APPENDIX G

### Source of the Data and Accuracy of the Estimates for the 2015 Annual Social and Economic Supplement Microdata File

#### SOURCE OF THE DATA

The data in this microdata file are from the 2015 Annual Social and Economic Supplement (ASEC) of the Current Population Survey (CPS). The U.S. Census Bureau conducts the CPS ASEC over a 3-month period in February, March, and April, with most of the data collection occurring in the month of March. The CPS ASEC uses two sets of questions, the basic CPS and a set of supplemental questions. The CPS, sponsored jointly by the Census Bureau and the U.S. Bureau of Labor Statistics, is the country's primary source of labor force statistics for the entire population. The Census Bureau and the Bureau of Labor Statistics also jointly sponsor the CPS ASEC.

**Basic CPS.** The monthly CPS collects primarily labor force data about the civilian noninstitutionalized population living in the United States. The institutionalized population, which is excluded from the population universe, is composed primarily of the population in correctional institutions and nursing homes (98 percent of the 4 million institutionalized people in Census 2010). Interviewers ask questions concerning labor force participation about each member 15 years old and over in sample households. Typically, the week containing the nineteenth of the month is the interview week. The week containing the twelfth is the reference week (i.e., the week about which the labor force questions are asked).

The CPS uses a multistage probability sample based on the results of the decennial census, with coverage in all 50 states and the District of Columbia. The sample is continually updated to account for new residential construction. When files from the most recent decennial census become available, the Census Bureau gradually introduces a new sample design for the CPS.

Every ten years the CPS first stage sample is redesigned<sup>1</sup> reflecting changes based on the most recent decennial census. In the first stage of the sampling process, primary sampling units (PSUs)<sup>2</sup> were selected for sample. In the 2000 design, the United States was divided into 2,025 PSUs. These were then grouped into 824 strata and one PSU was selected for sample from each stratum. In the 2010 sample design, the United States was divided into 1,987 PSUs. These PSUs were then grouped into 852 strata. Within each stratum, a single PSU was chosen for the sample, with its probability of selection proportional to its population as of the most recent decennial census. In the case of strata consisting of only one PSU, the PSU was chosen with certainty.

In April 2014, the Census Bureau began phasing out the 2000 sample and replacing it with the 2010 sample, creating a mixed sampling frame. Two simultaneous changes occur during this phase-in period. First, within the PSUs selected for both the 2000 and 2010 designs, sample households from the 2010 design gradually replace sample households selected for the 2000 design. Second, new PSUs selected for only the 2010 design gradually replace outgoing PSUs

---

<sup>1</sup> For detailed information on the 2010 sample redesign, please see reference [1].

<sup>2</sup> The PSUs correspond to substate areas (i.e., counties or groups of counties) that are geographically contiguous.

selected for only the 2000 design. By July 2015, the new 2010 sample design will be completely implemented and the sample will come entirely from the 2010 redesigned sample.

Approximately 74,000 housing units were selected for sample from the sampling frame for the basic CPS. Based on eligibility criteria, 12 percent of these housing units were sent directly to computer-assisted telephone interviewing (CATI). The remaining units were assigned to interviewers for computer-assisted personal interviewing (CAPI).<sup>3</sup> Of all housing units in sample, about 61,100 were determined to be eligible for interview. Interviewers obtained interviews at about 52,900 of these units. Noninterviews occur when the occupants are not found at home after repeated calls or are unavailable for some other reason. Table 1 summarizes historical changes in the CPS design.

---

<sup>3</sup> For further information on CATI and CAPI and the eligibility criteria, please see reference [2].

## APPENDIX G

<b>Table 1. Description of the March Basic CPS and CPS ASEC Sample Cases</b>					
<b>Time period</b>	<b>Number of sample PSUs</b>	<b><u>Basic CPS housing units eligible</u></b>		<b><u>Total (CPS ASEC/ADS<sup>1</sup> + basic CPS) housing units eligible</u></b>

<b>1967 to 1971</b>	449	48,000	2,000	48,000	2,000
<b>1963 to 1966</b>	357	33,400	1,200	33,400	1,200
<b>1960 to 1962</b>	333	33,400	1,200	33,400	1,200
<b>1959</b>	330	33,400	1,200	33,400	1,200

1 The CPS ASEC was referred to as the Annual Demographic Survey (ADS) until 2002.

2 The Census Bureau redesigned the CPS following the Census 2000. During phase-in of the new design, housing units from the new and old designs were in the sample.

3 The Census Bureau redesigned the CPS following the 1980 Decennial Census of Population and Housing.

4 The Census Bureau redesigned the CPS following the 1970 Decennial Census of Population and Housing.

**The 2015 Annual Social and Economic Supplement.** In addition to the basic CPS questions, interviewers asked supplementary questions for the CPS ASEC. They asked these questions of the civilian noninstitutional population and also of military personnel who live in households with at least one other civilian adult. The additional questions covered the following topics:

- Household and family characteristics
- Marital status
- Geographic mobility
- Foreign-born population
- Income from the previous calendar year
- Poverty
- Work status/occupation
- Health insurance coverage
- Program participation
- Educational attainment

Including the basic CPS sample, approximately 99,500 housing units were in sample for the CPS ASEC. About 84,600 housing units were determined to be eligible for interview, and about 74,300 interviews were obtained (see Table 1).

The additional sample for the CPS ASEC provides more reliable data for Hispanic households, non-Hispanic minority households, and non-Hispanic White households with children 18 years or younger. These households were identified for sample from previous months and the following April. For more information about the households eligible for the CPS ASEC, please refer to reference [2].

**Estimation Procedure.** This survey's estimation procedure adjusts weighted sample results to agree with independently derived population estimates of the civilian noninstitutionalized population of the United States and each state (including the District of Columbia). These population estimates, used as controls for the CPS, are prepared monthly to agree with the most current set of population estimates that are released as part of the Census Bureau's population estimates and projections program.

The population controls for the nation are distributed by demographic characteristics in two ways:

- Age, sex, and race (White alone, Black alone, and all other groups combined).
- Age, sex, and Hispanic origin.

The population controls for the states are distributed by race (Black alone and all other race groups combined), age (0-15, 16-44, and 45 and over), and sex.

The independent estimates by age, sex, race, and Hispanic origin, and for states by selected age groups and broad race categories, are developed using the basic demographic accounting formula whereby the population from the 2010 Decennial Census data is updated using data on the

## APPENDIX G

components of population change (births, deaths, and net international migration) with net internal migration as an additional component in the state population estimates.

The net international migration component in the population estimates includes a combination of the following:

- Legal migration to the United States.
- Emigration of foreign-born and native people from the United States.
- Net movement between the United States and Puerto Rico.
- Estimates of temporary migration.
- Estimates of net residual foreign-born population, which include unauthorized migration.

Because the latest available information on these components lags the survey date, it is necessary to make short-term projections of these components to develop the estimate for the survey date.

### ACCURACY OF THE ESTIMATES

A sample survey estimate has two types of error: sampling and nonsampling. The accuracy of an estimate depends on both types of error. The nature of the sampling error is known given the survey design; the full extent of the nonsampling error is unknown.

**Sampling Error.** Since the CPS estimates come from a sample, they may differ from figures from an enumeration of the entire population using the same questionnaires, instructions, and enumerators. For a given estimator, the difference between an estimate based on a sample and the estimate that would result if the sample were to include the entire population is known as sampling error. Standard errors, as calculated by methods described in “Standard Errors and Their Use,” are primarily measures of the magnitude of sampling error. However, they may include some nonsampling error.

**Nonsampling Error.** For a given estimator, the difference between the estimate that would result if the sample were to include the entire population and the true population value being estimated is known as nonsampling error. There are several sources of nonsampling error that may occur during the development or execution of the survey. It can occur because of circumstances created by the interviewer, the respondent, the survey instrument, or the way the data are collected and processed. For example, errors could occur because:

- The interviewer records the wrong answer, the respondent provides incorrect information, the respondent estimates the requested information, or an unclear survey question is misunderstood by the respondent (measurement error).
- Some individuals who should have been included in the survey frame were missed (coverage error).
- Responses are not collected from all those in the sample or the respondent is unwilling to provide information (nonresponse error).
- Values are estimated imprecisely for missing data (imputation error).
- Forms may be lost, data may be incorrectly keyed, coded, or recoded, etc. (processing error).

To minimize these errors, the Census Bureau applies quality control procedures during all stages of the production process including the design of the survey, the wording of questions, the review of the work of interviewers and coders, and the statistical review of reports.

Two types of nonsampling error that can be examined to a limited extent are nonresponse and undercoverage.

**Nonresponse.** The effect of nonresponse cannot be measured directly, but one indication of its potential effect is the nonresponse rate. For the cases eligible for the 2015 ASEC, the basic CPS household-level nonresponse rate was 13.4 percent. The household-level nonresponse rate for the ASEC was an additional 14.2 percent. These two non-response rates lead to a combined supplement nonresponse rate of 25.7 percent.

In accordance with Census Bureau and Office of Management and Budget Quality Standards, the Census Bureau will conduct a nonresponse bias analysis to assess nonresponse bias in the 2015 ASEC.

**Sufficient Partial Interview.** A sufficient partial interview is an incomplete interview in which the household or person answered enough of the questionnaire for the supplement sponsor to consider the interview complete. The remaining supplement questions may have been edited or imputed to fill in missing values. Insufficient partial interviews are considered to be nonrespondents. Refer to the supplement overview attachment in the technical documentation for the specific questions deemed critical by the sponsor as necessary to be answered in order to be considered a sufficient partial interview.

**Undercoverage.** The concept of coverage in the survey sampling process is the extent to which the total population that could be selected for sample “covers” the survey’s target population. Missed housing units and missed people within sample households create undercoverage in the CPS. Overall CPS undercoverage for March 2015 is estimated to be about 13 percent. CPS coverage varies with age, sex, and race. Generally, coverage is larger for females than for males and larger for non-Blacks than for Blacks. This differential coverage is a general problem for most household-based surveys.

The CPS weighting procedure partially corrects for bias from undercoverage, but biases may still be present when people who are missed by the survey differ from those interviewed in ways other than age, race, sex, Hispanic origin, and state of residence. How this weighting procedure affects other variables in the survey is not precisely known. All of these considerations affect comparisons across different surveys or data sources.

A common measure of survey coverage is the coverage ratio, calculated as the estimated population before poststratification divided by the independent population control. Table 2 shows March 2015 CPS coverage ratios by age and sex for certain race and Hispanic groups. The CPS coverage ratios can exhibit some variability from month to month.

## APPENDIX G

**Table 2. CPS Coverage Ratios: March 2015**

Age group	All people	<u>Total</u>		<u>White only</u>		<u>Black only</u>		<u>Residual race</u>		<u>Hispanic</u>	
		Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
<b>0-15</b>	0.87	0.88	0.87	0.92	0.91	0.76	0.71	0.79	0.83	0.83	0.84
<b>16-19</b>	0.87	0.89	0.84	0.89	0.88	0.91	0.71	0.87	0.75	0.87	0.90
<b>20-24</b>	0.76	0.75	0.76	0.79	0.80	0.62	0.65	0.69	0.69	0.74	0.81
<b>25-34</b>	0.81	0.79	0.83	0.83	0.87	0.66	0.72	0.73	0.74	0.76	0.82
<b>35-44</b>	0.89	0.87	0.90	0.90	0.94	0.73	0.82	0.77	0.77	0.81	0.86
<b>45-54</b>	0.88	0.86	0.91	0.87	0.93	0.76	0.83	0.83	0.83	0.75	0.87
<b>55-64</b>	0.90	0.90	0.90	0.91	0.92	0.87	0.83	0.82	0.85	0.78	0.78
<b>65+</b>	0.93	0.93	0.94	0.94	0.95	0.82	0.88	0.92	0.81	0.84	0.81
<b>15+</b>	0.87	0.86	0.88	0.88	0.91	0.76	0.79	0.79	0.78	0.79	0.84
<b>0+</b>	0.87	0.86	0.88	0.89	0.91	0.75	0.77	0.79	0.79	0.80	0.84

- Notes: (1) The Residual race group includes cases indicating a single race other than White or Black, and cases indicating two or more races.
- (2) Hispanics may be any race. For a more detailed discussion on the use of parameters for race and ethnicity, please see the “Generalized Variance Parameters” section.

**Comparability of Data.** Data obtained from the CPS and other sources are not entirely comparable. This results from differences in interviewer training and experience and in differing survey processes. This is an example of nonsampling variability not reflected in the standard errors. Therefore, caution should be used when comparing results from different sources.

Data users should be careful when comparing estimates for 2014 in *Income and Poverty in the United States: 2014* and *Health Insurance Coverage in the United States: 2014* (which reflect Census 2010-based controls) with estimates for 1999 to 2010 (from March 2000 CPS to March 2011 CPS), which reflect 2000 census-based controls, and to 1992 to 1998 (from March 1993 CPS to March 1999 CPS), which reflect 1990 census-based controls. Ideally, the same population controls should be used when comparing any estimates. In reality, the use of the same population controls is not practical when comparing trend data over a period of 10 to 20 years. Thus, when it is necessary to combine or compare data based on different controls or different designs, data users should be aware that changes in weighting controls or weighting procedures could create small differences between estimates. See the following discussion for information on comparing estimates derived from different controls or different sample designs.

Data users should be careful when comparing the data from this microdata file, which reflects Census 2010-based controls, with microdata files from January 2003 through December 2011, which reflect 2000 census-based controls. Ideally, the same population controls should be used when comparing any estimates. In reality, the use of the same population controls is not practical when comparing trend data over a period of 10 to 20 years. Thus, when it is necessary to combine or compare data based on different controls or different designs, data users should be aware that changes in weighting controls or weighting procedures can create small differences between estimates. See the discussion following for information on comparing estimates derived from different controls or different sample designs.

Microdata files from previous years reflect the latest available census-based controls. Although the most recent change in population controls had relatively little impact on summary measures such as averages, medians, and percentage distributions, it did have a significant impact on levels. For example, use of Census 2010-based controls results in about a 0.2 percent increase from the 2000 census-based controls in the civilian noninstitutionalized population and in the number of families and households. Thus, estimates of levels for data collected in 2012 and later years will differ from those for earlier years by more than what could be attributed to actual changes in the population. These differences could be disproportionately greater for certain population subgroups than for the total population.

Users should also exercise caution because of changes caused by the phase-in of the Census 2010 files (see “Basic CPS”).<sup>4</sup> During this time period, CPS data were collected from sample designs based on different censuses. Three features of the new CPS design have the potential of affecting published estimates: (1) the temporary disruption of the rotation pattern from August 2014 through June 2015 for a comparatively small portion of the sample, (2) the change in sample areas, and (3) the introduction of the new Core-Based Statistical Areas. Most of the known effect on estimates during and after the sample redesign will be the result of changing from 2000 to 2010 geographic definitions. Research has shown that the national-level estimates of the metropolitan and nonmetropolitan populations should not change appreciably because of the new sample design. However, users should still exercise caution when comparing metropolitan and nonmetropolitan estimates across years with a design change, especially at the state level.

Caution should also be used when comparing Hispanic estimates over time. No independent population control totals for people of Hispanic origin were used before 1985.

**A Nonsampling Error Warning.** Since the full extent of the nonsampling error is unknown, one should be particularly careful when interpreting results based on small differences between estimates. The Census Bureau recommends that data users incorporate information about nonsampling errors into their analyses, as nonsampling error could impact the conclusions drawn from the results. Caution should also be used when interpreting results based on a relatively small number of cases. Summary measures (such as medians and percentage distributions) probably do not reveal useful information when computed on a subpopulation smaller than 75,000.

For additional information on nonsampling error including the possible impact on CPS data when known, refer to references [2] and [3].

**Estimation of Median Incomes.** The Census Bureau has changed the methodology for computing median income over time. The Census Bureau has computed medians using either Pareto interpolation or linear interpolation--depending on the size of the income interval--Pareto for intervals larger than \$2,500 in width, linear otherwise. Currently, we are using linear interpolation to estimate all medians. Pareto interpolation assumes a decreasing density of population within an income interval, whereas linear interpolation assumes a constant density of population within an income interval. The Census Bureau calculated estimates of median

---

<sup>4</sup> The phase-in process using the 2010 Census files began in April 2014.

## APPENDIX G

income and associated standard errors for 1979 through 1987 using Pareto interpolation if the estimate was larger than \$20,000 for people or \$40,000 for families and households.

We calculated estimates of median income and associated standard errors for 1976, 1977, and 1978 using Pareto interpolation if the estimate was larger than \$12,000 for people or \$18,000 for families and households. This is because the width of the income interval containing the estimate is greater than \$1,000. All other estimates of median income and associated standard errors for 1976 through 2014 (2015 CPS ASEC) and almost all of the estimates of median income and associated standard errors for 1975 and earlier were calculated using linear interpolation.

Thus, use caution when comparing median incomes above \$12,000 for people or \$18,000 for families and households for different years. Median incomes below those levels are more comparable from year to year since they have always been calculated using linear interpolation. For an indication of the comparability of medians calculated using Pareto interpolation with medians calculated using linear interpolation, see reference [5].

**Standard Errors and Their Use.** The sample estimate and its standard error enable one to construct a confidence interval. A confidence interval is a range about a given estimate that has a specified probability of containing the average result of all possible samples. For example, if all possible samples were surveyed under essentially the same general conditions and using the same sample design, and if an estimate and its standard error were calculated from each sample, then approximately 90 percent of the intervals from 1.645 standard errors below the estimate to 1.645 standard errors above the estimate would include the average result of all possible samples.

A particular confidence interval may or may not contain the average estimate derived from all possible samples, but one can say with specified confidence that the interval includes the average estimate calculated from all possible samples.

Standard errors may also be used to perform hypothesis testing, a procedure for distinguishing between population parameters using sample estimates. The most common type of hypothesis is that the population parameters are different. An example of this would be comparing the percentage of men who were part-time workers to the percentage of women who were part-time workers.

Tests may be performed at various levels of significance. A significance level is the probability of concluding that the characteristics are different when, in fact, they are the same. For example, to conclude that two characteristics are different at the 0.10 level of significance, the absolute value of the estimated difference between characteristics must be greater than or equal to 1.645 times the standard error of the difference.

The Census Bureau uses 90-percent confidence intervals and 0.10 levels of significance to determine statistical validity. Consult standard statistical textbooks for alternative criteria.

**Estimating Standard Errors.** The Census Bureau uses replication methods to estimate the standard errors of CPS estimates. These methods primarily measure the magnitude of sampling error. However, they do measure some effects of nonsampling error as well. They do not measure systematic biases in the data associated with nonsampling error. Bias is the average over all possible samples of the differences between the sample estimates and the true value.

There are two ways to calculate standard errors for the 2015 CPS ASEC microdata file. They are:

- Direct estimates created from replicate weighting methods;
- Generalized variance estimates created from generalized variance function parameters a and b.

While replicate weighting methods provide the most accurate variance estimates, this approach requires more computing resources and more expertise on the part of the user. The Generalized Variance Function (GVF) parameters provide a method of balancing accuracy with resource usage as well as a smoothing effect on standard error estimates across time. For more information on calculating direct estimates, see reference [6]. For more information on generalized variance estimates refer to the “Generalized Variance Parameters” section.

**Generalized Variance Parameters.** While it is possible to compute and present an estimate of the standard error based on the survey data for each estimate in a report, there are a number of reasons why this is not done. A presentation of the individual standard errors would be of limited use, since one could not possibly predict all of the combinations of results that may be of interest to data users. Additionally, data users have access to CPS microdata files, and it is impossible to compute in advance the standard error for every estimate one might obtain from those data sets. Moreover, variance estimates are based on sample data and have variances of their own. Therefore, some methods of stabilizing these estimates of variance, for example, by generalizing or averaging over time, may be used to improve their reliability.

Experience has shown that certain groups of estimates have similar relationships between their variances and expected values. Modeling or generalizing may provide more stable variance estimates by taking advantage of these similarities. The generalized variance function is a simple model that expresses the variance as a function of the expected value of the survey estimate. The parameters of the generalized variance function are estimated using direct replicate variances. These generalized variance parameters provide a relatively easy method to obtain approximate standard errors for numerous characteristics.

The generalized variance parameters to use in computing standard errors are dependent upon the race/ethnicity group of interest. Table 3 summarizes the relationship between the race/ethnicity group of interest and the generalized variance parameters to use in standard error calculations.

In this source and accuracy statement, Table 4 provides the generalized variance parameters for labor force estimates, and Table 5 provides generalized variance parameters for characteristics from the 2015 CPS ASEC supplement. Also, tables are provided that allow the calculation of parameters for prior years and parameters for states and regions. Tables 6 and 7 contain

## APPENDIX G

correlation coefficients for comparing estimates from consecutive years. Tables 8 and 9 provide factors and population controls to derive state and regional parameters.

The basic CPS questionnaire records the race and ethnicity of each respondent. With respect to race, a respondent can be White, Black, Asian, American Indian and Alaskan Native (AIAN), Native Hawaiian and Other Pacific Islander (NHOPI), or combinations of two or more of the preceding. A respondent's ethnicity can be Hispanic or non-Hispanic, regardless of race.

**Table 3. Estimation Groups of Interest and Generalized Variance Parameters**

Race/ethnicity group of interest	Generalized variance parameters to use in standard error calculations
Total population	Total or White
White alone, White AOIC, or White non-Hispanic population	Total or White
Black alone, Black AOIC, or Black non-Hispanic population	Black
Asian alone, Asian AOIC, or Asian non-Hispanic population	Asian, AIAN, NHOPI
AIAN alone, AIAN AOIC, or AIAN non-Hispanic population	
NHOPI alone, NHOPI AOIC, or NHOPI non-Hispanic population	
Populations from other race groups	Asian, AIAN, NHOPI
Hispanic population	Hispanic
Two or more races – employment/unemployment and educational attainment characteristics	Black
Two or more races – all other characteristics	Asian, AIAN, NHOPI

- Notes: (1) AIAN is American Indian and Alaska Native and NHOPI is Native Hawaiian and Other Pacific Islander.  
 (2) AOIC is an abbreviation for alone or in combination. The AOIC population for a race group of interest includes people reporting only the race group of interest (alone) and people reporting multiple race categories including the race group of interest (in combination).  
 (3) Hispanics may be any race.  
 (4) Two or more races refers to the group of cases self-classified as having two or more races.

**Standard Errors of Estimated Numbers.** The approximate standard error,  $s_x$ , of an estimated number from this microdata file can be obtained by using the formula:

$$s_x = \sqrt{ax^2 + bx} \quad (1)$$

Here  $x$  is the size of the estimate and  $a$  and  $b$  are the parameters in Table 4 or 5 associated with the particular type of characteristic. When calculating standard errors from cross-tabulations involving different characteristics, use the set of parameters for the characteristic that will give the largest standard error.

### Illustration 1

Suppose there were 3,767,000 unemployed females in the civilian labor force. Use Formula (1) and the appropriate parameters from Table 4 to get

Illustration 1	
Number of unemployed females in the civilian labor force ( $x$ )	3,767,000
a parameter ( $a$ )	-0.000028
b parameter ( $b$ )	2,788
Standard error	101,000
90-percent confidence interval	3,601,000 to 3,933,000

The standard error is calculated as

$$s_x = \sqrt{-0.000028 \times 3,767,000^2 + 2,788 \times 3,767,000} = 101,000$$

and the 90-percent confidence interval is calculated as  $3,767,000 \pm 1.645 \times 101,000$ .

A conclusion that the average estimate derived from all possible samples lies within a range computed in this way would be correct for roughly 90 percent of all possible samples.

### Illustration 2

Suppose there were 60,010,000 married-couple family households. Use Formula (1) and the appropriate parameters from Table 5 to get

Illustration 2	
Number of married-couple family households ( $x$ )	60,010,000
a parameter ( $a$ )	-0.000005
b parameter ( $b$ )	1,285
Standard error	243,000
90-percent confidence interval	59,610,000 to 60,410,000

The standard error is calculated as

$$s_x = \sqrt{-0.000005 \times 60,010,000^2 + 1,285 \times 60,010,000} = 243,000$$

and the 90-percent confidence interval is calculated as  $60,010,000 \pm 1.645 \times 243,000$ .

A conclusion that the average estimate derived from all possible samples lies within a range computed in this way would be correct for roughly 90 percent of all possible samples.

**Standard Errors of Estimated Percentages.** The reliability of an estimated percentage, computed using sample data for both numerator and denominator, depends on both the size of

## APPENDIX G

the percentage and its base. Estimated percentages are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more. When the numerator and denominator of the percentage are in different categories, use the parameter from Table 4 or 5 as indicated by the numerator.

The approximate standard error,  $s_{y,p}$ , of an estimated percentage can be obtained by using the formula:

$$s_{y,p} = \sqrt{\frac{b}{y} p(100 - p)} \quad (2)$$

Here  $y$  is the total number of people, families, households, or unrelated individuals in the base or denominator of the percentage,  $p$  is the percentage  $100 \cdot x/y$  ( $0 \leq p \leq 100$ ), and  $b$  is the parameter in Table 4 or 5 associated with the characteristic in the numerator of the percentage.

### Illustration 3

Suppose there were 212,589,000 out of 242,248,000 adults (aged 18 and older), or 87.8 percent, who graduated from high school. Use Formula (2) and the appropriate parameter from Table 5 to get

Illustration 3	
Percentage of adults who are high school graduates ( $p$ )	87.8
Base ( $y$ )	242,248,000
b parameter ( $b$ )	1,473
Standard error	0.08
90-percent confidence interval	87.7 to 87.9

The standard error is calculated as

$$s_{y,p} = \sqrt{\frac{1,473}{242,248,000} \times 87.8 \times (100 - 87.8)} = 0.08$$

The 90-percent confidence interval of the percentage of adults who graduated from high school is calculated as  $87.8 \pm 1.645 \times 0.08$ .

**Standard Errors of Estimated Differences.** The standard error of the difference between two sample estimates is approximately equal to

$$s_{x_1 - x_2} = \sqrt{s_{x_1}^2 + s_{x_2}^2 - 2rs_{x_1}s_{x_2}} \quad (3)$$

where  $s_{x_1}$  and  $s_{x_2}$  are the standard errors of the estimates,  $x_1$  and  $x_2$ . The estimates can be numbers, percentages, ratios, etc. Tables 7 and 8 contain the correlation coefficient,  $r$ , for CPS year-to-year comparisons. The correlations were derived for income, poverty, and health insurance estimates, but they can be used for other types of estimates where the year-to-year

correlation between identical households is high. For making other comparisons, assume that  $r$  equals zero. Making this assumption will result in accurate estimates of standard errors for the difference between two estimates of the same characteristic in two different areas, or for the difference between separate and uncorrelated characteristics in the same area. However, if there is a high positive (negative) correlation between the two characteristics, the formula will overestimate (underestimate) the true standard error.

#### Illustration 4

Suppose there were 24,514,000 men over age 24 who were never married and 10,908,000 men over age 24 who were divorced. The apparent difference is 13,606,000. Use Formulas (1) and (3) with  $r = 0$  and the appropriate parameters from Table 5 to get

<b>Illustration 4</b>			
	Never married ( $x_1$ )	Divorced ( $x_2$ )	Difference
Number of males over age 24	24,514,000	10,908,000	13,606,000
a parameter ( $a$ )	-0.000010	-0.000010	-
b parameter ( $b$ )	3,240	3,240	-
Standard error	271,000	185,000	328,000
90-percent confidence interval	24,068,000 to 24,960,000	10,604,000 to 11,212,000	13,066,000 to 14,146,000

The standard error of the difference is calculated as

$$s_{x_1-x_2} = \sqrt{271,000^2 + 185,000^2} = 328,000$$

The 90-percent confidence interval around the difference is calculated as  $13,606,000 \pm 1.645 \times 328,000$ . Since this interval does not include zero, we can conclude with 90 percent confidence that the number of never married men over age 24 was higher than the number of divorced men over age 24.

#### Illustration 5

Suppose that the percentage of children in poverty in 2014 was 21.1 percent out of 73,556,000 children, and the percentage of children in poverty in 2013 was 21.5 percent out of 73,439,000 people. The apparent difference is 0.7 percent. Use Formulas (2) and (3) and the appropriate parameter and correlation coefficient from Tables 5 and 6 to get

## APPENDIX G

Illustration 5			
	2013 ( $x_1$ )	2014 ( $x_2$ )	Difference
Percentage of children in poverty ( $p$ )	21.5	21.1	0.4
Base	73,439,000	73,556,000	-
b parameter ( $b$ )	10,859	4,974	-
Correlation coefficient ( $r$ )	-	-	0.45
Standard error	0.50	0.34	0.46
90-percent confidence interval	20.7 to 22.3	20.5 to 21.7	-0.4 to 1.2

The standard error of the difference is calculated as

$$s_{x_1-x_2} = \sqrt{0.50^2 + 0.34^2 - 2 \times 0.45 \times 0.50 \times 0.34} = 0.46$$

and the 90-percent confidence interval around the difference is calculated as  $0.4 \pm 1.645 \times 0.46$ . Since this interval includes zero, we can conclude with 90 percent confidence that the percentage of children in poverty in 2013 is not statistically different than the percentage of children in poverty in 2014.

**Standard Errors of Estimated Ratios.** Certain estimates may be calculated as the ratio of two numbers. Compute the standard error of a ratio,  $x/y$ , using

$$s_{x/y} = \frac{x}{y} \sqrt{\left(\frac{s_x}{x}\right)^2 + \left(\frac{s_y}{y}\right)^2 - 2r \frac{s_x s_y}{xy}} \quad (4)$$

The standard error of the numerator,  $s_x$ , and that of the denominator,  $s_y$ , may be calculated using formulas described earlier. In Formula (4),  $r$  represents the correlation between the numerator and the denominator of the estimate.

For one type of ratio, the denominator is a count of families or households and the numerator is a count of people in those families or households with a certain characteristic. If there is at least one person with the characteristic in every family or household, use 0.7 as an estimate of  $r$ . An example of this type is the average number of children per family with children.

For all other types of ratios,  $r$  is assumed to be zero. Examples are the average number of children per family and the family poverty rate. If  $r$  is actually positive (negative), then this procedure will provide an overestimate (underestimate) of the standard error of the ratio.

Note: For estimates expressed as the ratio of  $x$  per 100  $y$  or  $x$  per 1,000  $y$ , multiply Formula (4) by 100 or 1,000, respectively, to obtain the standard error.

### Illustration 6

Suppose there were 9,907,000 males working part-time and 17,428,000 females working part-time. The ratio of males working part-time to females working part-time would be 0.568, or 56.8 percent. Use Formulas (1) and (4) with  $r = 0$  and the appropriate parameters from Table 4 to get

Illustration 6			
	Males (x)	Females (y)	Ratio
Number who work part-time	9,907,000	17,428,000	0.568
a parameter (a)	-0.000031	-0.000028	-
b parameter (b)	2,947	2,788	-
Standard error	162,000	200,000	0.011
90-percent confidence interval	9,641,000 to 10,173,000	17,099,000 to 17,757,000	0.549 to 0.587

The standard error is calculated as

$$s_{x/y} = \frac{9,907,000}{17,428,000} \sqrt{\left(\frac{162,000}{9,907,000}\right)^2 + \left(\frac{200,000}{17,428,000}\right)^2} = 0.011$$

and the 90-percent confidence interval is calculated as  $0.568 \pm 1.645 \times 0.011$ .

### Illustration 7

Suppose that the number of families below the poverty level was 9,467,000 and the total number of families was 81,730,000. The ratio of families below the poverty level to the total number of families would be 0.116 or 11.6 percent. Use the appropriate parameters from Table 5 and Formulas (1) and (4) with  $r = 0$  to get

Illustration 7			
	In poverty (x)	Total (y)	Ratio (in percent)
Number of families	9,467,000	81,730,000	11.6
a parameter (a)	0.000052	-0.000005	-
b parameter (b)	1,518	1,285	-
Standard error	138,000	268,000	0.17
90-percent confidence interval	9,240,000 to 9,694,000	81,289,000 to 82,171,000	11.3 to 11.9

The standard error is calculated as

$$s_{x/y} = \frac{9,467,000}{81,730,000} \sqrt{\left(\frac{138,000}{9,467,000}\right)^2 + \left(\frac{268,000}{81,730,000}\right)^2} = 0.0017 = 0.17\%$$

and the 90-percent confidence interval of the percentage is calculated as  $11.6 \pm 1.645 \times 0.17$ .

## APPENDIX G

**Standard Errors of Estimated Medians.** The sampling variability of an estimated median depends on the form of the distribution and the size of the base. One can approximate the reliability of an estimated median by determining a confidence interval about it. (See “Standard Errors and Their Use” for a general discussion of confidence intervals.)

Estimate the 68-percent confidence limits of a median based on sample data using the following procedure:

1. Using Formula (2) and the base of the distribution, calculate the standard error of 50 percent.
2. Add to and subtract from 50 percent the standard error determined in step 1. These two numbers are the percentage limits corresponding to the 68-percent confidence interval about the estimated median.
3. Using the distribution of the characteristic, determine upper and lower limits of the 68-percent confidence interval by calculating values corresponding to the two points established in step 2.

Note: The percentage limits found in step 2 may or may not fall in the same characteristic distribution interval.

Use the following formula to calculate the upper and lower limits:

$$X_p = \frac{pN - N_1}{N_2 - N_1}(A_2 - A_1) + A_1 \quad (5)$$

where

$X_p$  = estimated upper and lower bounds for the confidence interval ( $0 \leq p \leq 1$ ). For purposes of calculating the confidence interval,  $p$  takes on the values determined in step 2. Note that  $X_p$  estimates the median when  $p = 0.50$ .

$N$  = for distribution of numbers: the total number of units (people, households, etc.) for the characteristic in the distribution.

= for distribution of percentages: the value 100.

$p$  = the values obtained in Step 2.

$A_1, A_2$  = the lower and upper bounds, respectively, of the interval containing  $X_p$ .

$N_1, N_2$  = for distribution of numbers: the estimated number of units

(people, households, etc.) with values of the characteristic less than or equal to  $A_1$  and  $A_2$ , respectively.

= for distribution of percentages: the estimated percentage of units (people, households, etc.) having values of the characteristic less than or equal to  $A_1$  and  $A_2$ , respectively.

4. Divide the difference between the two points determined in step 3 by 2 to obtain the standard error of the median.

Note: Median incomes and their standard errors calculated as below may differ from those in published tables and reports showing income, since narrower income intervals were used in those calculations.

#### Illustration 8

Suppose there were 124,587,000 households in 2015, and their income was distributed in the following way:

<b>Illustration 8</b>			
Income level	Number of households	Cumulative number of households	Cumulative percent of households
Under \$5,000	4,572,000	4,572,000	3.67%
\$5,000 to \$9,999	4,320,000	8,892,000	7.14%
\$10,000 to \$14,999	6,766,000	15,658,000	12.57%
\$15,000 to \$24,999	13,644,000	29,302,000	23.52%
\$25,000 to \$34,999	12,595,000	41,897,000	33.63%
\$35,000 to \$49,999	16,346,000	58,243,000	46.75%
\$50,000 to \$74,999	21,228,000	79,471,000	63.79%
\$75,000 to \$99,999	14,380,000	93,851,000	75.33%
\$100,000 and over	30,736,000	124,587,000	100.00%

1. Using Formula (2) with  $b = 1,393$ , the standard error of 50 percent on a base of 124,587,000 is about 0.17 percent.
2. To obtain a 68-percent confidence interval on an estimated median, add to and subtract from 50 percent the standard error found in step 1. This yields percentage limits of 49.83 and 50.17.
3. The lower and upper limits for the interval in which the percentage limits falls are \$50,000 and \$75,000, respectively.

Then the estimated numbers of households with an income less than or equal to \$50,000 and \$75,000 are 58,243,000 and 79,471,000, respectively.

## APPENDIX G

Using Formula (5), the lower limit for the confidence interval of the median is found to be about

$$X_{0.4985} = \frac{0.4983 \times 124,587,000 - 58,243,000}{79,471,000 - 58,243,000} (75,000 - 50,000) + 50,000 = 54,521$$

Similarly, the upper limit is found to be about

$$X_{0.5015} = \frac{0.5017 \times 124,587,000 - 58,243,000}{79,471,000 - 58,243,000} (75,000 - 50,000) + 50,000 = 55,020$$

Thus, a 68-percent confidence interval for the median income for households is from \$54,521 to \$55,020.

4. The standard error of the median is, therefore,

$$\frac{55,020 - 54,521}{2} = 249.5$$

**Standard Errors of Averages for Grouped Data.** The formula used to estimate the standard error of an average for grouped data is

$$s_{\bar{x}} = \sqrt{\frac{b}{y}(S^2)} \quad (6)$$

In this formula,  $y$  is the size of the base of the distribution and  $b$  is the parameter from Table 4 or

5. The variance,  $S^2$ , is given by the following formula:

$$S^2 = \sum_{i=1}^c p_i \bar{x}_i^2 - \bar{x}^2 \quad (7)$$

where  $\bar{x}$ , the average of the distribution, is estimated by

$$\bar{x} = \sum_{i=1}^c p_i \bar{x}_i \quad (8)$$

where

$c$  = the number of groups;  $i$  indicates a specific group, thus taking on values 1 through  $c$ .

$p_i$  = estimated proportion of households, families, or people whose values for the characteristic being considered fall in group  $i$ .

$\bar{x}_i = (Z_{Li} + Z_{Ui})/2$  where  $Z_{Li}$  and  $Z_{Ui}$  are the lower and upper interval boundaries, respectively, for group  $i$ .  $\bar{x}_i$  is assumed to be the most representative value for the characteristic of households, families, or people in group  $i$ . If group  $c$  is open-ended, i.e., no upper interval boundary exists, use a group approximate average value of

$$\bar{x}_c = \frac{3}{2} Z_{Lc} \quad (9)$$

### Illustration 9

Suppose that there were 9,467,000 families in poverty and that the distribution of the income deficit (the difference between their family income and poverty threshold) for all families in poverty was

Income deficit	Number of families in poverty	Percentage of families in poverty ( $p_i$ )	Average income deficit ( $\bar{x}_i$ )
Under \$1000	593,000	6.3	500
\$1000 to \$2,499	907,000	9.6	1,750
\$2,500 to \$4,999	1,382,000	14.6	3,750
\$5,000 to \$7,499	1,333,000	14.1	6,250
\$7,500 to \$9,999	957,000	10.1	8,750
\$10,000 to \$12,499	902,000	9.5	11,250
\$12,500 to \$14,999	855,000	9.0	13,750
\$15,000 and over	2,537,000	26.8	22,500
Total	9,466,000*	100.0	

\*There may be a difference due to rounding

Using Formula (8),

$$\begin{aligned} \bar{x} = & (0.063 \times 500) + (0.096 \times 1,750) + (0.146 \times 3,750) + (0.141 \times 6,250) + (0.101 \times 8,750) + (0.095 \times 11,250) \\ & + (0.090 \times 13,750) + (0.268 \times 22,500) = 10,848 \end{aligned}$$

and Formula (7),

$$\begin{aligned} S^2 = & (0.063 \times 500^2) + (0.096 \times 1,750^2) + (0.146 \times 3,750^2) + (0.141 \times 6,250^2) + (0.101 \times 8,750^2) \\ & + (0.095 \times 11,250^2) + (0.090 \times 13,750^2) + (0.268 \times 22,500^2) - 10,848^2 = 62,638,000 \end{aligned}$$

## APPENDIX G

Use the appropriate parameter from Table 5 and Formula (6) to get

Illustration 9	
Average income deficit for families in poverty ( $\bar{x}$ )	\$10,848
Variance ( $S^2$ )	62,638,000
Base ( $y$ )	9,467,000
b parameter ( $b$ )	1,518
Standard error	\$100
90-percent confidence interval	\$10,684 to \$11,013

The standard error is calculated as

$$s_{\bar{x}} = \sqrt{\frac{1,518}{9,467,000} (62,638,000)} = 100$$

and the 90-percent confidence interval is calculated as  $\$10,848 \pm 1.645 \times \$100$ .

**Standard Errors of Estimated Per Capita Deficits.** Certain average values in reports associated with the CPS ASEC data represent the per capita deficit for households of a certain class. The average per capita deficit is approximately equal to

$$x = \frac{hm}{p} \quad (10)$$

where

$h$  = number of households in the class.

$m$  = average deficit for households in the class.

$p$  = number of people in households in the class.

$x$  = average per capita deficit of people in households in the class.

To approximate standard errors for these averages, use the formula

$$s_x = \frac{hm}{p} \sqrt{\left(\frac{s_m}{m}\right)^2 + \left(\frac{s_p}{p}\right)^2 + \left(\frac{s_h}{h}\right)^2 - 2r\left(\frac{s_p}{p}\right)\left(\frac{s_h}{h}\right)} \quad (11)$$

In Formula (11),  $r$  represents the correlation between  $p$  and  $h$ .

For one type of average, the class represents households containing a fixed number of people. For example,  $h$  could be the number of 3-person households. In this case, there is an exact

correlation between the number of people in households and the number of households. Therefore,  $r = 1$  for such households. For other types of averages, the class represents households of other demographic types, for example, households in distinct regions, households in which the householder is of a certain age group, and owner-occupied and tenant-occupied households. In this and other cases in which the correlation between  $p$  and  $h$  is not perfect, use 0.7 as an estimate of  $r$ .

#### Illustration 10

Suppose there were 32,615,000 people living in families in poverty, and 9,467,000 families in poverty, with an average deficit income for families in poverty of \$10,848 with a standard error of \$100 (from Illustration 9). Use Formulas (1), (10), and (11) and the appropriate parameters from Table 5 and  $r = 0.7$  to get

<b>Illustration 10</b>				
	Number ( $h$ )	Number of people ( $p$ )	Average income deficit ( $m$ )	Average per capita deficit ( $x$ )
Value for families in poverty	9,467,000	32,615,000	\$10,848	\$3,149
a parameter ( $a$ )	+0.000052	-0.000020	-	-
b parameter ( $b$ )	1,518	6,452	-	-
Correlation ( $r$ )	-	-	-	0.7
Standard Error	138,000	435,000	\$100	\$45
90-percent confidence interval	9,240,000 to 9,694,000	31,899,000 to 33,331,000	\$10,684 to \$11,013	\$3,075 to \$3,223

The estimate of the average per capita deficit is calculated as

$$x = \frac{9,467,000 \times 10,848}{32,615,000} = 3,149$$

and the standard error is calculated as

$$s_x = \frac{9,467,000 \times 10,848}{32,615,000} \sqrt{\left(\frac{100}{10,848}\right)^2 + \left(\frac{435,000}{32,615,000}\right)^2 + \left(\frac{138,000}{9,467,000}\right)^2 - 2 \times 0.7 \times \left(\frac{435,000}{32,615,000}\right) \times \left(\frac{138,000}{9,467,000}\right)} = 45$$

The 90-percent confidence interval is calculated as  $\$3,149 \pm 1.645 \times \$45$ .

**Accuracy of State Estimates.** The redesign of the CPS following the 1980 census provided an opportunity to increase efficiency and accuracy of state data. All strata are now defined within state boundaries. The sample is allocated among the states to produce state and national estimates with the required accuracy while keeping total sample size to a minimum. Improved accuracy of state data was achieved with about the same sample size as in the 1970 design.

Since the CPS is designed to produce both state and national estimates, the proportion of the total population sampled and the sampling rates differ among the states. In general, the smaller the

## APPENDIX G

population of the state the larger the sampling proportion. For example, in Vermont approximately 1 in every 250 households is sampled each month. In New York the sample is about 1 in every 2,000 households. Nevertheless, the size of the sample in New York is four times larger than in Vermont because New York has a larger population.

Note: The Census Bureau recommends the use of 3-year averages to compare estimates across states and 2-year averages to evaluate changes in state estimates over time. See “Standard Errors of Data for Combined Years” and “Standard Errors of Differences of 2-Year Averages.” The Census Bureau also recommends the American Community Survey microdata file as the preferred source for income and poverty state data in years 2006 (2005 estimates) to the present.

**Standard Errors for State Estimates.** The standard error for a state may be obtained by determining new state-level  $a$  and  $b$  parameters and then using these adjusted parameters in the standard error formulas mentioned previously. To determine a new state-level  $b$  parameter ( $b_{state}$ ), multiply the  $b$  parameter from Table 4 or 5 by the state factor from Table 9. To determine a new state-level  $a$  parameter ( $a_{state}$ ), use the following:

- (1) If the  $a$  parameter from Table 4 or 5 is positive, multiply it by the state factor from Table 9.
- (2) If the  $a$  parameter in Table 4 or 5 is negative, calculate the new state-level  $a$  parameter as follows:

$$a_{state} = \frac{-b_{state}}{POP_{state}} \quad (12)$$

where  $POP_{state}$  is the state population found in Table 9.

### Illustration 11

Suppose there were 15,268,000 people living in New York state who were born in the United States. Use Formulas (1) and (12) and the appropriate parameter, factor, and population from Tables 5 and 8 to get

Illustration 11	
Number of people in NY who were born in the U.S. ( $x$ )	15,268,000
$b$ parameter ( $b$ )	3,240
New York state factor	1.19
State population	19,550,311
State $a$ parameter ( $a_{state}$ )	-0.000197
State $b$ parameter ( $b_{state}$ )	3,856
Standard error	114,000

Obtain the state-level  $b$  parameter by multiplying the  $b$  parameter, 3,240, by the state factor, 1.09. This gives  $b_{state} = 3,240 \times 1.19 = 3,856$ . Obtain the needed state-level  $a$  parameter by

$$a_{state} = \frac{-3,856}{19,550,311} = -0.000197$$

The standard error of the estimate of the number of people in New York state who were born in the United States can then be found by using Formula (1) and the new state-level  $a$  and  $b$  parameters, -0.000197 and 3,856, respectively. The standard error is given by

$$s_x = \sqrt{-0.000197 \times 15,268,000^2 + 3,856 \times 15,268,000} = 114,000$$

**Standard Errors of Regional Estimates.** To compute standard errors for regional estimates, follow the steps for computing standard errors for state estimates found in “Standard Errors for State Estimates” using the regional factors and populations found in Table 9.

#### Illustration 12

Suppose there were 19,531,000 of 118,253,000 people, or 16.5 percent, living in poverty in the South. Use Formulas (2) and (12) and the appropriate parameter, factor, and population from Tables 5 and 9 to get

Illustration 12	
Poverty rate in the South ( $p$ )	16.5
Base ( $y$ )	118,253,000
$b$ parameter ( $b$ )	6,452
South regional factor	1.13
Regional $b$ parameter ( $b_{region}$ )	7,291
Standard error	0.29
90-percent confidence interval	16.0 to 17.0

Obtain the region-level  $b$  parameter by multiplying the  $b$  parameter, 6,452, by the South regional factor, 1.06. This gives  $b_{region} = 6,452 \times 1.13 = 7,291$ .

The standard error of the estimate of the poverty rate for people living in the South can then be found by using Formula (2) and the new region-level  $b$  parameter, 7,291. The standard error is given by

$$s_{y,p} = \sqrt{\frac{7,291}{118,253,000} \times 16.5 \times (100 - 16.5)} = 0.29$$

and the 90-percent confidence interval of the poverty rate for people living in the South is calculated as  $16.5 \pm 1.645 \times 0.29$ .

## APPENDIX G

**Standard Errors of Groups of States.** The standard error calculation for a group of states is similar to the standard error calculation for a single state. First, calculate a new state group factor for the group of states. Then, determine new state group  $a$  and  $b$  parameters. Finally, use these adjusted parameters in the standard error formulas mentioned previously.

Use the following formula to determine a new state group factor:

$$\text{state group factor} = \frac{\sum_{i=1}^n \text{POP}_i \times \text{state factor}_i}{\sum_{i=1}^n \text{POP}_i} \quad (13)$$

where  $\text{POP}_i$  and  $\text{state factor}_i$  are the population and factor for state  $i$  from Table 8. To obtain a new state group  $b$  parameter ( $b_{\text{state group}}$ ), multiply the  $b$  parameter from Table 4 or 5 by the state factor obtained by Formula (13). To determine a new state group  $a$  parameter ( $a_{\text{state group}}$ ), use the following:

- (1) If the  $a$  parameter from Table 4 or 5 is positive, multiply it by the state group factor determined by Formula (13).
- (2) If the  $a$  parameter in Table 4 or 5 is negative, calculate the new state group  $a$  parameter as follows:

$$a_{\text{state group}} = \frac{-b_{\text{state group}}}{\sum_{i=1}^n \text{POP}_i} \quad (14)$$

### Illustration 13

Suppose the state group factor for the state group Illinois-Indiana-Michigan was required. The appropriate factor would be

$$\text{state group factor} = \frac{12,695,960 \times 1.17 + 6,517,923 \times 1.11 + 9,810,823 \times 1.11}{12,695,960 + 6,517,923 + 9,810,823} = 1.14$$

**Standard Errors of Data for Combined Years.** Sometimes estimates for multiple years are combined to improve precision. For example, suppose  $\bar{x}$  is an average derived from  $n$

consecutive years' data, i.e.,  $\bar{x} = \sum_{i=1}^n \frac{x_i}{n}$ , where the  $x_i$  are the estimates for the individual years.

Use the formulas described previously to estimate the standard error,  $s_{x_i}$ , of each year's estimate. Then the standard error of  $\bar{x}$  is

$$s_{\bar{x}} = \frac{s_x}{n} \quad (15)$$

where

$$s_x = \sqrt{\sum_{i=1}^n s_{x_i}^2 + 2r \sum_{i=1}^{n-1} s_{x_i} s_{x_{i+1}}} \quad (16)$$

and  $s_{x_i}$  are the standard errors of the estimates  $x_i$ . Tables 6 and 7 contain the correlation coefficients,  $r$ , for the correlation between consecutive years  $i$  and  $i+1$ . Correlation between nonconsecutive years is zero. The correlations were derived for income and poverty estimates, but they can be used for other types of estimates where the year-to-year correlation between identical households is high.

The Census Bureau recommends the use of 3-year average estimates for certain small population subgroups<sup>5</sup> (see also “Accuracy of State Estimates.”) Two-year moving averages are recommended for these small population subgroups for comparisons across adjacent years (see “Standard Errors of Differences of 2-Year Averages.”)

#### Illustration 14

Suppose the 2012-2014 3-year average percentage of families with female householder, no husband present (FFH), in poverty was 30.7. Suppose the percentages and bases for 2012, 2013, and 2014 were 30.9, 32.2, and 30.6 percent and 15,489,000, 16,176,000 and 15,553,000 respectively. Use the appropriate parameters and correlation coefficients from Tables 5 and 6 and Formulas (2), (15), and (16) to get

Illustration 14				
	2012	2013	2014	2012-2014 avg
Percentage of families with female householder, no husband present (FFH), in poverty ( $p$ )	30.9	32.2	30.6	31.2
Base ( $y$ )	15,489,000	16,176,000	15,553,000	-
b parameter ( $b$ )	1,243	3,315	1,518	-
Correlation ( $r$ )	-	-	-	0.35, 0.35
Standard error	0.41	0.67	0.46	0.37
90-percent confidence interval	30.2 to 31.6	31.1 to 33.3	29.8 to 31.4	30.6 to 31.8

The standard error of the 3-year average is calculated as

$$s_{\bar{x}} = \frac{1.11}{3} = 0.37$$

where

$$s_x = \sqrt{0.41^2 + 0.67^2 + 0.46^2 + (2 \times 0.35 \times 0.41 \times 0.67) + (2 \times 0.35 \times 0.67 \times 0.46)} = 1.11$$

<sup>5</sup> Estimates of characteristics of the American Indian and Alaska Native (AIAN) and Native Hawaiian and Other Pacific Islander (NHOPI) populations based on a single-year sample would be unreliable due to the small size of the sample that can be drawn from either population. Accordingly, such estimates are based on multiyear averages.

## APPENDIX G

The 90-percent confidence interval for the 3-year average percentage of the AIAN population without health insurance is  $31.2 \pm 1.645 \times 0.37$ .

**Standard Errors of Differences of 2-Year Averages.** Comparing two non-overlapping 2-year averages also improves precision for comparisons across years. Use the formulas described previously to estimate the standard error,  $s_{xi}$ , of each year's estimate,  $x_i$ , and the standard error,  $s_{\bar{x}_{i,i+1}}$ , of each average,  $\bar{x}_{i,i+1}$ . Then the standard error of the difference of the two non-overlapping 2-year averages,  $\bar{x}_{1,2} - \bar{x}_{3,4}$ , is

$$s_{\bar{x}_{1,2} - \bar{x}_{3,4}} = \sqrt{s_{\bar{x}_{1,2}}^2 + s_{\bar{x}_{3,4}}^2 - \frac{1}{2} r s_{x_2} s_{x_3}} \quad (17)$$

### Illustration 15

Suppose that you want to calculate the standard error of the difference between the 2011, 2012 and 2013, 2014 averages of the percent of families with female householder, no husband present (FFH), in poverty. Use the following information along with Tables 5 and 8 and Formula (2) to get

	2011	2012	2013	2014
Percentage of families with female householder, no husband present (FFH), in poverty ( $p$ )	31.2	30.9	32.2	30.6
Base ( $y$ )	15,678,000	15,489,000	16,176,000	15,553,000
b parameter ( $b$ )	1,243	1,243	3,315	1,518
Standard error	0.41	0.41	0.67	0.46

Use this information, Formulas (15), (16), and (17), and the appropriate correlation coefficient from Table 6 to get

Illustration 15				
	2011, 2012	2012, 2013	2013, 2014	avg(2013, 2014) - avg(2011, 2012)
Average percent of families with female householder, no husband present (FFH), in poverty ( $\bar{x}$ )	31.1	-	31.4	-0.3
Correlation coefficient ( $r$ )	0.35	0.35	0.35	-
Standard error	0.34*	-	0.47*	0.53
90-percent confidence interval	30.5 to 31.7	-	30.6 to 32.2	-0.6 to 1.2

\*See "Standard Errors of Data for Combined Years" for instructions and illustrations on calculating these standard errors.

The standard error of the difference of the two 2-year averages is calculated as

$$s_{x_{1,2}-x_{3,4}} = \sqrt{0.34^2 + 0.47^2 - \frac{1}{2} \times 0.35 \times 0.41 \times 0.67} = 0.53$$

and the 90-percent confidence interval around the difference of the 2-year averages is calculated as  $-0.3 \pm 1.645 \times 0.53$ . Since this interval includes zero, we cannot conclude with 90 percent confidence that the 2013-2014 average percent of families with female householder, no husband present (FFH), in poverty was lower than the 2011-2012 average percent of families with female householder, no husband present (FFH), in poverty.

**Standard Errors of Quarterly or Yearly Averages.** For information on calculating standard errors for labor force data from the CPS which involve quarterly or yearly averages, please see the “Explanatory Notes and Estimates of Error: Household Data” section in *Employment and Earnings*, a monthly report published by the U.S. Bureau of Labor Statistics.

**Technical Assistance.** If you require assistance or additional information, please contact the Demographic Statistical Methods Division via e-mail at [dsmd.source.and.accuracy@census.gov](mailto:dsmd.source.and.accuracy@census.gov).

## APPENDIX G

**Table 4. Parameters for Computation of Standard Errors for Labor Force Characteristics:  
March 2015**

Characteristic	A	b
<b>Total or White</b>		
<i>Civilian labor force, employed</i>	-0.000013	2,481
<i>Not in labor force</i>	-0.000013	2,432
<i>Unemployed</i>	-0.000017	3,244
<i>Civilian labor force, employed, not in labor force, and unemployed</i>		
Men	-0.000031	2,947
Women	-0.000028	2,788
Both sexes, 16 to 19 years	-0.000261	3,244
<b>Black</b>		
<i>Civilian labor force, employed, not in labor force, and unemployed</i>	-0.000117	3,601
Men	-0.000249	3,465
Women	-0.000190	3,191
Both sexes, 16 to 19 years	-0.001425	3,601
<b>Asian, American Indian and Alaska Native, Native Hawaiian and Other Pacific Islander</b>		
<i>Civilian labor force, employed, not in labor force, and unemployed</i>	-0.000245	3,311
Men	-0.000537	3,397
Women	-0.000399	2,874
Both sexes, 16 to 19 years	-0.004078	3,311
<b>Hispanic, may be of any race</b>		
<i>Civilian labor force, employed, not in labor force, and unemployed</i>	-0.000087	3,316
Men	-0.000172	3,276
Women	-0.000158	3,001
Both sexes, 16 to 19 years	-0.000909	3,316

- NOTES: (1) These parameters are to be applied to basic CPS monthly labor force estimates.
- (2) The Total or White, Black, and Asian, AIAN, NHOPI parameters are to be used for both alone and in combination race group estimates.
- (3) For nonmetropolitan characteristics, multiply the a and b parameters by 1.5. If the characteristic of interest is total state population, not subtotaed by race or ethnicity, the a and b parameters are zero.
- (4) For foreign-born and noncitizen characteristics for Total and White, the a and b parameters should be multiplied by 1.3. No adjustment is necessary for foreign-born and noncitizen characteristics for Black, Hispanic, and Asian, AIAN, NHOPI parameters.
- (5) For the groups self-classified as having two or more races, use the Asian, AIAN, NHOPI parameters for all employment characteristics.

**Table 5. Parameters for Computation of Standard Errors for People and Families: 2015 CPS ASEC**

Characteristics	Total or White		Black		Asian, AIAN, & NHOPI		Hispanic	
	a	b	a	b	a	b	a	b
<b>PEOPLE</b>								
Educational attainment	-0.000006	1,473	-0.000031	1,666	-0.000060	1,345	-0.000029	1,126

Unemployment	-0.000016	3,782	-0.000151	4,220	-0.000346	3,907	-0.000141	4,220
<b>FAMILIES, HOUSEHOLDS, OR UNRELATED INDIVIDUALS</b>								
Income	-0.000006	1,393	-0.000028	1,521	-0.000068	1,521	-0.000028	1,521
Marital status, HH and family, educational attainment, population by age/sex	-0.000005	1,285	-0.000022	1,163	-0.000052	1,163	-0.000022	1,163
Poverty	0.000052	1,518	0.000052	1,518	0.000052	1,518	0.000052	1,518

NOTES: (1) These parameters are to be applied to the 2015 Annual Social and Economic Supplement data.  
(2) AIAN, NHOPI are American Indian and Alaska Native, Native Hawaiian and Other Pacific Islander, respectively.  
(3) Hispanics may be any race. For a more detailed discussion on the use of parameters for race and ethnicity, please see the "Generalized Variance Parameters" section.

## APPENDIX G

- (4) The Total or White, Black, and Asian, AIAN, NHOPI parameters are to be used for both alone and in-combination race group estimates.
- (5) For nonmetropolitan characteristics, multiply the  $a$  and  $b$  parameters by 1.5. If the characteristic of interest is total state population, not subtotaled by race or ancestry, the  $a$  and  $b$  parameters are zero.
- (6) For foreign-born and noncitizen characteristics for Total and White, the  $a$  and  $b$  parameters should be multiplied by 1.3. No adjustment is necessary for foreign-born and noncitizen characteristics for Black, Asian, AIAN, NHOPI, and Hispanic.
- (7) For the group self-classified as having two or more races, use the Asian, AIAN, NHOPI parameters for all characteristics except employment, unemployment, and educational attainment, in which case use Black parameters.

**Table 6. CPS Year-to-Year Correlation Coefficients for Income and Health Insurance Characteristics: 1961 to 2015**

Characteristics	1961-2001 (basic) or 2001 (expanded)-2015		2000 (basic)- 2001 (expanded)	
	People	Families	People	Families
<b>Total</b>	<b>0.30</b>	<b>0.35</b>	<b>0.19</b>	<b>0.22</b>
White	0.30	0.35	0.20	0.23
Black	0.30	0.35	0.15	0.18
Other	0.30	0.35	0.15	0.17
Hispanic	0.45	0.55	0.36	0.28

- NOTES: (1) Correlation coefficients are not available for income data before 1961.
- (2) Hispanics may be any race. For a more detailed discussion on the use of parameters for race and ethnicity, please see the “Generalized Variance Parameters” section.
- (3) These correlation coefficients are for comparisons of consecutive years. For comparisons of nonconsecutive years, assume the correlation is zero.
- (4) For households and unrelated individuals, use the correlation coefficient for families.

**Table 7. CPS Year-to-Year Correlation Coefficients for Poverty Characteristics: 1971 to 2015**

Characteristics	1973-84, 1985-2001 (basic) or 2001 (expanded)-2015		2000 (basic)-2001 (expanded)		1984-1985		1972-1973		1971-1972	
	People	Families	People	Families	People	Families	People	Families	People	Families
<b>Total</b>	<b>0.45</b>	<b>0.35</b>	<b>0.29</b>	<b>0.22</b>	<b>0.39</b>	<b>0.30</b>	<b>0.15</b>	<b>0.14</b>	<b>0.31</b>	<b>0.28</b>
White	0.35	0.30	0.23	0.20	0.30	0.26	0.14	0.13	0.28	0.25
Black	0.45	0.35	0.23	0.18	0.39	0.30	0.17	0.16	0.35	0.32
Other	0.45	0.35	0.22	0.17	0.30	0.30	0.17	0.16	0.35	0.32
Hispanic	0.65	0.55	0.52	0.40	0.56	0.47	0.17	0.16	0.35	0.32

- NOTES: (1) Correlation coefficients are not available for income data before 1961.  
(2) Hispanics may be any race. For a more detailed discussion on the use of parameters for race and ethnicity, please see the “Generalized Variance Parameters” section.  
(3) These correlation coefficients are for comparisons of consecutive years. For comparisons of nonconsecutive years, assume the correlation is zero.  
(4) For households and unrelated individuals, use the correlation coefficient for families.

**Table 8. Factors and Populations for State Standard Errors and Parameters: 2015 CPS ASEC**

State	Factor	Population	State	Factor	Population
Alabama	1.11	4,777,204	Montana	0.21	1,012,902
Alaska	0.18	705,915	Nebraska	0.52	1,860,179
Arizona	1.25	6,673,829	Nevada	0.77	2,827,256
Arkansas	0.73	2,919,497	New Hampshire	0.33	1,314,170
California	1.28	38,497,170	New Jersey	1.15	8,857,996
Colorado	1.22	5,307,236	New Mexico	0.51	2,045,811
Connecticut	0.86	3,546,934	New York	1.19	19,550,311
Delaware	0.22	925,954	North Carolina	1.18	9,784,188
District of Columbia	0.17	655,492	North Dakota	0.17	734,769
Florida	1.14	19,758,009	Ohio	1.10	11,442,965
Georgia	1.15	9,947,436	Oklahoma	1.06	3,815,959
Hawaii	0.32	1,366,600	Oregon	1.07	3,955,151
Idaho	0.41	1,625,350	Pennsylvania	1.11	12,603,173
Illinois	1.17	12,695,960	Rhode Island	0.28	1,040,973
Indiana	1.11	6,517,923	South Carolina	1.07	4,761,878
Iowa	0.77	3,076,575	South Dakota	0.22	840,000
Kansas	0.82	2,847,866	Tennessee	1.10	6,478,545
Kentucky	1.13	4,333,831	Texas	1.32	26,738,307
Louisiana	1.01	4,556,832	Utah	0.53	2,941,673
Maine	0.39	1,316,942	Vermont	0.18	620,147
Maryland	1.15	5,906,593	Virginia	1.19	8,147,488
Massachusetts	1.10	6,696,193	Washington	1.18	7,001,607
Michigan	1.11	9,810,823	West Virginia	0.48	1,820,393
Minnesota	1.13	5,421,475	Wisconsin	1.13	5,694,823
Mississippi	0.69	2,925,298	Wyoming	0.16	574,436
Missouri	1.13	5,968,763			

- NOTES: (1) The state population counts in this table are for the 0+ population.  
(2) For foreign-born and noncitizen characteristics for Total and White, the *a* and *b* parameters should be multiplied by 1.3. No adjustment is necessary for foreign-born and noncitizen characteristics for Black, Asian, AIAN, NHOPI, and Hispanic.

## APPENDIX G

<b>Table 9. Factors and Populations for Regional Standard Errors and Parameters: 2015 CPS ASEC</b>		
Region	Factor	Population
Midwest	1.06	66,912,121
Northeast	1.07	55,546,839
South	1.13	118,252,904
West	1.12	74,534,936

NOTES: (1) The state population counts in this table are for the 0+ population.  
 (2) For foreign-born and noncitizen characteristics for Total and White, the  $a$  and  $b$  parameters should be multiplied by 1.3. No adjustment is necessary for foreign-born and noncitizen characteristics for Black, Asian, AIAN, NHOPI, and Hispanic.

### Year-to-Year Factors

In past years, the U.S. Bureau of the Census published a table of year factors for the Annual Social and Economic Supplement in the source and accuracies statement. User demand for these factors has diminished with the introduction of replicate weights. Data users producing estimates from prior years should consult the source and accuracy statements covering the years of their analysis to estimate standard errors. If further assistance is needed, please contact the Demographic Statistical Methods Division via e-mail at [dsmd.source.and.accuracy@census.gov](mailto:dsmd.source.and.accuracy@census.gov).

# APPENDIX I

## User Notes

### User Note #2

#### Correction to Appendix G – Source and Accuracy Statement

The Source and Accuracy Statement (Appendix G) contained an error to Table 4 – Parameters for Computation of Standard Errors for Labor Force Characteristics. Incorrect a and b parameters appeared in this table, released in September 2015. This revision of Appendix G has the corrected parameters for Table 4.

This error also occurred in the Source and Accuracy Statements released for the 2016, 2017, and 2018 Annual Social and Economic Survey (ASEC). Look for corrected versions to those documents simultaneous to this correction.

December 2018
